Garcelon's

Pat Livingston told me this week about a gal who has a reputation for possessing a decided flair for smart table appointments, and all she does is take advantage of the unlimited possibilities for combinations offered by her pottery. . . . Incidentally, there are two new styles of Franciscan pottery at Garcelon's now, both of them lovely, although very different from each other.

The Montecito pattern, being sold for the first time in Klamath Falls, is more formal in its simplicity, its dignified lines and light pastel shades. . . . Garcelon's has it in light blue, shell pink, light yellow and pale green. . . . And a 16-piece starter set for four is only \$4.95.

The new Duotone is simply exquisite. . . . Every piece has two colors—ivory and pastel. For instance, cup is ivory on the outside and pastel inside. . . . Plates are pastel on top and ivory underneath. . . . This pattern comes in the soft mat finish, and is the highest priced of all Franciscan pottery. . . . But you can get a 16-piece starter set for \$5.95, which is a saving of \$1.95 on the open stock price.

At Garcelon's.

The manager of a large lingerie shop on the Atlantic coast said recently that he could sell a lot of gray nightwear if someone would make it. . . . His reason was that tranquil colors are the most popular for bedtime wear. . . . That tea rose and soft blues with a green that have continued as top favorites for years because they are very tranquil colors.

Persian Colors

We're going to have Persian color effects in our clothes before the next year has passed. . . . At least, that's the prophecy from those who have guessed correctly before. . . . And it's supposed to be caused by two things. . . . The Iranian Art Exhibition in New York, and the fact that the European war probably will force the United States to originate and develop its own cycle of color fashions.

The Persian art collection is likely to form the very inspiration American designers need, according to the fashion sages. . . . In fact, already Bonwit Teller & Co. in New York has launched a group of clothes in which the styles and fabric colors are taken from the Persian. . . . I think Persian color combinations are lovely. . . . There are delicate greens combined with coral, Persian turquoise or blue-green shades with neutrals, and Persian red is gorgeous in itself. . . . Besides, the Persians have colorful embroidered ideas that could be adapted to our use very easily.

Cottons, as I have mentioned before, hold the spotlight for this summer. . . . So if you're allergic to cotton you're going to have a hard time finding anything to wear from bathing suits to evening gowns, including daytime dresses and two-piece suits.

FIRMS SIGN WITH KLAMATH AFL

Contracts with the AFL have been signed by three Klamath basin concerns, it was announced Thursday at the labor temple. The Culinary Alliance, local 424, has signed contracts with Mrs. Camille Christie, manager of the Pelican hotel, 1014 Main street; with Ole Eglund, manager of Ole's Tavern, 1012 Main street, and with Caroline LeClerc, operator of Pat's Tavern at Keno.

ALL BALLED UP

CHICAGO, (AP)—Several members of the county highway police force saw white dots in front of their eyes—1500 of 'em in fact.

The "dots" were golf balls which the officers tallied before putting theft charges against four men, accused of

People passing by Moe's Wednesday afternoon couldn't help getting the idea that 1940 beachwear features swimming in the nude. . . . Because in the center of a window showing a lot of bathing suits was a model with nothing on except a pair of beach sandals.

Moe's Hat Dept.

Here's a bargain. . . . All the dark straws at Moe's Millinery Department are now one-half price. . . . This includes all the new ones which just came in this week, too! There are wide brims, small brims, and no brims, in every different style that is popular now.

These dark straws are black or navy, you know. . . . Many of them have white trimming or are accented with the lovely new pastel shades. . . . At Moe's.

Currin's

Right now, at the very beginning, is the time to guard against disastrous sunburn. . . . A lovely tan is all right, but a burned or sun-baked complexion can cause you grief for years. . . . So, since "an ounce of prevention is worth a pound of cure," I'm going to speak of ways and means of acquiring a soft tan over a smooth, fine skin.

There's a Sunproof Cream put out by Rubinstein that can be used alone or as a make-up base. . . . It's non-greasy. . . . A thick, creamy substance you can apply on your face, arms, legs and other exposed skin. . . . It allows only a minimum of tanning.

For a healthy tan, however, the thing to use is Sunburn Oil. . . . Also made by Rubinstein. . . . It contains ingredients which constitute an ultra-violet filter to prevent painful sunburn. . . . The oils lubricate the skin so there's no danger of getting baked by the sun. . . . But you can get a beautiful tan.

Within the next few days Currin's. . . . (Which is exclusive agent for Rubinstein products here) . . . Will receive a shipment of Rico-Tan make-up film. . . . This gives you a tan appearance before the sun has done its work. . . . And applied over your own tan, it evens the color, relieves any dryness, and is a perfect powder base. . . . You'll find these preparations at Currin's, of course.

New Panties

The newest things in panties are called "cradle snatchers". . . . The panties are, I mean. . . . They are lace-trimmed, knit rayon with lastex shirring. . . . Where they first went on sale, they were priced at 39 cents. . . . And were sold out almost immediately.

And while we're on the subject. . . . Two New York stores are having a sort of fight as to the color of nether garments. . . . Wanamaker's is featuring "dogwood" white corsets. . . . While Lord & Taylor is showing girdles, panties and bras in matched polka dots.

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people have on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

"BLOSSOM-OUT" don't "blow-out" this Spring

Spring may mean "love, tra la" to young bloods, but it also means those tires of yours are about to take a beating. Faster driving and warmer weather generate the internal tire heat that causes most blowouts. Can your old tires stand the strain?

Why not get the protection of the NEW Seiberling Safety Tire and BE SURE you're safe! They are the only tires in the world with "Heat Vents" that expel dangerous internal heat from the blowout zone. These Safety Tires are built with "Saf-flex" cord, a new Seiberling development that absorbs road shock—gives you greater comfort and greater protection. And they have a "Saw Tooth" tread that GRABS the road when you step on the brakes. Come in and let us give you a demonstration ride on these remarkable tires. We are offering Extra-generous Spring Trade-Ins—NOW!
