Pelican Nine

ORIN DAVIS

Klamath's hopes of a strong club in the fast Oregon State league were on the rise again with the signing of pitcher Orin Davis, 23-year-old righthander, who is 6 feet 1 inch in height and tips the scales at an even 200.

Davis came to Klamath Falls just after being released by Spokane of the Western International league for a visit with his friend, Lefty Wakeman, and at once the Pelican scouts were busy getting him lined for state league competition.

Orin's fast ball is on a par with his hair—quite fiery—and in addition he has a well developed change-of-pace ball. The big righthander is anxious to do the Pelicans some good and says he likes the looks of this town already.

Senator Hurler

Young Davis began his baseball at Gaston, Ore., (near Portland) and also hurled for the American Junior Legion team of Hillsboro. After playing freshman football at U. of O., Orin transferred to Oregon Normal for basketball competition.

His semi-pro experience in the Tualatin Valley league, where he pitched for Gaston and Dairy Creek, with Jewel, Ore., in the Columbia River Basin league.

In 1940 Davis was signed by the Salem Senators where he was a member of the mound staff for three months before being released. Two days later he was signed by the Vancouver Capilanos of the W. I. and finished the season. This spring Orin was sold to Spokane and after taking spring training with this club asked for and secured his release.

Players and fans who have seen big Orin pitch, say he has the stuff to win State League games.

NEW YORK, May 13—(The Special News Service)—Broadway newsreel crowds applaud every time Hank Greenberg is shown in an army uniform . . . When and if Ty Cobb and Babe Ruth meet in that golf match, the old Bam probably will remind Ty of the time he struck out Cobb, Sam Crawford and Bobby Veach of the Tigers with the bases loaded . . . SPRING COMING TO CRATER LAKE

CRATER LAKE — Crater Lake's winter residents were more than glad to see the first signs of spring—geese flying towords the north, heavy storms fewer, and more sunshine. But the most definite signs of spring were shown the first part of last week when Crater lake's snow cleanup started.

On Monday last a group of 20 CCC enrollees came into the park from Oregon Caves national monument, to help with the cleanup. While the boys have been busy taking down the entrance tunnels of the homes and various buildings here, the snow plow operators have been opening the road to the Annie Spring summer CCC camp and also the road to the superintendent's summer home.

By June 1 the snow plow crew will start opening the road around the rim of the crater. They plan to have it ready for public use by the middle of June. Crater lake's superintendent, assistant superintendent, the office force and the temporary rangers will move into the park during the first or second week of June. Then operations will be in full swing for the expected large number of summer visitors.

People here say it is good to see the snow melting fast and summer just around the corner. And in the late fall they usually remark its good to see the snow come again, because that means another season of "good old skiing."

His subject was one of real interest to the class of '41 He discussed the challenge set forth by "open doors." The reverend spoke of the various doors of life that lay open for young graduates to enter, and his advice was taken from Saint Paul's letter to the Corinthians, when the apostle said: "The door is open but there are adversaries." The door of opportunity lies open similarly to the graduating seniors but the adversaries can be conquered by good living and courage, Rev. Michelmore said.
