

K. U. H. S. HOME ECONOMICS GIRLS PLAN DEMONSTRATION DAY! SATURDAY

APRIL 13

Klamath Union High School home economics students will hold Demonstration Day in local grocery stores Saturday, April 13, under the direction of Miss Alene Williamson and Miss Karen Nelson, home economics teachers at the high school.

In commenting on the Demonstration Day, Miss Williamson and Miss Nelson expressed their opinion that it is a fine opportunity for the girls to gain valuable experience, not only in meeting the customers in the stores, but exchanging ideas on domestic problems as well as observing the functions of the retail part of the food industry.

They also feel that every customer visiting the store will find it a pleasant experience in getting acquainted with these girls, and perhaps will gain some new ideas on domestic problems as well as some interesting information.

Upper class home economics students pictured on this page will be assisted in the stores by freshman and sophomore girls. The exceptional popularity of the activity necessitated the students teaming up.

Twenty-four Klamath Falls grocery stores are making their facilities available to the high school home economists all day Saturday. The home economics department join with R. A. Peterson, local representative of the National Biscuit company, and Guy Crane, local representative of the Kraft Cheese company, in expressing their appreciation to the local merchants.

Cooperation of Peterson and Crane made possible the Demonstration Day activity.

Stores Participating in Demonstration Day Will Feature:
Honey Maid Grahams 2-Lb. Pkg. **33c** Kraft Velveeta or American Cheese 2-Lb. Loaf **59c**

R. A. Peterson, of the National Biscuit company, believes that giving high school home economics students the opportunity of contacting food buyers generally and working with retail food stores will be a real benefit in supplementing their academic studies. "Pete," as he is known to the trade, has been the local representative of the National Biscuit company for the past three years. Through his cooperation with Guy Crane and the home economics department this Demonstration Day has been made possible. "I certainly want to thank the grocers for giving the girls this opportunity."

"I certainly am happy at having the opportunity of working with the high school home economics department in the downtown Demonstration Day," is the statement of Guy Crane, local representative of the Kraft Cheese company. Crane, who has been selling Kraft's products in Klamath Falls for the past three and a half years, has done much to make arrangements for this high school girls activity. "The enthusiasm shown by the girls and the grocers in taking advantage of this demonstration is very gratifying. They certainly receive my sincere thanks."

A big help toward
a delicious lunch!

The nutritious, wholesome food elements found in Honey Maid Graham Crackers help keep little bodies in good trim. Sweetened with pure honey and sugar, and rich with the natural flavor of skillfully prepared pure graham flour, Honey Maids score high in taste appeal with youngsters (and grown-ups, too). Try them with milk or fruits for a delicious lunch or "between meal" treat.

Fresh from the ovens they come to your food dealer in triple-sealed packages from a nearby National Biscuit Company bakery.
