## AGER OPENS MODERN STORE AT TULELAKE

By RUTH KING

TULELAKE, Aug. 6 — Marking the end of years of planning and anticipation, the formal opening Saturday of Earl's grocery, located on the corner of Modoc and Main streets, gives to the public of the Tulelake and Klamath basins one of the finest and most modern retail grocery establishments in northern California. Before the doors closed Saturday night nearly 5000 persons had called to offer congratulations to Mr. and Mrs. Earl Ager, who have been closely associated with the developments of the Tulelake area since before the day was established.

Dozens of beautiful floral greetings and out of town messages of congratulation poured in during the day. Managers of wholesale establishments and craftsmen associated with building the new store were present to assist and the hearty good will expressed throughout the entire day was responsible for the success of the introduction of the new store to the residents of the basin.

Folks who came during the day and evening "treasure hunt" for boxes of groceries and cold drinks were ready for the thrifty. Musical program numbers, instrumental and vocal, with tape dance numbers were presented by local talent and guests from San Francisco, Medford and Dorris. Assisting were O. A. Wickelin and Richard Harrison, Medford; Walter Ledesney, Sleepy Hollow; Shirley Marley, San Francisco; Henel Frydendall, Dorris; Jerry Gresham, Betty Shultz and Herbert Kirby, Tulelake.

While Mr. Ager personally supervised construction the building was designed and built by Karl Gentry, Tulelake contractor. The plumbing was installed by F. C. Bergeman, Tulelake; the electrical equipment by Otis Roper of the Tulelake Electric shop; and the fixtures were placed by C. A. Murray and his five sons. Refrigeration was installed by the Oregon Equipment company, Klamath Falls.

The streamlined fireproof building of brick and reinforced concrete is fronted with plate glass topped by block glass that diffuses light to all parts of the store. An attractive interior finish in light grey and green has been used with ultra-modern indirect light fixtures. Ceilings and walls are insulated, the interior is plaster finished and the floor is hemlock. Materials were almost without exception furnished by local dealers and work was completed with local labor. Fluhrer's bakery, Klamath Falls supplied the amplying equipment for the opening.

In addition to the main floor space of 82 by 100 feet the building has a mezzanine floor space of 40 by 80 feet divided into three rooms, one of which is occupied by the Haas Beauty salon operated by Mrs. Alice Haas. A second room is used as the store's office.

Hugh R. Wilson will act as assistant store manager, with Harold Clinton, Walter Michael and J. B. Hollander assisting. E. T. Wilder will be in charge of the meat department with Miss Ardyce Brown and Miss Peggy Duggan behind the soda fountain counter. Mr. Ager announced that a delicatessen department is to be added in the near future. On August 10, 1935, Ager here in the Barks building. When the business outgrew the room space an addition was built and finally progress developed a more modern background for the business. The building was completed in 120 working days at a cost of \$42,000 not including the \$18,000 stock on the shelves.

## TULELAKE HOTEL BEING REMODELED

TULELAKE — A remodeling program that will include modernizing and enlarging the entire west end of the Tulelake hotel, got under way Monday week, occupied by the dining room, under way Monday with Karl Gentry, local contractor, in charge.

The change will provide for an outside entrance according to Len Royce, owner, who stated Tuesday that the hotel will cater to family trade with every effort being made to make the room one of the most attractive in the basin.

The hotel in past years has been the mecca for hunters here for the fall shooting, with the hostelry being known in all parts of the Pacific coast area.

Streamlined pastel finishes are planned for the interior, counter service for ten patrons will be provided and tables for guests will be placed at intervals in the main dining hall. There will be no booth service.

August 20 has been set as the date for the opening.

Mr. and Mrs. Royce, former residents of Klamath Falls have operated the hotel here for several years. The building is located on Main street directly across from the recently completed grocery.

## Correspondent Tells of Flight Over Dunkerque, Channel Battle Areas

The following dispatch by United Press Correspondent Dana Schmidt describes a flight up the English channel coast in a German junkers plane—through the heart of the battle area of the intensified British-German war in the air.

By DANA SCHMIDT

United Press Staff Correspondent GHEENT, Belgium, Aug. 7 (UP)—(Delayed)—With swift Messerschmidt fighters all around us, I flew up the English channel coast to within 20 minutes flying distance of London today and visited the "jumping off" points of Germany's aerial offensive against the British Isles.

Eight Messerschmitt-109 fighters escorted our big junkers-52 transport plane aboard which a group of foreign correspondents visited Germany's bases for "Stuka" dive bombers and pursuit planes which are daily attacking shipping and British objectives.

The tour was arranged by Field Marshal Gen. Albert Kesselring of the German high command.

**Close to Britain**

So close were we to Britain—in our big swastika marked plane—that we could have seen the English coast had it not been for a heavy fog.

The eight Messerschmitts constantly zoomed around us, in and out of the clouds, searching for British planes.

We circled low over La Panne and over Dunkerque where the wreckage of a hundred or more British freighters, destroyers and other small craft jutted out of the water and the burned-out remains of the city lay below us like a skeleton—ghostly reminders of the British retreat from Dunkerque.

**Wrecked Tanks**

Thousands of wrecked automobiles and tanks of the British

expeditionary force still choked the roads around Dunkerque and were strewn all along the beach there.

We saw thin lanes through the fields where German tanks had swept westward to the coast, criss-crossing here and there where battles had occurred.

Where "Stuka" dive-bomber base was identified here but it is "somewhere near Bruges," a small town inland from Dunkerque and Bourlogne.

Immediately upon our arrival orders were given for a mock attack on the air base and three "Stukas" went up and exhibited their screaming dives.

After putting his horse through jumps, I Duce asks, "Am I sick? Am I tired?" The rest of the stanza probably goes, "Oh, I am OK, you're fired."
