

ALASKAN REINDEER
SHIPPED TO
EASTERN ESTATE

SEATTLE, Oct. 24 (AP)—A herd of 26 Alaskan reindeer—guaranteed genuine Alaskan moss-burners—spent a first rest-less night in the "southland" here, awaiting a special express

car ride eastward Wednesday night. With a native Eskimo riding herd, the animals came south on the steamer Mount McKinley for shipment to the Lake Placid estate of Dr. Philip G. Cole of New York City.

The 2-year-olds, on their first trip outside Alaska, made a 2500-mile journey from Golo-

vin, near Nome. Five hundred bags of reindeer moss, which to the reindeer is as tempting as bologna on rye to a Dutchman, was brought along for the animals.

Carl Lomen, member of the owning firm, said the moss wouldn't last long, but by that time the animals would be

weaned to a good old American barnyard diet.

M'NARY, WALLACE
ON SAME TRAIN
DURING TOUR

BLOOMINGTON, Ill., Oct. 24 (AP)—The democratic and repub-

lican candidates for vice president followed the same campaign path for 127 miles Wednesday.

Democrat Henry A. Wallace and Republican Charles L. McNary rode on the same train, but in different cars, from Chicago to Bloomington. McNary got off here to give a speech

later in the day. Wallace continued to Springfield, Ill. They exchanged greetings in the diner but breakfasted at separate tables.

As long as there is an idle margin in men and machines, we shall have no inflation—Stuart Chase, economist and author.

DUKE RIDES AGAIN

NASSAU, Bahamas, Oct. 24 (UP)—The Duke of Windsor, governor of the Bahamas, bought a bicycle Wednesday and plans to ride it the four miles between his office and his temporary residence at Cable Beach. The bicycle is a popular method of transportation here, 3048 of them being registered.
