That's "Traffic Nerves!" Psychologists who made tests for us found that almost everybody gets them, and that they get almost everybody down!

So we designed a new 76 especially helped for traffic driving to blend out down "Traffic Nerves."

Get a tankful, today. See for yourself how it cuts down "Traffic Nerves." Drive in at the sign of the big orange and blue 76.

GRAFT PROBER OF DETROIT DIES OF HEART ATTACK

DETROIT, March 11 (AP)—Special Prosecutor William C. Buckingham of the graft-probing grand jury, a victim of what his physician called "strain and overwork" during the months of investigation from which sprang sensational charges of official corruption, died Saturday after a stroke.

Buckingham, 42, a chief figure in the gathering and presentation of evidence in the case which has rocked Wayne county with indictment after indictment, collapsed at his Dearborn home last night. He died at 12:25 a. m. in a Detroit hospital.

The death of the vigorous attorney, a righthand man to Prosecutor Chester P. O'Hara in developing charges of wrongdoing against Prosecutor Duncan C. McCrea and others, came at a moment when the case had reached even another climax—the suspension of McCrea by Governor Dickinson and promise of a fight over it by McCrea.

"SPEED for bob-sledding thrills! SLOW BURNING for smoking thrills!"

says champion "Bucky" Wells

FOR THE THRILLS AND EXTRAS IN SMOKING — **EXTRA MILDNESS EXTRA COOLNESS EXTRA FLAVOR** AND EXTRA SMOKING—I PICK THE SLOW-BURNING CIGARETTE ... **CAMEL**

THEY'RE OFF—on the mile-long Mt. Van Hoevenberg run at Lake Placid, N. Y., with "Bucky" Wells driving. Fifteen breath-taking turns to go. Fifteen chances to taste the supreme thrills of speed. But in smoking it's different, very different. "It's slow burning that makes a cigarette tick with me," "Bucky" Wells says. And he means what he says, because he's smoked slow-burning Camels for ten years.

"ONE-TWO-BOB! ONE-TWO-BOB!" And, as the crew bobs, "Bucky" picks up speed . . . 60—70—80 miles an hour, driving high on the glassy walls of ice as he swings the quarter-ton steel sled around the curve. But in the field of cigarettes, this daring speedster gives the laurels to the quality of slow-burning he finds in Camels. You can tell by their mild, mellow taste that Camels burn cooler, slower—and scientists have confirmed this: Camels burned slowest of all in recent tests. (See panel below.)

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them. That means, on the average, a smoking plus equal to

5 EXTRA SMOKES PER PACK!

Camels—the cigarette of Costlier Tobaccos

IF you want to know how it feels to go 80 miles an hour on a racing bob-sled, "Bucky" Wells of Keene Valley, N. Y. can tell you. But when it comes to cigarettes, "Bucky" Wells is on the slow side . . . the slow-burning side. If you know your cigarettes, that means Camels!

"I know Camels burn slower," "Bucky" says. "There's cool comfort in a slow burning Camel. Mildness—more flavor. Every puff is a fresh treat to the taste, and—get this—there are many more puffs to enjoy in a Camel. Slow burning means extra smoking. I'd walk a mile for a . . ." Even if a gust of wind did carry away "Bucky's" last word, not many people would fail to realize it was C-A-M-E-L. Camels are made from costlier tobaccos—drawn from the greatest treasure of mellowed tobaccos ever brought together in one place in the world.
