ASHURST TO OPEN OFFICE IN MEDFORD

Former Circuit Judge Edward B. Ashurst has located in Jackson county and intends to practice law in Medford, it was learned Friday.
Finding business and industry "languishing" in Arizona, the former judge has given up a plan to practice law at Tucson with his brother, the former United States Senator Henry F. Ashurst. He moved to Arizona in January, after his term of office expired here.
Judge Ashurst had an interview to Medford newspapers in which he said he does not plan to participate in Jackson county politics. With Mrs. Ashurst and their two sons, the former judge has leased the Lillian Salade home and grounds at Seven Oaks, north of Central Point.
In his interview at Medford the judge said that America's "good neighbor policy" has struck a blow at the mining industry at Arizona.
"If the government ever puts it into operation in reference to the lumber industry, people of Oregon will be singing not 'God Bless America,' but 'God Help Oregon,'" the ex-jurist informed the Medford paper.
He said he had moved to Jackson county from Arizona because he "wanted to find a place where business was thriving and not languishing, and where labor was engaged in productive enterprise instead of being on W.P.A."

KESTERSON BALLOT SLATED ON APRIL 1

Disclosure that April 1 has been set by the National Labor Relations board as the date for an election by Kesterson Lumber company employees and the arrival of William Dalrymple, regional CIO director for the state of Oregon, highlighted labor activities in Klamath Falls Thursday as the Kalpine plywood strike passed its seventeenth day with negotiations still in progress but no settlement yet announced.
Underway Thursday afternoon was an important election in the Tionesta mill of the Shaw Lumber company to determine whether the CIO or AFL should be bargaining agent for the employees.
The ballot is the third taken at Tionesta. First two were inconclusive. The Kesterson election and the Tionesta poll were both ordered as results of recent NLRB hearings in the city.
Dalrymple, bass-voiced veteran of the labor movement who took out his first union card in 1897, Tuesday night spoke before Tionesta workers, addressed Kesterson employees Wednesday night and Thursday night was scheduled to talk before a meeting of Kalpine employees in the IWA hall.

TAXPAYERS OF COUNTY FILE TAX RETURNS

Approximately one third of the 1940 personal property taxpayers of Klamath county have returned filled out forms sent to them recently by County Assessor Charles H. Mack.
This year Mack has sent out such forms in lieu of the personal visits by members of the staff of the assessor's office.
He said the returns made so far are almost entirely from farmers. This, he stated, may be due to the fact that business men have larger stocks this year and it is taking them longer to prepare the information asked in the assessor's inquiry.
The assessor pointed out that the personal property taxpayers have until April 1 to file the returns, after which they will be subject to penalty if taxes are not paid.
In cases where returns are not filed, he said, personal visits will be made and the property assessed in the usual manner.
Mack said that the purpose of the mailed-forms is not to increase the taxes, but to simplify the method of filing. In general, he stated, taxpayers had approved the plan, and he had received only one complaint.

Author Predicts German Generals Will Oust Hitler

PORTLAND, March 21 (AP)—A palace revolution will cause Germany to seek peace next year, Arnold Lunn, British author, predicted yesterday.
The revolution "will come from the top, not the bottom," Lunn told interviewers, adding, "The German generals are not going to wait until they are defeated to ask for an armistice. They are coming to the peace convention with an undefeated army, but with Hitler kicked out of the picture."
He said he based his opinion on remarks made by "three men who know more about Europe than any other three men you could name."

PERHAPS YOU'VE SEEN the new Pontiac "Torpedo" described as "the Fine Car with the Low Price" and wondered a little bit about that statement. You can accept the "fine car" part without any doubt, we believe—especially if you've examined a new Pontiac. That "low price" part may stop you, however. Can the new Pontiac—one of the smartest-looking, easiest-riding cars on the road today—actually be low-priced? Well, here are the facts: Pontiac prices begin at \$828*. A new 1941 Pontiac "Torpedo" will cost you so little more than the "lowest-priced three" that the difference will amount to only a very few dollars per month. What's more, Pontiac's economy of operation and upkeep permits you to drive for practically the same money that a lesser car requires. Yes, the new Pontiac, with its Body by Fisher, has earned the title, "the Fine Car with the Low Price." Try a new Pontiac before you put your money in something less desirable.
