

SPRAGUE SETS TASK FOR NEW OREGON STUDY

SALEM, June 6 (P)—Governor Charles A. Sprague, addressing the Oregon industrial development commission at its first meeting here today, said its principal job would be to determine why some industries have located in Washington instead of in Oregon.

"This is a subject of very great concern to the people of Oregon, and particularly to the city of Portland, which has been anxious to realize on the development of Bonneville," the governor said.

Asserting that studies by the state tax commission and the Bonneville administration "showed a very reasonable equality as regards industrial taxes in the two states," the governor said that "since the time these studies were made, Washington has increased its sales tax by one per cent. This should weigh the scales in our favor."

He also recommended that the commission study the effect of a state tax commission ruling that all assessments must be uniform, he said, would create a "grave problem" in Portland, which has been giving a differential in favor of residences.

"Interim committees in the past have been productive of good, especially those dealing with taxes," he continued. "But you must recognize that tax structures can't be altered casually."

Budget Director David Eccles was elected chairman and Dean James H. Gilbert of the University of Oregon was chosen secretary.

Speaker of the House Robert S. Farrell Jr., said the commission must submit a good program to the next legislature that will result in getting new industries for the state.

"We've got to get industries," Farrell said, "because our fishing, lumber and mineral industries are diminishing. The result is that our assessed valuation is decreasing."

"We have to build a basement under the assessed valuation, and at the same time build a roof over governmental costs. If we don't, then chaos will result."

Eccles said the committee, authorized by the 1941 legislature, would hold hearings over the state. He also will appoint sub-committees to study governmental structure, to eliminate overlapping; the tax system, debt service and public improvements.

District Council Of AFL Sawmill Workers Set Sunday

Delegates from the Klamath basin and Rogue River valley will gather here Sunday for a regular meeting of the fast-expanding Klamath district council of the Lumber and Sawmill Workers union (AFL).

The conclave, termed a "progress" meeting by Organizer Joe Boyd, will run over events of the past week during which eight new local charters were installed by the union here and in the valley, two new agreements were signed, and four NLRB elections won by the AFL.

Time and Address Coincide in Fire

At precisely 11:51 a. m. Friday the city fire department was called to 1151 Pine street to extinguish a flue fire. This is the first call received by the department so far this month.

Damage was slight, firemen stated. The flames were extinguished in the apartment occupied by Frank McDonald, US navy recruiting officer.

CAPTIVE

LIMA, Ohio, (AP)—Ruffled, frightened, but apparently uninjured, a carrier pigeon was removed here from inside a lens-shattered headlight of an east-bound Pennsylvania railroad passenger train, which attains speeds of 70 miles an hour.

Trainmen said the bird must have been struck by the locomotive between Fort Wayne, Ind., and Lima stations.

Quick To Make—Smart To Wear

Household Arts by Alice Brooks

Jiffy Knit Bolero Done In Heavy Wool

CODE 100 HOUSEHOLD ARTS INC. PATTERN 6987

NOTICE TO PATTERN SUBSCRIBERS
Do NOT send clipped picture of your pattern with your order. Keep it for reference.
Write the number of pattern, your name and address plainly on your order.

Designed for smart wear for many occasions, this jiffy knit bolero is a "must" in your wardrobe.

It's an easy stitch, done in heavy wool. Make several boleros in colors to go with your various frocks. Pattern 6987 contains directions for a bolero in sizes 12-14 and 16-18; illustrations of it and of stitches; materials needed.
To obtain this pattern send 10 cents in coin to The News and Herald, Household Arts Dept., Klamath Falls. Be sure to print plainly your NAME, ADDRESS and PATTERN NUMBER.

Keep Family's Appetites Interested With Summer Dishes

By MRS. GAYNOR MADDOX, NEA Service Staff Writer

Here comes the bride! The occasion calls for a beautiful table, something always to be remembered. For only a few cents and a few hours time, you can make at home a lovely table arch with wedding bells and orange blossoms.

Wedding Table

ARCH: For the base cut a strip of white cardboard 8 inches wide and 22 inches long. Cover top side with a strip of spring green crepe paper. Then piece a hole in each corner 1 inch from the edge. Make the uprights by wrapping together three pieces of heavy No. 15 wire, each 12 inches long. Leave 1 inch of wire unwrapped at one end. Rewrap several times with a 1-inch strip of white crepe paper cut across the grain. Then insert the unwrapped end wires into the holes and spread out chicken foot fashion on the under side of the cardboard. Hold in place with gummed paper tape. Then 3 inches down from the top bend each wire at right angles so that the tips of the wires meet in center of short ends. For the two long arches cut two heavy No. 15 wires 22 inches long. Wrap each separately with a 1-inch strip of white crepe paper cut across the grain. Rewrap several times to obtain the same thickness as the uprights. Bend the wire in half, then spread out and fasten ends with spool wire to the uprights. Also fasten the two arches together in the center with spool wire. Decorate with sprays of orange blossoms and bells made from white crepe paper.

