

WILLKIE TALKS IN CHICAGO ON UNEMPLOYMENT

(Continued From Page One)

Franklin D. Roosevelt is re-elected the public debt at the end of the next four years will be from 75 to 100 billions." He asked the crowd:

"Is there anybody here who is so damned dumb as to think that that can go on for four years more?"

Members of the audience shouted: "No."

The speech in the unusual setting of the mile-square stock yards was the first of four arranged for the day in the city.

Upon his arrival at the Union station Willkie said he would speak "the truth in plain Indiana language."

CHICAGO, Sept. 13 (AP)—Wendell L. Willkie told a crowd of well-wishers in the Union station upon his arrival today that in the campaign he was beginning "I am going to give you the truth in plain Indiana language so that no one can misunderstand."

The republican presidential nominee, standing on a balcony of the station, spoke impromptu at the request of many from the throng which had gathered to greet him as he reached Chicago to give four addresses to industrial and negro groups.

"Crusade" "My speeches," he declared, "will be political and I will name them as such. I will never dodge or hedge.

"This is a crusade and I call to you in the name of the democratic way of life in America."

Captain John Prendergast of the Chicago uniformed police force estimated a crowd of at least 2000 had assembled in the station before the Willkie train arrived from Rushville, Ind. By the time Willkie had reached the interior of the station from his train, the crowd had swelled considerably.

Dressed in a gray suit, a soft gray hat and gray topcoat, the nominee stepped from the rear car of his train to a runway jammed with dignitaries, police and American Legionnaires representative of all posts in Cook county (Chicago).

7200-Mile Tour The candidate's hair was ruffled almost immediately when he brushed against a microphone as he stepped from the train.

Willkie was greeted formally by John D. M. Hamilton, executive director of the republican national committee; John T. Dempsey, chairman of the Cook county republican central committee, and Dwight H. Green, republican candidate for governor of Illinois.

Willkie's 7200-mile tour will take him throughout the middle and far west.

"Buccaneers" Before he left Rushville late last night he told a cheering throng around his 12-car special train that there was a "rare combination on the other side of this fight" and declared "the worst gang of buccaneers ever organized in American political history" was aligned against him.

The "buccaneers," he asserted, are coupled with a "high profession of noble ideals."

"Even though I face a ruthless

Barbara Bradfield, daughter of Captain and Mrs. Earl Bradfield, was a bad farewell this week by her friends at Chilgoin.

She accompanied her father and mother to Monterey presidio, where Captain Bradfield has been stationed. Barbara was active in the Campfire Girls, and members of her group at Chilgoin gave her a farewell party at the home of the guardian, Mrs. Roy Gienger.

gang of political corruptionists—Boss Hague, Kelly-Nash and Boss Flynn—I don't believe that corruption can sway the vote of the great cities.

"And I don't believe that an entrenched bureaucracy with billions of dollars to spend can influence an election."

His face lighted by flares from a torchlight procession, Willkie said that he was starting out to discuss "some of the most momentous questions which ever faced mankind" and that he went forward "unafraid."

"I still have faith," he shouted, "that there are millions over the nation whom no political machine can corrupt and no federal government can buy."

RURAL STATISTICS The United States, in 1909, had 12,200,000 farm families and hired hands. This number declined to 10,700,000 in 1938, but a 25 per cent increase in farm products was shown over the former year.

POTATO AMERICAN A native of tropical America from Mexico to Chile, the white potato was used as a food by the American Indians long before the arrival of the European white man.

Approximately 23,400 metric tons of nickel are consumed in the United States, most of it imported from Canada, annually.

ment might come today. London official quarters said there was no immediate confirmation of these reports.

Military observers in Cairo predicted the fascist drive would come within a week and coincide with Adolf Hitler's projected attempt to invade England, just as Italy's entrance into the war was timed with Germany's full-scale offensive into France and as soviet Russia's advance from the east squeezed Poland at the critical moment during the nazi invasion a year ago.

Jameson, Miley Gain Semi-Final

SEATTLE, Sept. 13 (UP)—National Champion Betty Jameson, San Antonio, Tex., and Marion Miley of Lexington, Ky., twice former western titlist, went into the semi-finals of the 40th annual women's western amateur championship Thursday with two Seattle stars.

Miss Jameson won an easy 5 and 4 victory over Nancy Hurst, Portland, Ore.

Miss Miley upset Elizabeth Hicks of Long Beach, Calif., 4 and 2. The Kentucky girl was 5 up at the end of the first nine holes and three under par at the turn. Miss Hicks rallied but could not overcome the disadvantage under which hooked shots put her on the first nine. At one time a second shot went into a water hole and she took off her shoes and stockings to wade in after the ball. Her recovery shot was poor.

It also reported that a British balloon barrage had snared a German plane early today.

The ministry, reporting other night raids against key distribution centers at Osnabruck, Hamm, Schwetie, Ehrang and Brussels, asserted that these vital junctions and freight yards of western Germany, "must play an important part in any attempted invasion of Britain."

"Troops, reserves, equipment and supplies moving westward to the channel ports from Germany must pass through one of the other of these key transportation points," it added.

A state is not efficient in which, for every 100 workers, there must be 40 policemen to see that the 100 don't slack, and 20 storm troopers to watch the policemen and a dozen secret agents to watch the watchers.—Robert E. Sherwood, playwright.

CLOUDBURST KILLS ONE IN EASTERN OREGON

(Continued from Page One)

Main street. A foot and a half of water was roaring through the streets less than an hour after the skies had unloosed their barrage. Eight thousand feet of lumber stacked on a slope was swept away like matchsticks. Wood piles, garbage and anything that would float was added to the debris.

