NEWS BEHIND THE NEWS

By PAUL MALLON

WASHINGTON, June 7—In private session with the house military affairs committee, straight-sighted General Marshall, the chief of staff, designated as the chief fifth-column danger spot in Latin-America, a nation which has not been publicly mentioned—Venezuela.

The Germans have a military interest there in the most essential of all allied war supplies, oil. The allies have been drawing heavily on their own British and French holdings there since Mussolini has been acting up in the Mediterranean and forcing them to extend their line of Mesopotamian supply around the Cape of Good Hope. If the Germans wanted to strike a blow at the allies in this hemisphere, the Venezuelan-Colombian oil fields and their related refining outlet in The Netherlands island of Aruba are the major spots in which they could do most damage.

The properties are protected only by company police inadequate even to cope with organized saboteurs. The allies landed small marine units at the Aruban refineries when Holland fell, but there are no other forces anywhere near this strategically valuable area, except ours in the Canal zone.

SIMPLE PLAN

Mr. Roosevelt's proposal to cloak himself with authority to call out the national guard sounded rather reasonable and unwelcome as Marshall explained it to the committee in confidence. He assumed these and other Latin-American nations might find their own forces inadequate to cope with possible local disturbances and, therefore, might be expected to call upon the United States for minor military assistance. Most Latin armies are mere police forces. In that case detachments would have to be sent from the regular army, and the national guard would merely be called up to take the assignments of the departing troops in this country.

Marshall did not go beyond that explanation, but reports in other quarters expanded the suggestion. Competent diplomatic sources have heard Mr. Roosevelt has a personal understanding with Brazil whereby United States military help could be called for. This is neither confirmed nor denied by officials here.

POLITICAL THORNS

Other Latin danger spots are mostly political and could have no immediate military interest to Germany or Italy. They are Montevideo, French Guiana and Southern Mexico. These cooperate least with the United States. The nations which have been working closely with us are Brazil, Venezuela, Colombia, Ecuador and the Central American republics.

ARMS SELLING

Germany has been shipping field guns and machine guns to the government of Brazil lately under a contract signed before the war started. The shipments have been routed through Italy. Hitler even under the pressure of war must have amazing stores of material. An international

ALLEY OOP

the editor by Mrs. Elizabeth Alice Thies, it is set forth what a terrible thing it would be for the U. S. A. to enter the war. I can understand how Mrs. Thies feels about this and I admire her for her very fine letter expressing her abhorrence of war. But, no matter how much we dislike this terrible thing that is being thrust upon us, simply sitting back and expressing our dislikes is going to win us nothing—NOW. The time is here when it is going to take REAL action to stop this thing from destroying all humanity. As it is, we are years late in taking any concerted action to defend our own shores and beloved free America.

This war in Europe is OUR WAR, too, for if it is lost by the allies, this monster, drunk with the success he has gained over there, will turn all his resources toward gaining the rest of his desire, which is to be world ruler.

In war, just as in civil life, the only way to dispose of a bully is to kick all the hell out of him. Give him just the same treatment he has given those weaker than he. Hitler has shown himself nothing less than a bully—and one of the lowest and most ruthless type. He has even bullied his own followers into doing whatever he called upon them to do. He cares no more for the lives of the German people than he does for the lives of his enemies, just so long as his greed for power may be fulfilled. And he has kept the German people under this subjection by never allowing them to know the real truth. If the good people in Germany (and there are many of them) knew how they had been duped into this thing, it would not be necessary for the allies to fire one shot. They would take care of Hitler and his co-assistants. But they have been fed on nothing but the idea that the allies are their bitter enemies and were about ready to invade their Germany and kill all of them.

In every one of Hitler's attacks on the small neutrals he has manufactured his own excuse for such attacks. Right now, he is manufacturing another of these excuses to invade Switzerland by the use of his dastardly propaganda method.

