DORRIS BRIDE COMPLIMENTED WITH SHOWER

DORRIS—A delightful shower was held at the Dorris city hall Thursday evening in honor of Mrs. Carl Delamar, formerly Miss Elda Schneider. The jolly affair was given by Mrs. A. S. Pangburn and her daughter, Mrs. Arden Parker. A large number of guests were present and many beautiful and useful gifts were presented the happy bride. The early part of the evening a delightful musical program was given during which Miss Fernald Sullivan and Mrs. Pangburn sang several duets accompanied at the piano by Mrs. Olin Evans. Mrs. Pangburn also favored with a number of lovely solos accompanied by Miss Cleo Ebershade at the piano. At the close of the pleasant affair delicious refreshments were served by the two hostesses.

DORRIS—Stealing a march on their friends Miss Ruth Williamson and Curtis Byrd went to Reno Friday evening and were married. They were accompanied by the groom's parents, Mr. and Mrs. Byrd, and the ceremony was performed early Saturday morning. The bride came to Dorris about four months ago from Sundance, Wyoming, where she graduated last spring from the Sundance high school. The groom is an employee of the Associated Box and Lumber company and a graduate of the Ashland high school. The bride wore a soldier blue ensemble.

The quartette returned to Dorris Saturday evening and on Sunday a dinner was given in their honor by the two sisters of Mr. Byrd, Mrs. Miles and Mrs. Dan Farmer. Twenty guests were present to offer congratulations to the happy couple, among them being Mr. and Mrs. Byrd and family of Ashland, Oregon; the Miles and Dan Farmer families; Glen Williamson who is father of the bride; and Mr. and Mrs. Delbert Williamson of Dorris.

Whenever we see where 2000 doctors confer on a bacteriological germ we wonder how many more there'd be if there were room.

THE Ford Rouge Plant is world-famous for doing big things in a big way. Now it's producing the biggest Ford car ever built!

After you see the beauty and size of this big car, feel its faster acceleration and soft new ride—a ride produced by new, slower-action springs, improved shock absorbers, and a newly designed stabilizer that eases steering and helps maintain balance on curves or in cross winds.

How is it done? How can such a big, comfortable car have eight cylinders and this costly construction at low price?

The answer goes back to the Ford way of doing business—to the fact that Ford has built millions more cars than any one else and is satisfied with a smaller profit per car.
