

LITTLE RALLY SUCCESSFUL IN STOCK MARKET

NEW YORK, Nov. 25 (AP)—Efforts to instill a little rallying vim in today's stock market were partially successful.

Dealings reverted to sluggishness after a fair amount of opening activity and transfers were around 500,000 shares, smallest turnover for a full session in about a month.

Stocks well in front of the greater portion of the day—some eventually gave ground—including U. S. Steel, Bethlehem, Chrysler, Great Northern, Goodyear, Montgomery Ward, United Aircraft, Texas corporation, International Paper preferred, Savage Arms, American Can, Eastman Kodak and Kennecott.

Bonds were narrow and commodities mixed.

MERRILL MAN WINS TURNER SPUD CONTEST

T. A. Wheeler of Merrill won the Turner Chevrolet company's \$25 prize Saturday night for the largest No. 1 potato entered in the motor firm's contest.

The competition, which drew over 60 entries from the Klamath basin was judged by R. L. Spangler, of the federal bureau of potato standardization; W. L. Chase, federal shipping inspector for the state of Oregon; Ross Aubrey, federal shipping inspector for Klamath county; C. A. Henderson, Klamath county agriculturalist, and State legislator Henry A. Semon, well-known Klamath potato farmer.

A. E. Fugate of Merrill took the \$15 prize for the largest No. 2 tuber and Vance Havelin, Merrill, was awarded the \$10 cash prize for the heaviest spud.

Fugate also won the \$10 merchandise prize for the longest potato. Mr. and Mrs. L. B. Hayes, Rt. 1, Box 515, Klamath Falls, captured the \$8 award for the fattest entry; Kelly brothers, Rt. 1, Box 826, Klamath Falls, \$5 in trade for the potato with most eyes; and Mrs. Jess E. Smith, Rt. 1, Box 880, Klamath Falls, \$3 for the oddest shaped spud.

WHEAT BACKS DOWN WITH SECURITIES

CHICAGO, Nov. 25 (AP)—Backing down after an early rise, wheat prices today closed fractionally lower in a reaction which largely paralleled a setback in securities.

While traders watched the action of stocks for a cue to financial circles' interpretation of European developments, many dealers expressed dissatisfaction with lagging domestic demand for flour, which has limited buying of wheat on the part of mill interests. The loan program has checked placing of hedges against wheat taken over by the commercial trade but the market has suffered, traders said, from a corresponding decline in mill purchases, with many processors apparently in a position to take unhedged grain directly.

Wheat closed 1-1/2c lower than Saturday, December 87 1/2c, May 86 1/2c; corn 1-1/2c down, December and May 61 1/2c; oats unchanged to 1c lower.

WOOL MARKET
BOSTON, Nov. 25 (AP-USA)—The market in Boston was very quiet today on domestic and foreign wools. Only a few users were making any inquiries and their needs did not appear to have any immediate urgency. Asking prices on domestic wools were mostly unchanged, but they were largely nominal because of the lack of demand.

Profits will necessarily have to become secondary and national security first.—Navy Secretary Knox.

U. S. SCOUTS GREET FOREIGN BROTHERS

The world-wide scope of the Boy Scout movement with its membership in 47 nations of more than 3,300,000 scouts, cubs and leaders, now comes to the foreground with the news that the Boy Scouts of America are welcoming brother scouts who, by reason of the war, have temporarily left their homes.

The scouts from foreign lands are being welcomed into scout circles here and are being made to feel at home. The entire membership of the Boy Scouts of America has been advised by Chief Scout Executive James E. West that these foreign scouts might very properly be invited to participate in troop activities especially because the fourth point of the scout law reads: "A scout is friendly. He is a friend to all and a brother to every other scout."

Other scouts from other countries may wear their own scout uniforms and insignia. By a reciprocal agreement they may have an equivalent rank in the Boy Scouts of America to that which they had earned in their own country. Advancement in scouting in the United States may be credited toward an advanced rank in the scout organizations to which they belong.