Even if, after winning the war against the allies, Hitler did not attempt to conquer the western hemisphere, he would be in a position to crush us economically. But don't kid yourselves into believing he would stop after crushing France and Britain. He would throw every machine at his command into high gear getting ready for his next big drive for world power. And he would have enough of his agents scattered over our land to hamper us VERY seriously in the matter of making our own preparations for protection. Right now, we are facing just that in the strikes and other subversive activities over the country. Foreign agents are at the bottom of all that. And yet many of our own good citizens fall for this thing and follow the foreign leaders in walkouts, thereby even taking the bread from the mouths of their babies. It is time, dear fellow worker, to stand on your hind feet like men and shout "Down with these agitators and enemies of our own welfare" then, and then only will you get anywhere against these cowardly agitators who bore from within and undermine the whole structure of the nation that was founded on the sacrifice of our beloved fore-

fathers, who gave their lives that we might have a land free, where we might live and enjoy blessings of this freedom. Are we, their sons and grandsons, going to stand idly by and see a foreign monster trample us underfoot? I don't think so, for there are still enough HE men in our land to stand up and say, "THEY SHALL NOT PASS" and then see to it they don't.

In conclusion, I want to again say, "Thanks and three cheers" for Mr. T. B. Young. We need more men of his intestinal fortitude to help keep America free for Americans.

Sincerely yours,
 J. C. EGAN.

SHERIFF'S POSSE LIMITS MEMBERSHIP

At a meeting of the Sheriff's Posse, organization made up of Klamath Falls businessmen and peace officers, held Wednesday night at Joe Evans ranch, it was decided to close the membership of the group at 75 men. The present membership is 67.

Uniforms for the group will be here within a short time, and will be worn during all performances of the Sheriff's Posse. Members meeting Wednesday made up the executive committee of which Dale Mattoon, deputy sheriff, is chairman.

Telling The Editor

IT'S "OUR WAR"

KLAMATH FALLS, Ore. (To the Editor)—Three cheers for Mr. T. B. Young for his timely and candid letter to the editor in the June 5 issue of The Herald. Thanks, Mr. Young, you took the words right out of my mouth, for I was all set to take issue with Mr. Burke over his letter which so bitterly criticised British. And since he is so bitter against England, he must therefore be in sympathy with Hitlerism. And I'd like to say to you, Mr. Burk, that this beloved country of ours is going to be a mighty unhealthy spot for ANY Hitler sympathizer from now on.

The ruthless slaughter of innocent and defenseless children and non-combatants has never been equaled in ANY war at ANY time in history. A human life to Hitler and his co-assistants means no more than stepping on an ant and the longer they are permitted to run amuck the more ruthless and blood-thirsty they will become.

The writer does not crave war any more than any other peace-loving citizen. But having lived through the Spanish-American war and the world war, it is not hard to visualize what will happen to the rest of the peace-loving world if the Hitler assassins are not stopped for all time.

At this time, just as happened in the last world war, we have to deal with a lot of pacifists who shout "stay out, remain neutral" and "we are safe." Many of these same pacifists right now are calling attention to what Lindbergh has said on the subject. But to date, Lindbergh has done nothing to prove he has ANY loyalty to the U. S. A. He has even been expelled from membership in an organization he should have been proud to be one of.

In another letter written to

arms salesman here recently told government authorities the Germans actually tried to sell the British machine guns on the eve of the war. The British had a contract with Skoda before the German occupation and continued to receive guns from the Czechoslovakian works after German occupation. When contract deliveries were completed the German management of Skoda wrote the British admiralty and suggested more guns could be furnished if the British wanted any.

LOOPHOLE GROWS

The obscure loophole in the RFC bill through which the administration may circumvent the Johnson act and give credits to the allies is turning out to be as large as a trans-Atlantic tunnel.

Through it this government could give the French and British ultimate credit of over \$500,000,000 to a billion dollars. Certainly \$200,000,000 could be thus advanced in a year without over-exertion.

The last paragraph of the complicated bill authorizes payment in advance on purchases of raw material futures to be delivered perhaps six months, a year, or more hence. The money could be spent immediately by the allies to purchase either farm products or manufactured materials in this country.

Thus this is credit bearing no interest. It can be advanced to any foreign government, and in quantities limited only by the unlimited domestic borrowing powers of RFC.

CORNETT LEAVES FOR ROTARY MEETING IN CUBA

Marshall E. Cornett, past district governor of Rotary club and active in affairs of the local club, left from Medford by plane Wednesday for Havana, Cuba, where he will represent the Klamath Falls club at the meeting of Rotary International.

The convention is scheduled for June 9 to 14. Cornett is expected to return by plane immediately after the convention.
