

Martha Shops and Shops

Pompadours . . . straight up off the forehead . . . are coming back . . . And you'll find many of the new hats are sort of bonnet-ques or caps, to fit on the back of the head behind the pompadour.

Currin's

Someone once said that daintiness is better than beauty . . . And, in the summer-time, I believe that is true . . . Which is why I'm going to remind you that Tussy Deodorant Cream is summer-sale priced at Currin's now . . . The large 2-ounce jar is only 50 cents . . . And you get twice as much, at least, as in the "large jars" of other cream deodorants.

Tussy Deodorant Cream was a complete stranger to me until I took advantage of this special price . . . But knowing the quality of Tussy products, I decided to try it . . . And now I can tell anyone who will listen that it really checks perspiration, banishes odors and won't hurt your clothes.

In addition, it goes on very easily and smoothly . . . Vanishes into the skin . . . And the only

reminder of its application is the lovely carnation fragrance.

Incidentally, Tussy recommends that you apply the thinnest kind of layer on your hands and in the crook of your arm . . . Also on your feet!

It appears to have a more lasting effect than most cream deodorants, too . . . You need to use it only every three or four days, ordinarily.

And remember, it's sale priced right now at Currin's For Drugs . . . Only 50 cents for the big jar.

Heavy gold jewelry is going to be very popular for Fall and Winter, according to what I hear.

Figure Out

If you have some last Fall clothes that looked as if they had been molded to your figure . . . And if you've lost a lot of weight since then . . . You can wear those same clothes with little change in detail treatment and be right in front as far as style is concerned.

Because . . . This Fall the smart thing will be to have clothes that look a little too big on you . . . What the men's tailors call the "casual look." Coat and suit manufacturers already have started this loosening up style . . . And sportswear people, too . . . But now the dress manufacturers are following the trend, and a lot of gals are going to have to change

their ideas . . . Molded, glove-fitting clothes will date you . . . You'll just have to forego showing off your finger this Fall.

Black suits, it is prophesied, are going to take the place of lounging pajamas for Fall.

Shop Work

The Fall season is due to start . . . You'll notice that many of the owners or managers of stores are away now, or about to leave, for "market" . . . Where they can look over what's new for Fall and order their stock . . . They call it work, but I'd welcome a little extra vacation like that.

Garcelon's

Last week, Mrs. Garcelon promised me that if I came in the store early enough this Wednesday, she'd buy me a drink in Pat Livingston's absence . . . So I arrived at 3 p. m. on the dot, and was rewarded with a delicious, cooling limeade.

I also got to see the cleverest kitchen-shower gift out . . . A new kind of recipe file that looks like a little shelf of books . . . But the books are metal . . .

And tip out to reveal record cards inside . . . Each book is labeled for quick reference . . . The files come in sets of three, five or seven books . . . And you can hang the whole thing up or place it on a table.

While we were sipping, Mrs. Garcelon told me that she and Jane . . . her daughter, you know . . . are going to leave Saturday afternoon for "market" . . . They're going to make a leisurely automobile trip, stopping at the outstanding gift stores in such places as Palo Alto, Santa Barbara, Pasadena, Los Angeles, Hollywood, etc., to look over the merchandising ideas in the stores.

Then, she says, she'll come back with all kinds of new ideas herself.

Collars are coming into their own again this Fall . . . Detachable ones. I mean . . . Most of them are white . . . You can use them to doll up last year's clothes.

Rudy's Men's Shop

Sports shirts that never need buttons sewn on them are the latest thing in men's wear . . . I saw a shipment that had just arrived at Rudy's Men's Shop Wednesday . . . The shirts have "gripper" snaps instead of buttons down the front.

Incidentally, Rudy told me that any shirt is a sports shirt

that looks better without a tie . . . The ones he has come in all shades of spun rayon, and have long or short sleeves . . . 50c to \$5.

Clem LeMire came into Rudy's Wednesday while I was there . . . And Ned Barnes greeted him with, "Hello, rat" . . . So Clem came back with, "Hello, brother."

Porch Pockets

Manufacturers and designers were almost shocked into reducing the size of pockets last year when they saw big decorative pockets literally bulging with stuff which changed the silhouette and sagged the garments . . . So this season they are guarding against that . . . Pockets for Fall will be pouchy, puffy and drapy as well as big . . . And they're as conspicuous as the porch on the front of a house . . . Fur-trimming on pockets, and nowhere else on the garment, is one feature of pocket bulging.

Brown is making a comeback in advance orders for Fall and Winter . . . It's expected to be THE color, second only to black which always is first . . . Wine will be third, so they tell me.

