Rome Greets Japs With Anti-British Demonstration

ROME, May 21 (UP)—Anti-British demonstrations punctuated a boisterous welcome which 75,000 Italians in Venice square roared to a Japanese commercial and "friendship" mission arriving in Rome yesterday.

"Down with Britain," chanted a group of 100 sailors waving Italian flags. "Down with democracies" also was heard amid the larger volume of welcoming noise to the Japanese. Some 1000 of the demonstrators formed a procession of their own and left Venice square. They tried to march on the Yugoslav legation, but hundreds of steel helmeted guards with fixed bayonets persuaded them to desist.

PORK MUST UNDERGO THOROUGH COOKING

"Cook all pork thoroughly and be sure you get your pork from a reliable source," is the advice of the nutritionist of the Maryland state department of health.

"Here is the reason for it: Pork is one of the most popular meats on the winter menu—and in the form of hot dogs it is equally popular as an all-the-year round article of diet, but there is always a chance that the uncooked meat may contain the tiny parasite that causes the disease known as 'trichinosis.'"

"Because this disease has such painful and lasting results, every precaution should be taken to prevent it. The parasite is so small that it cannot be seen by the naked eye. Fortunately, it can easily be destroyed by cooking pork thoroughly—until it is white. Pink pork should NEVER be eaten!"

"One of the most common sources of this meat infection is through the feeding of raw garbage to hogs. If meat is obtained from a reliable source the danger of buying infected pork is lessened, but the additional precaution of thorough cooking is equally necessary."

"The federal government has done much to protect the consumer through its inspections and requirements that all pork products be treated in such a manner that this parasite is killed. However, as all pork products are not federally inspected, thorough cooking is necessary for both fresh pork products, to insure protection. "Special hazards are found in 'hot dog' stands where frankfurters or hamburgers made with pork scraps may be sold. Be sure that these hot dogs are thoroughly cooked at the stand."

"Nearly half the meat eaten in the United States is pork. It contributes generously to the nutritive value of our diet. Be sure it is safe. Cook it thoroughly!"

VETERANS OF FOREIGN WARS

Pelican Post 1383
At 6:30 a. m. next Saturday morning, May 25, the 19th annual sale of "Buddy" poppies will be off to a flying start. Members of Pelican Post 1383, Veterans of Foreign Wars and their auxiliary, will be on the streets of Klamath Falls offering the little mementos for sale for 10 cents each.

Last year the demand for these little emblems far exceeded the supply, and many persons who would have liked to get one were told that the little flowers were all sold out by early afternoon.

This year Chairman Comrade Sid Frazier of the "Buddy" poppy committee has on hand an extra 1000 of the little tokens, and his only worry now is that even with this extra supply there may still be a shortage.

Mrs. Ray Williams is chairman of the auxiliary poppy committee and announces that everything is in readiness for the opening day.

The "Buddy" poppy is copyrighted by congress, and is authorized for use by the Veterans of Foreign Wars of the United States.

These little flowers are made by disabled veterans in government hospitals, and each and every dime of the purchase price goes for the benefit of these disabled veterans and their dependents.

No commissions or bonus is paid to anyone on these sales. We of the VFW are glad to do

this little service for the benefit of our less fortunate comrades, and we appreciate the support of the public.

And so we urge: Wear a "Buddy" poppy for Decoration day.

Next meeting of Pelican Post 1383, VFW, will be on Thursday evening, June 6, KC hall "over the Rainbow."

AMERICAN LEGION AUXILIARY