ORANGE BLOSSOM: For the flowers cut several strips of white crepe paper 2 inches deep

and 2 1/2 inches long. Slash long edge into five pointed petals each 1/2 inch wide and 1 inch deep. Curl petals slightly over the scissors and gather together around a small cluster of yellow rose stamens. The base of flower with spool wire leaving 2 inches or more for stems. Cut away surplus crepe paper below base of flower and bring ends of wire half way around on opposite sides, and then down and twist together underneath. Wrap stems with 1/2-inch strip of spring green crepe paper cut across the grain. For the grassy foliage cut across the grain a strip of the green crepe paper 1 1/2 inches wide. Fold the strip to right thickness. Then cut through one folded edge 1 inch deep. Then clip off the corner 1-1/8 inch, down 1/2 inch. Then from the same point at the top clip 1-1/8 inch off again and make a straight cut down 1 1/2 inches. Continue until entire strip is

cut. Start wrapping below base of flower with the grassy foliage adding a 9-inch length of spool wire as you wrap. Add other flowers about 2 inches apart as you wrap. Make several flower sprays and fasten in place around the arch with spool wire.
WEDDING BELLS: Cut strip of white crepe paper 2 1/2 inches deep and 2 1/2 inches long. Fold in half lengthwise and paste sides together to form a tube. Stretch lower edge to shape rim of bell. Gather top edges together and tie with 5-inch length of spool wire. Cut away surplus crepe paper at top and bring ends of wire around to opposite sides. Twist ends together to form a stem. Then wrap stem with narrow strip of white crepe paper cut across the grain. Shape wire to form a ring or loop at top of bell. Make several bells assorted sizes and tie with white ribbon to form a graceful cluster. Decorate bells with ribbon bows and flowers.

Orders Rise, Cut Lower in Western Pine Mills, Report

PORTLAND, Ore., June 6 (P)—Western pine orders were more than five million board feet higher but the cut was nearly nine million lower for the week ending May 31, compared with the previous week.
The Western Pine association said orders came to 88,151,000 board feet compared with 81,607,000 for the previous week and 71,886,000 for the same week of 1940. In that order production figures were 77,740,000 board feet, 86,732,000 and 73,845,000; shipment figures: 77,985,000 board feet, 77,659,000 and 69,890,000.

Room for More in Weyerhaeuser Golf Match, Says Board

Reames Golf club and Weyerhaeuser mill persimmon swingers were reminded Friday to appear on time Sunday morning for their big annual team match on the Reames links.
Players whose names were not listed on the published pairings were urged to be on hand. The committee said it was impossible to publish a complete list at the time but there will be room for all who wish to participate.
A correction in the published list was announced changing J. Stalling's opponent to Jim Bush.

Luxury of Good Steak Must Be Protected By Proper Broiling

Broiled steak for Sunday dinner can be both a luxury and an economy. If the left-over bone and trimmings are cooked slowly in water with onion and vegetable scraps, you have a rich stock for next day's meal. Cook dried lima or red kidney beans in this stock, and thicken with cheese. That's a high protein, low cost main dish.

RULES FOR STEAK

Learn the rules for broiling a steak perfectly.
1. Turn oven regulator to broil or to high.
2. Place steak two to three inches from the tip of the gas flame or from the electric unit. The actual distance depends on the thickness of the steak. A one-inch steak is placed two inches from the heat; a two-inch steak should be placed three inches. The thinner steaks are placed nearer to the heat in order to insure sufficient browning without over-cooking. Thinner cuts, being nearer the heat, are broiled more satisfactorily at a somewhat higher temperature than is used for very thick steaks.

By keeping these distances between top of steak and source of heat, a moderate broiling temperature is maintained with the desirable results mentioned above. If the depth of the broiler compartment will not permit this distance, it will be necessary to reduce the temperature of the broiler compartment.
3. Broil until top side is nicely browned.

The steak will be about half done at this time.

4. Season with salt and pepper and turn.
5. Season second side and serve immediately on a hot platter.

Broiled meats should never be allowed to stand for any length of time after cooking.

It is necessary to know the approximate time required for broiling so that the meat will be done when the meal is ready to serve. This time table gives the time required for broiling the cuts usually cooked by this method.

Meat Cut (2 inches thick)	Cooking Time
Chuck	45 40
Rib	35 45
Club	35 45
Sirloin	40 45
Ground beef patties (1 inch)	15 25

MENU

BREAKFAST: Sliced fresh pineapple with powdered sugar, parsley omelet, whole-wheat toast, jelly, coffee, milk.
DINNER: Tomato juice, broiled sirloin steak; mustard butter, French fried potatoes, green peas, lettuce and grapefruit salad, old-fashioned jelly layer cake, coffee, milk.
SUPPER: Sliced cold steak, potato salad, radishes, spring onions, stewed strawberries, layer cake, tea, milk.

TOWNS GIVEN STATE FUNDS IN SISKIYOU

SACRAMENTO, June 6 (UP)—The state department of motor vehicles today announced apportionment of net collections of \$9,658,823 in motor vehicle fees from July 1, 1940, to March 31, 1941.

Of the total, 20 per cent was turned over to the general fund of the state and the remainder was apportioned 40 per cent to the incorporated cities of the state and 40 per cent to the counties on a basis of population.

The money may be used only for street and road building purposes or for police and fire protection of the traffic thereon.
The total net income from motor license fees during the period was \$14,018,254, about \$2,285,000 more than received in any former similar period. However, \$4,389,431 was withheld to pay interest and principal on outstanding state highway bonds, contributions to the state retirement fund and support of the motor vehicle license tax administration.