World scout brotherhood has been strengthened through the years by scouts of many lands living together at world scout jamborees which ordinarily have been held each four years, and national scout jamborees to which scouts of neighboring lands have been invited.

ASHURST RAPS GAMBLING IN LARGENY CASE

Circuit Judge Edward B. Ashurst told a largeny case defendant in court Monday that the way to keep out of jail is to start a large "gambling combine."

The prisoner before the court at the time was Fred Enos, Bly, charged with possession of stolen property.

When Judge Ashurst asked Enos what he had done, Enos replied he had stolen groceries.

The judge then stated, in effect, that he disliked sentencing a man to the penitentiary for stealing groceries when men he alleged are engaged in gambling and racketeering are permitted to go free.

However, Judge Ashurst imposed a sentence of two years on Enos when District Attorney L. Orth Sisemore said Enos had about \$300 worth of stolen property in his possession when arrested.

"I have always found the district attorney's statements are based on thorough investigation," said Judge Ashurst. "Inasmuch as he cannot see his way clear to recommend a parole in this case I will not grant one."

"I still say, however, that the way to keep out of jail is to start a large gambling combine."

Judge Ashurst imposed a sentence of four years on Thomas Spruill, charged with obtaining money under false pretenses. John Pfaff, arrested in the same case, was given four years and a parole.

Clayburn Pogue, charged with stealing a car, did not enter a plea. J. H. Napier was appointed by the court to represent him.

Percy Rowan, charged with obtaining money under false pretenses, likewise did not enter a plea. Lamar Townsend was named to represent him.

BERLIN RESIDENTS SCRAMBLE FOR SPILLED APPLES

BERLIN, Nov. 25 (AP)—About 100 Germans beat the strict food rationing system today when a truck spilled 200 apples on Berlin's main street.

Making a short turn into Under Den Linden, the truck lost part of its load. Before the driver could stop, hundreds of pedestrians ran into the street and scrambled for the fruit.

Some got three or four apples. Some got 1 or 2. An Associated Press correspondent was among 50 who "also ran" and got none. The driver scratched his head in puzzlement and drove off.

Only children heretofore have been getting apples, but yesterday it was announced that each adult could have one pound within the next two weeks.

Those who were lucky today got more. The only parallel incident seen recently was when a truck cutting a corner spilled a few hunks of coal. Women filled shopping bags with the smutty fuel.

Neither incident necessarily indicates a shortage. It merely means that apples and coal don't fall as manna from heaven every day in wartime Germany.

The millions who failed to get windfalls from careening trucks can console themselves with two other official announcements today:

1. That two more eggs can be purchased by each adult between now and Nov. 30.

2. That a quarter-pound of candy per capita may be dished out between now and Dec. 31—Enough sweets to fill the toe of a Christmas stocking.

POWER LINE TO BE BUILT TO MILL NEAR BLY

Work is underway on installation of a new transmission line to the Ivory Pine company mill near Bly. It was made known Monday at the Copco offices.

The new line, about four miles in length, will extend from the main power line at a point three miles west of Bly, running in a northerly direction.

Copco crews will also install a fenced sub-station at the lumber plant. The Ivory Pine mill is adopting electricity for new power units, changing over from steam and diesel power.

STRIKERS OBJECT TO RED CHARGES

(Continued From Page One)

Vultee management, President Richard W. Millar of Vultee entered the meeting remarking: "I hope it will be over soon."

No government representative was present. Dr. John R. Steelman, head of the department's conciliation service, was delayed at Kansas City on a westbound plane flight by bad weather and was not expected until later today.

CHEERFUL, ANGRY ENGLISH LETTER SAYS PEOPLE

MONROE, Ore., Nov. 25 (AP)—The people of Bristol, which the Germans today claim is the latest English city to be "conquered" are enjoying "as usual" life in spite of admitted serious bombings, a sister has written E. T. Lippitt of Monroe.

"We have just returned from church, which still carries on, strange to say. . . . People go about their shopping, attend places of amusement and of worship and are remarkably cheerful," the letter read.

