A New And Different Kind Of Car

You Ride Cradled In Comfort On Slow-Motion Springs

- MORE POWER PER POUND**—Mercury is built to aircraft principles with more power per pound than most other automobiles—for unusual big-car performance at low cost.
- MORE ROOM**—There's space aplenty in Mercury's roomy interiors! Seats are extra wide, so big passengers can stretch, rest and relax in comfort—without crowding.
- MORE RUBBER ON THE ROAD**—Mercury's new, larger tires with wider tread give added grip in starting and stopping—greater stability on wet roads and around curves.

IN THE BIG, spacious Mercury you enjoy a brand-new kind of riding ease. Wide, deep-cushioned seats are cradled between long, slow-motion springs and double-acting shock absorbers to tame tough roads. Basically different principles of aircraft design give the new Mercury more power per pound than most other cars. You get flashing performance...

with amazing thrift! For Mercury's smooth, V-8 engine delivers a tremendous flow of power on mighty little gas. Many owners report up to 20 miles per gallon. New Spring color combinations lend a fresh note to the smart beauty of this trim, youthful car. Why not arrange to drive a 1941 Mercury soon? See for yourself why it has made friends so fast!