ARMY SELECTS MORROW AREA FOR BOMBERS

HEPPNER, Ore., July 18 (AP)—Major John C. Gates of McChord field, Tacoma, Wash., told a meeting here Tuesday evening that a 138,140-acre tract, 18 miles long and 21 miles wide, had been selected in Morrow county as a site for an army air corps bombing range. Several days ago Major Gates said at Arlington that a tract there, in Gilliam county, had been selected for the bomber base.

The range area in Morrow county will not be fenced, Major Gates said, but will be posted against entry except at personal risk.

For practice, regulation sized bombs will be used, he said, but they will contain a minimum amount of explosive, so the land will not be greatly damaged. The holes will be but about 18 inches deep and 12 inches wide, he said.

He added that there was a possibility of army construction of a bomb storage warehouse and a railway spur to serve it in Morrow county.

A squadron will be flown over Heppner so residents may observe its formation, he said.

The major said other western bomb ranges selected were on the Great Salt Lake desert and near Sacramento, Calif. J. O. Turner presided at the meeting, at which several viewpoints were expressed. Phillip Mahoney, attorney and sheepman, said sheep used the range spring and fall and sheep men would have to move or go out of business. Deep wells on the area would have to be abandoned and others dug elsewhere if stock were moved.

Morrow County Judge Bert Johnson said federal acquisition of the land would take away its taxes and they would have to be made up elsewhere and would probably compel rebudgeting.

As the range will close the Ione-Boardman highway, the judge said, residents of the Boardman and Irrigon regions, to reach Heppner, would have to travel via Hermiston or Heppner junction and the Willow Creek highway.

Everyone in Morrow county is patriotic and eager to aid in the national defense, said the judge, but its people feel they should have something besides a bomb range.

JOBLESS BENEFITS REVEAL BIG DROP

SALEM, July 18 — Unemployed benefits during June were \$101,521 less than in May, and \$19,013 less than June of 1939, according to figures announced today by Administrator Silas Gaiser. The \$286,986 paid out by the unemployed compensation commission last month marked a steady decline from the March peak of \$895,917.

Although insurance payments for the first six months of 1940 are slightly higher than for the similar period last year, officials expect the year's figures to be less than the \$4,052,888 paid out in 1939. Change to fixed base and benefit years resulted in \$2,816,498 benefits during the first half of 1940 against \$2,733,461 to June 30, 1939.

Initial claims taken at the 21 employment offices last week dropped to 423 while compensable continued claims for benefits fell to 4411, both figures being low for the year and considerably below last year at this time. Registration of unemployed now is 40,229 as compared with 47,114 last year.

STATE POLICE ARREST 1058

SALEM, July 18 (AP)—A total of 1058 persons, arrested by state police in June for violating motor vehicle laws, paid \$8098 in fines and were sentenced to 2512 days in jail. More than 8000 others received warnings.

There were 41 arrests for drunken driving, fines and sentences totaling \$2500 and 1495 days.

Mrs. F. D. R. Dons Makeup for Role in British Film Prologue

Mrs. Franklin D. Roosevelt appears before motion picture cameras in New York for her role in the prologue of the British anti-Nazi film, "Pastor Hall," which her son, James Roosevelt, will release in this country. Note Mrs. Roosevelt's movie makeup.

Miniature of Queen Mary

Knuth Wulfschmidt, San Francisco stevedore, took 2,400 hours of his time and \$250 worth of his savings and made this beautiful miniature of the Queen Mary, pride ship of the British Merchant Marine. He has the model on exhibition at the 1940 Golden Gate International Exposition on Treasure Island.

'Borrowed Timers' Strange Washington Organization

ELLENSBURG, Wash., July 18 (AP)—"We are a non-sectarian, self-governing and self-supporting group of young and middle-aged people living beyond our life spans as predicted by our various physicians."

That explains the "Borrowed-Timers of Ellensburg." This strange organization began in 1936. Every one of its members has been marked for early death by an accredited doctor. Not one has reached the obituary column yet.

In 1935 Jesse W. Green's wife, Nancy, was told by her physician she could not live out the year. She suffered from a heart ailment.

In 1936, still alive, she one day heard that a family friend, Civil Engineer Guyer T. Thomas of Yakima, Wash., had been conceded only two more weeks of life.

Thomas could consume only milk and cream. On Green's Ellensburg ranch there were cows. The Greens brought Thomas to the ranch. He improved, outlasted his two weeks and lived to become the current president of the Borrowed-Timers.

Given Few Days Lucille Bolding, an invalid, visited the dairy ranch occasionally. On one such visit she became violently ill and was put to bed. During her convales-

cence Thomas and the Greens learned that arthritis had been complicated by an emergency operation on a kitchen table. She had been given only a few days to live and had outlived them.

Her story, roughly paralleling those of Thomas and Mrs. Green, prompted them to organize the Borrowed-Timers. She became member No. 1.

