She is expected to formally interview Governor Charles A. Sprague in Salem during the Centennial celebrations there in late July and early August.

## WHEAT BIDS DROP CENT PER BUSHEL

CHICAGO, June 8 (AP)—Wheat prices fell slightly more than a cent a bushel today and then steadied.

Selling was based on war news which traders said appeared to be unfavorable to the allied situation, satisfactory weather over the domestic grain belt and reports of good to excellent crop conditions over most of the spring wheat area both sides of the Canadian border. On the basis of present prospects private crop experts forecast a large U. S. spring wheat harvest as well as possibly another bumper Canadian yield.

The setback in prices of other grains put most rye and oats quotations back to the minimums permitted by trading rules and caused virtual cessation of activity in these pits. The soy beans futures trade also was deadlocked, with No. 2 yellow beans selling at 81 cents, or 8 1/2c below the minimum price for July futures. Wheat closed 1/4c lower than yesterday, July 80-80 1/4c, September 50 1/4c, cgrn 4 1/4c off, July 63 1/4c, September 61 1/4c, oats unchanged to 1/2c lower.

**CORVALLIS,** June 8 (AP)—Students in civilian pilot training courses will receive instruction without cost instead of paying \$40 each, Ben F. Ruffner, Oregon State college professor of aeronautical engineering, was advised. The college will be assigned a minimum of 50 and possibly 60 students for training between June 15 and September 15.

## PRISON TERM

**HILLSBORO,** June 8 (AP)—A 15-year prison term was meted Espirion M. Ortiz, 18, Thursday after he pleaded guilty to manslaughter in the death of Bedford E. Story of Portland. Story was stabbed in a hobo jungle fight at Banks last Sunday, Marshall N. J. Griffith said.

## WAR FAILS TO GIVE TRADERS ANY INCENTIVE

**NEW YORK,** June 8 (AP)—War news provided scant bullish stimulation for the stock market today and leading issues shifted over a narrowly irregular trail.

It was one of the slowest sessions since last July. Transfers for the two hours totaled 199, 270 shares, smallest turnover since July 8, 1939. Final price changes mostly were in minor fractions either way.

Domestic business developments were still the main sustaining market influence, brokers said, notwithstanding a little more pessimism regarding proposed imposition of heavy defense taxes on both individuals and corporations.

"Free" sterling backed away, along with the French franc, following the ruling of the British that the official and higher rate for this currency would henceforth be used for all foreign commerce. Bonds were steady and commodities mixed.

Motors managed to tack on modest plus signs now and then as talk was heard of a few of these companies going into armaments lines in a big way. Willys-Overland common and preferred were up most of the day following announcement of this concern, with a subsidiary, would enter the munitions field. General Motors and Chrysler were resistant. The former was understood to be in a position to take care of expected army orders without any large increase in payrolls.

## 221 JUVENILE CASES LISTED IN MAY FILES

"May was a busy month for the juvenile office, with total cases reaching 221," according to Phyllis Corbett, county juvenile officer. "There were twenty-six new and re-opened cases, or an average of one a day, which coupled with those requiring constant supervision is too many to permit effective case work."

"Of the seven court hearings, three were delinquent Indian boys, one of whom was returned to the reform school, one placed on probation, and one sent away to an Indian school. The rest were dependency hearings. One little girl was removed temporarily from her mother's custody, one baby showing characteristics of feeble-mindedness was placed in a nursery home in Portland, and two orphan sisters were taken to a girls' boarding school near Portland. One family of small children was cited into court for constant stealing. Juvenile detention showed some improvement in May. Although seven boys were placed

in the county jail, they averaged only 34 days apiece. However, there were cases in which children should have been held in custody but could not be because the only place available was the county jail. One boy was held four days on a charge of assault of women but was released when found to be the wrong individual.

"One California boy was placed there on May 19 and still remains there awaiting removal to the state training school. He had been in jail since April 14 in California awaiting action there and was finally returned here because he had stolen a car from here. This court delayed action in an attempt to learn something of the boy's background. The attempt proved futile and he was committed."

## WOOL MARKET

**BOSTON,** June 8 (AP-USA)—Interest in wool on the Boston market was vigorously stimulated in the past week by the announcement of the quartermaster's department needs for wool goods in the next few months. A strong buying movement in country-packed three eighths and quarter blood bright fleece wools advanced prices during the week from around 35 cents to 38 to 39 cents, in the grease, delivered to mills. Demand increased moderately for territory and Texas wools.

In the 666 diners on British railways, more than 8,000,000 meals are served annually.

## BUDGET OUTLINED FOR SCHOOL BOARD

At the regular meeting of the school board of district 1, held Wednesday evening in Fremont school, with members of the budget committee, a tentative budget was made out for the school year of 1940-41. Further meetings will be held before the budget is completed, it was announced.

Acting on the budget committee are G. C. Blohm, chairman, E. M. Chilcote, Fred Fleet, C. A. Dunn and Mrs. R. W. Stearns. Mr. Dunn and Mrs. Stearns who were out of the city did not attend this first meeting. Mr. Fleet was asked to serve as alternate for Glenn Kent.

An agreement to appraise school property was entered into with the Acme Appraisal company by the school board. A leave of absence to attend school was granted to Dorothy Marie Mathers, as art instructor at Roosevelt school the past several years, was read and accepted.

A way could be found to utilize some of our stored gold for the development of vast and rich virgin regions in South and Central America. — James S. Carson, American and Foreign Power Co.

**ONLY ONE LOW PRICE CAR GIVES YOU THIS**

**FORD V-8 INSTRUCTION BOOK**  
You Don't Have to "Break-In" the Ford V-8

You can forget the tedious 500 or 1,000 mile breaking-in period with your new Ford. It is ready for normal driving immediately. You can drive it up to 60 miles an hour right from the start. After the first hundred miles you can drive it as fast as you desire.

This means that you can enjoy your Ford V-8 from the start—which is important particularly if you are thinking of taking a long trip—or if you use your car for business. You do not have to drag along at slow speeds.

The Ford V-8 needs no "breaking-in" because of unusual accuracy in the manufacture of moving parts and the smoothness of bearing surfaces. Clearances were correct when the car was delivered to you. The car does not need to depend on a long wearing-in period to eliminate tightness and insure smooth running.

Such precision methods are bound to result in longer life, greater economy and better performance. They are further proof of the care and quality that have gone into the making of your Ford V-8.

**When FORD says they're ready—they are!**

You don't have to baby your new Ford V-8 for 500 miles or so. The great engine in this car reports to you ready and rarin' to GO!

Beauty, style, safety, comfort, economy—every and any way you want to look at it—here is the quality car in the low-price field!

You can "give it the gun" the minute it arrives... head for the open road... feel the smooth sweep of power from those eight cylinders.

No other car in the low-price field promises you such instant action!

No other car in the low-price field gives you eight-cylinder action!

And every inch of the big Ford V-8 car matches the extra value and brilliant performance of its engine.
