WAKE UP YOUR LIVER BILE—

Without Calumet—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. This blocks up your stomach. You get constipated. You feel sour, sick and the world looks pink.

It takes those good, old Carter's Little Liver Pills to get these two pints of bile flowing freely to make you feel "up and up" and rarin' to make life flow freely. Ask for Carter's Little Liver Pills by name, 10¢ and 25¢. Stubbornly refuse anything else.
