

### TURKEY STORAGE HOLDINGS RISE

SAN FRANCISCO, July 17 (AP)—Although consumption of turkeys was unusually heavy, cold storage holdings in the nation on July 1 were much greater than in recent years, the department of agriculture reported yesterday.

Storage holdings totaled 36,739,000 pounds, more than double the volume in 1939 and the July 1 average of the past years. Consumption in June reduced stocks 3,468,000 pounds, compared with only 41,000 pounds in June, 1939, and an average June reduction of 870,000 pounds.

The total dressed poultry holdings in the country amounted to 82,389,000 pounds, 22 per cent more than a year ago, and 43 per cent more than the July 1 average.

The aggregate dressed poultry holdings in the Pacific section was 9,404,000 pounds, of which 4,524,000 pounds were held in California. Holdings were reduced 720,000 pounds in June, against an average June reduction of 175,000 pounds.

### JUNIOR POLICE ENCAMPMENT ENDS

Thirty members of the Klamath Falls junior police corps ended a week's encampment Sunday at Lake o' the Woods. The camp is sponsored annually

by the police department and is held under direct supervision of Spec Murray, city recreation officer.

Sergeant Wendell Holmes acted as cook during the week. The boys set up 4-H equipment for their camp facilities, the equipment to be used later by 4-H members. During the encampment the junior police held outdoor games, police drill and heard lectures by forest service rangers.

### HARD JOB

MOULTRIE, Ga., July 17 (AP)—Farmer E. L. Exum insists a turkey gobble on his place is industriously trying to hatch seven Irish potatoes.

### WESTERN PROWLERS WORK EARLIER THAN IN EAST

HARTFORD, Conn., July 17 (AP)—If burglars are going to enter your house the chances are they will do so around 9 o'clock in the evening, unless you live in some west coast community, a Hartford insurance company reported yesterday.

A survey conducted by the company in 47 cities showed that more burglaries occurred between 8 p. m. and midnight than at any other time of the day with 9 p. m. being the hour most favored by prowlers.

For some reason which the company did not attempt to explain burglars operate earlier in the far west. San Francisco reported more breaks between 2 and 5 p. m. than at any other time and Los Angeles and other western centers found the majority occurred between 6 and 8 p. m. This goes for Honolulu, too.

### TRY IT ANOTHER WAY, MISTER

NEW ORLEANS, July 17 (AP)—Sixty New Orleans city policemen squatted on the floor of the police gymnasium listening to Instructor William C. Maher lecture on bombs.

"What would you do?" he asked Patrolman Anthony Foret, pointing to a cigar box which represented a weight bomb.

"I'd open it like this," demonstrated Foret—There was a blinding flash and 60 policemen leaped to their feet and ran for the exits. Maher had rigged a photographer's flash bulb in the box to go off when it was opened.

**POLITE**  
CLEVELAND, July 17 (AP)—Mrs. Charles Dombayl breeds skunks for pets.

She leads them around with halters. She says they are polite little animals, which scarcely ever do what skunks are notorious for doing.

### DON'T DISTURB

NEWARK, N. J., July 17 (AP)—Morris Weiner put a police dog on guard at his poultry market at night.

Someone forced a door, escaped with \$1 dollar in pennies, \$5 dollars in stamps, and the dog. The chickens were not disturbed.

### NEW RATE

WASHINGTON, July 17 (AP)—A new rate schedule for inter-coastal shipment of wool from Pacific to Atlantic ports gained maritime commission approval Monday.

It increases the any-quantity rates 25 cents on 100 pounds of wool and mohair.

### WEATHER

**NORTHERN CALIFORNIA**—Fair tonight and Thursday, but cloudy along coast; slowly rising temperature in interior, gentle variable wind off coast.

**OREGON**—Fair tonight and Thursday but cloudy on coast; moderate temperature, gentle variable wind off coast.

### 1935 TRUCK RUNS OVER 100,000 MILES

TOMBSTONE, Ariz.—"The Town Too Tough to Die" has its counterpart in the Dodge school bus at Tombstone Union high school. A 1935 Dodge 1 1/2 ton truck with a 40-passenger body, the Tombstone bus has run 100,000 miles over unimproved roads and is still very much alive.

Tombstone, according to legend, is the frontier post where one mayor died a natural death. And there are the many stories of the old Bird Cage theatre, still on the main street as it was 60 years ago. And there's the Crystal palace where bullet holes remain as evidence of the gold mining days. But Tombstone now has a fine modern school, attended by students from miles around.

We must mobilize all our energies to face the harsh lessons of the present day.—President Getulio Vargas of Brazil.

### Low Water Hurts Angling In Rogue at Grants Pass

Practically no change in fishing conditions along the Rogue river near Grants Pass was reported this week in a bulletin received from Joe Wharton of the Grants Pass chamber of commerce. The bulletin states that fishing is comparatively poor on this part of the river. No steel heads or large fish of any kind are being taken and trout that are being caught average very small in size. Experienced fly fishermen can still take the limit

daily bag of 15 fish over the legal six-inch size prescribed by law but they have to fish hard and cover lots of water to do so. Thousands of young salmon from three to five inches long are migrating through this section and it is hard to keep these little fellows off the hook as they are voracious feeders. A few steelheads are seen and occasionally one is hooked and lost. On account of cooler water, fishing is better on the

upper tributaries above Trail and Prospect. An occasional steelhead is being taken between Gold Hill and Gold Ray dam, 18 to 25 miles up river from Grants Pass.

The Rogue is at this time lower in volume than it generally is in mid-August. Prospects are that the Rogue will reach an all time low water record this season, and an all-time record for high temperature of the water, all of which is not conducive to good fishing.

Selenium oxychloride will dissolve virtually every substance in the world, except tungsten, glass and platinum.

### IT'S ALL IN THE MAKING

**QUESTION** "Aren't popular Eastern oils better than 'RPM'?"  
**ANSWER** Definitely NO! How an oil is made is more important than where it comes from. "RPM" is

made by a costly process never before used. It has all the good features of the best Eastern oils—plus! STANDARD OIL COMPANY OF CALIFORNIA