Just before the cloudburst a heavy rain started then a hail-storm developed with the hail as large as walnuts. All of the windows in the west side of the Huntington school building were smashed as well as many others in the residential section.

Several thousand dollars in damage was reported early this morning.

British Strike La Havre, Other French Seaports

LONDON, Sept. 13 (AP)—British bombers struck heavily last night at La Havre, on the German held French coast, where the nazi army has been reported concentrating some of its most powerful units for an invasion of Britain, the air ministry announced tonight.

A German tanker and a supply ship were hit at La Havre, the ministry said.

It also reported that a British balloon barrage had snared a German plane early today.

The ministry, reporting other night raids against key distribution centers at Osnabruck, Hamm, Schwetie, Ehrang and Brussels, asserted that these vital junctions and freight yards of western Germany, "must play an important part in any attempted invasion of Britain."

"Troops, reserves, equipment and supplies moving westward to the channel ports from Germany must pass through one of the other of these key transportation points," it added.

FINAL ACTION NEAR ON DRAFT MEASURE

(Continued From Page One)

pleted and President Roosevelt signs the legislation, only the appropriation of the necessary funds—probably \$1,250,000,000—would be necessary to put the now-ready conscription machinery into operation. The tentative timetable lists the nationwide registration for 15 days after funds are voted, with the first contingent of trainees joining the army a month later.

Jap Newspaper Speaks Alarm at American Defense

TOKYO, Sept. 13 (AP)—The newspaper Kokumin, often a spokesman for the army, asserted today that the Japanese government was making special efforts to reach an understanding with soviet Russia on the ground that the United States' preparedness program is directed at Japan.

A rapprochement is being sought in order to safeguard Japan's rear because, the newspaper said, relations between the United States and Japan are "fraught with the danger of war."

America, the article continued, is offering severe strategic, economic and political opposition to Japan, indicating "deadly preparedness and definite plans."

As evidence, the newspaper cited appropriations for a two-ocean navy, and contended that the leasing of British territories in the Atlantic for naval bases would be followed by similar moves in the Pacific.

It ridiculed American declarations that the proposed bans of scrap iron and gasoline are for purposes of national defense. The real reason, the article claimed, is to deny these commodities to Japan. Weighty political pressure was seen in Secretary of State Cordell Hull's remarks relative to the maintenance of the status quo in Indo China.

An edolith is a primitive stone implement.

GRID SEASON OPENS TONIGHT AT MODOC FIELD

(Continued from Page One)

and Veteran Weber received a bad cut over the eye. Bill Christiansen, reserve halfback, was carried from the field after he was hit by Jack Mitchell, whose helmet was split by the force of the collision. Christiansen will probably not see action.

Gustafson may be forced to start Redkey at quarter, or may shift Love to that position and start Keith Howell, a transfer from Washington, at fullback.

Both teams are expected to use a deceptive style of play with frequent passing. Gustafson has based his offense this year on spinner plays, forward passes and laterals, making use of a light, fast backfield.

Before the game and during the halftime period Music Director Charles Stanfield will present a novel patriotic pageant with his KUHS band, twirlers and Pep Peppers. There will be 220 students in the drills, and many of the maneuvers will be done with lights.

French Remember Pershing Birthday

VICHY, France, Sept. 13 (AP)—A special program lauding General John J. Pershing on the occasion of his 80th birthday was broadcast over the French radio today.

Marshal Philippe Petain, now France's premier, sent best wishes to Pershing through Ambassador Gaston Henry Hays, calling the American World War commander his "old fighting comrade."

(Gen. Pershing yesterday received a congratulatory message from King George of England.)

DRY AIR IS COOLER Desert air loses heat rapidly with the setting of the sun. This is due to the fact that dry air lets the heat leak away much faster than does moist air.

The civil aeronautics bureau has awarded contracts for the installation of instrument landing transmitters at airports at New York, Kansas City, Chicago, Cleveland, Fort Worth and Los Angeles, all to be completed by the early part of 1941.

'ESQUIRE' TO BE NAME OF NEW THEATRE

(Continued from Page One)

Klamath's newest theatre, now under construction at Seventh and Pine streets, will carry the name of "Esquire," it was learned Friday from George M. Mann of San Francisco, owner of the Redwoods Theatre corporation, spending several days in this city. The "Esquire" will open here October 15.

Mann said the suburban theatre, now underway at the corner of South Sixth and Washburn way, will carry the name of "Tower."

With Mann was Al Fourmet of Eureka, Calif., who will move here October 8 and take over management of the two theatres. Fourmet has served as supervisor of the six Redwoods theatres in the coast district, four in Eureka, one in Arcata, and one in Fortuna.

William David, architect, San Francisco, and Richard Fleischer of Scotia, Mann's real estate representative, are also here. David and Mann plan to leave Friday night by train for the south.

If we are to avoid an economic catastrophe at the end of this arms program, then we must establish right now the kind of program of full economic employment that will enable us to carry on when the stimulus of defense employment is ended.—Ralph Hetzel Jr., editor CIO Economic Outlook.

YOUTH LECTURED IN LIQUOR CASE

(Continued from Page One)

A 15-year-old boy, arrested by city police for selling liquor to Indians, was given a good lecture in police court Friday morning and sent back to California to work. George D. Murphy, also charged with the same offense, received a fine from Acting Police Judge Adolph Zamsky.

Seven drunks, two vags and five traffic tickets made up the remainder of the court report.
