SPRAGUE GIVES HIS VIEWS ON MORALS BILLS

The Herald and News have received a statement from Governor Charles A. Sprague dealing with three measures on the November ballot affecting public morals.

This statement follows, in full: On the ballot at the November election are three measures which affect public morals. I feel it is my duty to express my views on these important questions.

The first is the referendum on a bill passed by the last legislature, House Bill No. 355, designed to strengthen in an important particular the liquor control act now in effect. The bill was recommended by the former liquor commission and endorsed by me in my message to the legislature. It passed both houses by a substantial majority and was approved by me. The purpose of the bill is to do away with the evils of unregulated and unlicensed drinking "clubs." Fake clubs have sprung up and operate as resorts for the drinking of hard liquor. The liquor control commission has no authority over them.

The bill also prohibits making fortified wine with grain or ethyl alcohol which has been a source of evil in this state.

The opposition to this bill comes almost exclusively from the small group of operators of these so-called "clubs" who hope to reap continued profits if they can defeat this badly-needed legislation.

The same small group which sponsored the referendum on H. B. 355 has sponsored an initiative which would utterly destroy the present plan of liquor control in Oregon and turn the sale of hard liquors over to private, unlicensed dealers. This would simply mean the restoration of the open saloon.

The Oregon plan of liquor control was adopted by the legislature on recommendation of a commission appointed by Governor Meier to prepare a plan following the repeal of prohibition. This plan is recognized as one of the best in any of the states. The people of Oregon have been on the whole well satisfied with this plan and the way it has been administered. To repeal it would be disastrous to proper liquor control.

I believe the real purpose of the initiative is to confuse the voters, hoping that the people in voting "no" on this bill will also vote "no" on the referred measure. Therefore, I urge the people interested in preserving decent liquor control in Oregon to vote on the referred bill, No. 310, YES; and on the initiative bill, No. 313, NO.

There is a third measure sponsored by a self-styled "Oregon Tax Reduction and Old Age Pension League." It initiates a constitutional amendment to legalize "marble-board, pinball games, claw or digger games, and other gambling and gaming devices, bank night, similar lotteries and bingo games." The very title is enough to condemn the bill.

The people at the 1938 election overwhelmingly voted to outlaw slot machines and pinball games. I am confident they will not reverse that decision under the bait of "tax reduction" and contributions to old age pensions. This measure is probably the longest constitutional amendment ever submitted and would increase by one-half the present state constitution. Its contents are not proper material for the fundamental law of the state. The supreme court in a decision in 1938 appropriately referred to certain of these machines as "mechanical bandits."

I recommend that the people vote 315 NO.

There is a real need for a campaign of education among the people of the state so they may understand just what these measures mean. I call on all good citizens who are interested in wholesome public morals to organize and carry on a campaign of education so the voters of the state may be informed on these measures. If they are informed I feel sure they will approve of the referred bill, voting 310 YES; and will reject the initiative measures by voting 313 NO and 315 NO.
