systematic policy of pin-pricks, challenges, humiliations and even moral aggression.

"The reich government is, therefore, centering its entire attention upon this problem."

The conference was one of the most serious ever held by the spokesman.

Cross was speaking, he said, at the moment when "Great Britain is in a death struggle."

The German government for some time has become accustomed to formulations by American officialdom which "are guided by certain rabulistic characteristics," the spokesman said.

"Demands and interpretations are launched as though actions contemplated did not fall within the scope of practices defined by international law."

Unbearable

The English-American discussions over the United States assistance to Great Britain have become increasingly interesting, the German spokesman added, because it is unbearable for Germany to let things drift further.

The importance of the Wilhelmstrasse spokesman's utterances may be gauged by the fact that there are several rumors in press circles that Foreign Minister Von Ribbentrop himself was originally intended to come before the foreign press to give the German reaction to the Cross proposal.

WASHINGTON, Dec. 21 (AP)—Secretary Hull declined today to comment on statements made in Berlin to the effect that Germany would consider it an unfriendly act if the United States requisitioned foreign flag ships now in American ports and sold them to the British government. The secretary was asked at his press conference if he would give the views of the American government on the question and replied in the negative.

Book Club—The Edith Quinling Book club will meet at the home of Grace Kintgen, 120 Eldorado street, for a Christmas party Monday night.

In 14th century France, butchers were forbidden by law to sell meat by candlelight or lamplight.

WASHINGTON, Dec. 21 (AP)—Secretary Hull said today that the state department would comply with the request of the German government and withdraw two officers and an employee of the American embassy in Paris.

The state department will investigate the charges against Cross, Hunt and Mrs. Deegan, Hull said, but a preliminary examination of the facts had not disclosed that they were guilty of assisting a British officer to escape, as charged by the Germans.

full production until next summer.

Dismayed

Secretary Stimson, disclosing the arrangement to open part of the Charlestown plant in advance, said he was "astonished and dismayed" to learn the time required to build and equip such munitions factories. He told reporters he had been pressing for speed and reported that the Du Pont company, which will operate the Charlestown establishment, was making "fast progress."

The war department undertook to step up the army's powder supply at the outset of the current \$800,000,000 program to assure adequate munitions for the expanding land forces. The navy already had accelerated the output of its Indianhead, Md., arsenal.

Between 20,000,000 and 25,000,000 pounds of powder was produced in the United States in 1939, congress heard from ordnance officials who said this would be exhausted by a single day of such a battle as the world war Meuse-Argonne offensive.

While the RAF reported this and other assaults to support the Greek offensive into Italian-held Albania, dispatches from the fighting front said Greek forces had captured an Italian colonel and two battalions in fighting around Tepeleni.

Greek infantrymen, battling cold and a stubborn fascist force, were said to have occupied two villages and two strategically important heights in the Tepeleni area.

Heights taken in the Tepeleni area were described as strongly guarded with barbed wire.

A naval communique indicated today that a Greek destroyer force actually preceded British warships in their sweep of the lower Adriatic, as reported by the London admiralty yesterday.

BERLIN, Dec. 21 (AP)—Six persons were killed and 17 injured by British warplanes which attacked Berlin during the night, the German high command reported today.

The Dom (Protestant) cathedral in the capital was damaged and small fires were set in the suburbs by incendiary bombs, but no military damage was caused by the raiders, a communique declared.

The reich's church ministry estimated the cathedral damage at 1,500,000 marks (about \$600,000), and said the raiders dropped flares before they dropped their bombs.

The bombing of the cathedral, which faces the former Imperial palace, was intentional, the ministry said.

5000 RAIDS

NEW YORK, Dec. 21 (AP)—The British have made nearly 5000 air raids on Germany and Italy and axis-occupied territory in the past eight months, the British radio said today in a broadcast heard here by CBS.

HELD FOR JURY

PORTLAND, Dec. 21 (AP)—Loyal McCready, 48, Los Angeles, charged with robbing a branch bank of \$684 last Wednesday, was ordered held for federal grand jury action yesterday after he waived hearing. His bail was set at \$25,000.

# NO WORD RECEIVED ON SECOND CALL OF DRAFTEES

No word has been received here about further quotas to be sent from Klamath Falls under the national selective service program, it was made known Saturday at the local draft headquarters.

Major T. D. Case, selective service supervisor, said more men will be sent up some time after the first of the year, but so far nothing official has been received in the way of orders.

Out of the first 10 men sent from this county—all volunteers—only one was disqualified for physical disability. He was replaced by Howard L. Cabiness of Malin.

Army men estimate that about 7 to 10 per cent of all draftees ordered into service will be disqualified for physical disability.

Three Elements

The board, Mr. Roosevelt said, will represent all three of the elements involved in every process of production—labor, management, and the buyer-user.

Big, Danish-born Knudsen, one of the nation's outstanding production experts, will represent management.

Hillman, a union man for 30 years, will handle labor problems, and will be assistant director of the board.

Secretaries Knox and Stinson will present the viewpoint of the buyer-user—the army and navy.

"Fireside Chat"

With the public's interest focused on the big job of producing arms and military equipment, it was learned from usually well-informed quarters outside the White House that the president was considering a "fireside chat" on the status of the program. There was no indication when it might be given.

The new four-man board will be given full responsibility to make decisions of policy, without conferring with the president. But, said Mr. Roosevelt, if any of their decisions went wrong, he would call in the four and talk it over with them.

The board, he indicated, will have all the powers which the president constitutionally can turn over to subordinates. Under the constitution, he said, there can be no second president.

The board, Mr. Roosevelt said, will represent all three of the elements involved in every process of production—labor, management, and the buyer-user.

Big, Danish-born Knudsen, one of the nation's outstanding production experts, will represent management.

Hillman, a union man for 30 years, will handle labor problems, and will be assistant director of the board.

Secretaries Knox and Stinson will present the viewpoint of the buyer-user—the army and navy.

"Fireside Chat"

With the public's interest focused on the big job of producing arms and military equipment, it was learned from usually well-informed quarters outside the White House that the president was considering a "fireside chat" on the status of the program. There was no indication when it might be given.

The new four-man board will be given full responsibility to make decisions of policy, without conferring with the president. But, said Mr. Roosevelt, if any of their decisions went wrong, he would call in the four and talk it over with them.

The board, he indicated, will have all the powers which the president constitutionally can turn over to subordinates. Under the constitution, he said, there can be no second president.
