For 15 years the operator has had to know all subscribers by name but the new system will include a new-fangled switchboard. It will be "Number 77 please" instead of the old-fashioned but friendly "Gimme Uncle Hank."

### Four Skeletons Unearthed in California

UKIAH, Calif., May 1 (UP)—Four human skeletons were unearthed by WPA men yesterday on a construction job along the Longvale-Dos Rios highway, 45 miles from Ukiah.

It was believed the skeletons might be those of victims of the "Battle of Bloody Run" in California's early days, when whites rounded up the Indians in Bloody Run canyon and massacred them after a series of horse thefts had aroused the settlers.

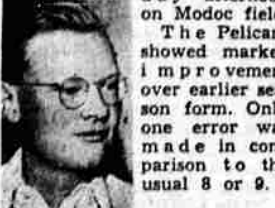

Authorities also considered it possible the skeletons were from an ancient Indian burial ground, or were evidence of the wholesale murder of a family committed in the mountain feuds of the first years of white settlement of Mendocino county.

The skeletons were found across the Eel river from Tatu station on the Northwestern Pacific railroad a few miles from Dos Rios.

## Every day was a circus—for a while

The roar of the crowd... the thundering hoofs foretold the fall of mighty Rome—all because an empire went pleasure-mad and forgot what made it great. Rome went soft. All play and no work has always spelled collapse—for a person as well as a nation. Isn't a balanced life with a fair share of work and a fair share of leisure more sensible and satisfying? Then tasks become attractive—and there's still ample time for your hobbies, family and friends. They help you readjust your perspective... revitalize your good

humor... rest your mind and body. Good work puts you in a mood for recreation, and healthful re-creation puts you back in the mood for work. Your moderation puts you in balance and in harmony with progress.
