

MRS. HUGH O'CONNOR, instigator of the Lost River Garden club has probably the most formal and unusual garden of the Merrill area. Pathways wind under vine entwined arches to attractive nooks and a lily pond shows originality as well as beauty. Mrs. O'Connor is shown with her two daughters, Mary Lou, at the left, and Patsy. Another daughter, Kathleen, is visiting in Los Angeles.

ONE OF THE LOVELY GARDENS that will contribute to the flower show at Merrill next Sunday is that of Mrs. Jack O'Connor in the Spring Lake district where a rustic touch adds informality. Mrs. O'Connor and her daughter, Mary, are standing beside the lily pool which is the center of attraction in the garden.

Gardens Bloom for Autumn Show

Blooms will be harvested in the southend district of the county this week for the sixth annual flower show sponsored by the Lost River Garden Club, which is another outstanding effort in women's organizations toward promoting interest in beautifying of home surroundings, thus adding to the attractiveness and appeal of not only the cities and towns but of the surrounding community as well.

The show this year, featuring the flowers of deep yellow, browns, reds and purples that make gardens of this season a riot of color, will be held Sunday, August the eighteenth, in the Merrill Library club house, and the fact that a day was selected when many will have the opportunity of viewing the display, it is expected to draw visitors from far around.

Only a few of the lovely gardens that have come into being under the skill and care of women in the area of Merrill and Lost River could be shown here, and it is regrettable that several other pictures did not develop satisfactorily due to the smokiness of the atmosphere. At the attractive R. W. Steele home, a well-cared-for lawn, flower beds and shrubbery make a charming setting, and the garden of Mrs. Willard Smith, showing thoughtful arrangement and care, is another one of the beauty spots of that section. Those mentioned and photographed are only a few in this region that is rapidly becoming famed for its gardens as well as its market products.