"Your elderly sister who hates war with every fibre of her being is getting quite blood-thirsty. If you knew, as I do, of homes blown sky high, people mutilated, young and old—whole families wiped out, you would realize how angered just ordinary folks are getting."

"Let's hope we will all live to celebrate the peace. What a day! I'll switch on all the lights and burn every 'blackout' curtain we possess!"

The writer admitted she must "leave out all the interesting things about the air raids" and predicted the war would continue for a long time yet.

375 PUPILS OUT OF SCHOOL WITH INFLUENZA, COLDS

More than 375 school children were reported absent from city schools Monday as the influenza epidemic appeared unabated. At Klamath Union high school 150 students were absent, and at Altamont Junior high and the Altamont elementary schools 130 were home with flu and colds.

Mills school reported 135 students home; Fairview, 60; Conger, 13; Fremont, 75; Riverside, 30; Roosevelt, 20; Pelican, 40.

AMARILLO CUT OFF WHEN ICE BREAKS LINES

(Continued From Page One)

fore noon, the Southwestern Bell Telephone company learned by short wave radio, but the ice that coated wires, poles, trees and houses was not thawing.

Call Sent Out
George Becker, operator of amateur short wave station W5EVI at Dallas was informed by the operator of station W5ECL at Amarillo that there was no power and no water in the panhandle city of more than 50,000 population at 11 a. m.

Only a hint of the full picture at Amarillo trickled out by short wave reports. One call was for hundreds of pairs of over-shoes and for kerosene lanterns. Amateur operators had great difficulty maintaining communication as signals faded. Braniff Airways wheeled a large air liner from one hangar at the Amarillo airport, and started its motors battering to charge a weakened battery when radio signals to and from the company's Dallas station dimmed.

At least five major Texas rivers were at flood stages. They were the Sabine, along the Texas-Louisiana line, the Brazos, the Trinity, the Colorado and the Guadalupe.

JURY SELECTION UNDER WAY IN LIQUOR TRIAL

Selection of a jury to try Carl Walters on a charge of illegal sale of liquor was still underway in Circuit Judge Edward B. Ashurst's court Monday afternoon.

Available prospective jurors were exhausted after four challenges had been made Monday morning, and five more jurors were called.

District Attorney L. Orth Sisemore is prosecuting the case, with E. E. Driscoll and U. S. Baletine defending.

This is the first of a series of trials dealing with liquor cases scheduled for court this week.

Keno

Mr. McKeen is very ill with the flu.

Friends of the G. W. Bay family were saddened to learn of Mr. Bay's death at Burney, Calif. He was crushed by a rolling log. The Bay family moved from Keno to Dorris, Calif., about a year ago where they still reside.

Mrs. Ackard left Wednesday night by bus for Siskiyou Summit to spend Thanksgiving with her son and daughter-in-law.

Our Home Town

THE FARMER

By EARL WHITLOCK
Yes, the harvest is in. The bins are bursting with grain, the canners' stocks are full. Around every feed lot, fat stock is grazing and browsing contentedly. Nature, this year, you think, has been bounteous.

True, she has. But don't forget the part the farmer has played in that bounty. Left to herself, Nature is a wasteful, extravagant power. Her law is INCREASE. It takes the farmer to make her improve as well as increase.

You can plant the finest seed in the finest soil, leave Nature alone and, in a dozen generations, your best grains will go back to the thin grasses from which they were developed. The range "beef critters" of Nature's range, were a long way from the short-coupled meat-producers which the farmer has studied into being.

So don't give Nature all the credit for the harvest's bounty. It is the farmer, studying soil and stock and season, working his miracles with the aid of science and sweat, who insures heavy crops. When we brag that America could feed the world, if need be, we don't mean that American soil and climate could do it unassisted. We mean the American farmer could do it, with his care and skill and his magic understanding of all growing things.

Next Monday Mr. Whitlock of the Earl Whitlock Funeral Home will comment on "New Firms."