A girl with a weak heart suffered two paralytic strokes. The physicians shook their heads and said she couldn't last out the month. She now is a Borrowed-Timer.

A woman suffered third degree burns over a large part of her body, spent 32 hours in surgery while scalpels removed burned flesh. The surgeons said she didn't have a chance. She had other ideas. She is a Borrowed-Timer.

Limitations Imposed As the club grew, it imposed a few limitations on membership. One is that 90 days must elapse, after the approximate time of death as predicted by a physician, before a candidate can become eligible.

This is to: 1. Soften the blow of a physician's tragic words. 2. To offer encouragement to the newly doomed. 3. To create a desire to live in the condemned and incite a mental and physical ef-

STATE JOB OFFICE TO ASSIST IN NYA

PORTLAND, July 18 (Special)—Effective this week, young men and women who seek placement on the NYA out-of-school work experience program may apply for interviews at offices of Oregon state employment service as well as in NYA offices established in various communities.

Ivan G. Munro, state NYA administrator, announced that assistance by the employment service in receiving NYA applications has been arranged in order to accommodate an "increasing volume" of youths who wish to obtain NYA training and work experience.

In communities where neither NYA nor the employment service maintains offices, the NYA will designate a person to interview young people and to receive their applications, it was stated.

Munro said that under NYA eligibility rules for the new fiscal year, which opened July 1, applications will be accepted from all youths between the ages of 18 and 24, inclusive, who are "in need of employment, work experience and training."

Work experience projects which will operate during the coming year will lay "strong emphasis," he said, on training youths in basic mechanical trades considered "vital to national needs."

Beatty

Mrs. Jack Harrison accompanied by Mrs. Bud Wilson drove June Harrison and Barbara Detrick of Bly to the Lake o' the Woods on Monday, where the girls are attending the Camp Fire girls camp being held there.

J. C. Harrison is visiting his aunt, Mrs. Walter Killiam, in Klamath Falls.

Steve Swain, badly injured in an automobile accident near Dorris recently, was moved from the Gray's hospital in Dorris to the Klamath Agency hospital on Monday. He is reported to be in a very serious condition.

Irvin Anderson of Medford visited in Beatty the first part of the week and attended to business matters connected with the sale of his Beatty property. Oscar Watah, who has been ill at his home across the river

for some time, is reported to be worse.

Dan Driscoll visited this week in Bonanza. Mr. and Mrs. Jack Harrison attended the posse breakfast held near Klamath Falls last Sunday morning.

Mrs. Zelma Riddle Hood is very sick at the Klamath Agency hospital.

Mrs. Pearl Boye of Klamath Falls is visiting at the Beatty store.

Mr. and Mrs. Sammy Godown are visiting relatives in Idaho.

Mr. and Mrs. Frank Schmitz drove to Klamath Falls on Tuesday evening, where he attended the organization meeting of the Young Republicans club.

Lou Arens of Salem and Jack Almeter of Klamath Falls were Beatty visitors on Tuesday.

Rev. B. V. Bradshaw was a Klamath Agency visitor on Tuesday.

John Ballew of San Francisco visited his granddaughter, Mrs. Jack Harrison on Tuesday.

Ethan Parrish is now clerking at the Beatty store.

Master Neal Causbie of Bly was a guest at the parsonage the first part of this week.

Mr. and Mrs. Herbert Heidenreich and daughter Shirley Lee were Klamath Falls shoppers on Monday.

Dr. Nerseeth of Chiloquin was a Beatty caller on Wednesday. Mr. and Mrs. Clyde Bramlett have moved to Redmond, Ore., where he is now employed.

John Simmons is leaving on Friday evening to attend the convention of Spanish War Veterans at Newport, Ore. Simmons is commander of Herbert Applegate camp No. 25.

If some of us have learned to pray in the last month, it is in keeping with the times, and will help to give us the strength we need—Harry Hopkins, secretary of commerce.

U. S. TO TRY OUT PARACHUTE PLAN

WASHINGTON, July 18 (AP)—An experiment in the training of parachute troops such as Germany and Russia have used in the European war was announced by the war department today.

For the first time, the department said, a test parachute platoon of two officers and 48 men has been organized and will be given training during the period of July 29 through August 3.

Secretary Stimson said that Major General G. A. Lynch had organized the platoon at Fort Benning, Ga., and that facilities of the Safe Parachute Company,

at Highstown, N. J., near Fort Dix, would be used for training. The platoon will use towers and other equipment of the civilian company, which will lend its instructors. The troops will wear the air corps uniform which is similar to overall suits.

Posters urging Colorado voters to restore racing in that state show the horses running the wrong way. That's nothing new to folks who bet 'em.
