CORRECT ERROR
MADE IN PRINT**

An error in news stories appearing in recent editions of

The News and Herald dealing with the NLRB election last summer at the Shaw Lumber company operations at Tionesta, Calif., has been corrected by officials of the International

Woodworkers of America, CIO affiliate. The news stories stated erroneously that the election was on the question of acceptance of the AFL-CIO as a bargaining

agent or "no union." The election in reality was between the AFL and no union. The CIO did not appear on the ballot. Try the Classified Ads.
