

McNary Learns of New Wool Tests
 WASHINGTON, May 21 (AP)—W. R. Johnson, commissioner of customs, has notified Senator McNary (R-Ore.) that a new

highly accurate laboratory testing process for determining the clean content of imported wool would be incorporated in regulations for examination of the product. McNary had forwarded to

Johnson complaints from the Pacific Coast Wool Manufacturers' association that the Portland office of the customs bureau had a basis for examination of imported wool that resulted in higher

duties than those imposed at Boston. We'd give people credit who say they can't sing—if they didn't always go ahead and prove it.

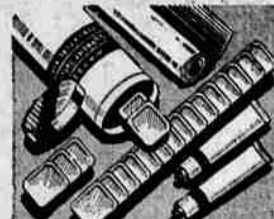

Troops May Guard Boeing Factory
 SEATTLE, Wash., May 21 (AP)—Mayor Earl Millikin said he has received an admonition from "an authority in Washington,

D. C.—the right hand of President Roosevelt—that federal troops would be sent into Seattle, if necessary, to properly protect the Boeing aircraft plant." The mayor revealed the news

to a group of business and professional leaders called to a meeting yesterday in defense of his reappointment of Police Chief William Sears. The appointment currently is before

the city council. The mayor's group voted approval of Sears. It would be illegal to allow society to commit suicide.—Dr. Frank Monaghan, Yale University.
