

# JCC SEEKING AID FOR ROSE FLOAT ENTRY

The junior chamber of commerce is on the last lap of its money raising plan for the rose float and would appreciate a few more voluntary contributions by Tuesday, according to Howard Smith, campaign chairman.

At present there is but \$150 more to raise and if a few more contacts are made, this should be raised by the deadline date, he said. Anyone interested in helping with this project may call Estle Affleck, 4514; Howard Smith, 5810; or Charles Fisk, 6982, and they will be glad to pick up the contribution.

In addition to the donors published in The News-Herald May 28, the following persons have since pledged their support: M. & S. Bag Co., Fred Heilbroner, Big Basin Lumber Co., Klamath Falls Realty Board, Drake Lumber Co., Peyton and company, Klamath county, American Legion, Klamath Garbage company, Fluhrers Bakery, Raymond Dairy, Mason Ehrmann Co., Walter Bowne, Texaco Oil Co., Klamath Brick & Tile Co., and two "Friends."

Through the co-operation of Balager Motor Car company, a truck has been donated for construction of the float and Turner Chevrolet company has supplied a new 1941 De Luxe sedan for use of the queen and her court while making the trip to Portland.

## WORLD PETROLEUM

The earth has yielded 35,240,866,000 barrels of petroleum from the first recorded commercial production until today, according to estimates. This is enough to fill a tank one mile square and one and one-third miles high.

## Queen and Princesses Have Car Use

Picture shows Queen Edna Hancock (center) and Princesses Cleo Champagne (left) and Zo Anne Shook with the Chevrolet special deluxe car provided by Turner Chevrolet company for their trip to Portland to the rose festival, where they will ride the Klamath float.

## BRITISH CONFIDENT OF HOLDING SUEZ

(Continued from Page One)

iority over the British Isles, the English channel and the invasion ports of occupied France—a conclusion supported by a sharp decline in daylight bombings and relatively fewer successful night raids by the nazis in recent weeks.

## Four Men Reach Safety After Hours in Water

(Continued from Page One)

sel at 2 p. m. after heavy seas began washing over the cabin, and struck out for shore, a distance of two or three miles, propelling the raft by paddling with hands and feet.

An hour later, Richards said, McRae died of exposure and they were forced to let go the lifebelt which he wore. At 4 p. m. Barker also died of exposure on top of the almost submerged raft where he had been placed when he could no longer hold on. His body was washed overboard soon after.

Lorenzen died half an hour later when the raft was half a mile from shore. Captain Couture clung to his body for about 20 minutes despite the fact that he himself was near exhausted, but Lorenzen finally slipped through the lifeline and drifted away.

An eddy carried the raft out from land, but it again drifted closer and finally was carried ashore by the waves. "We could not have survived even for a few minutes longer in the water," Richards said, adding that they had no means of lighting a fire after reaching shore and "would not have been able to remain alive on shore had it not been for the good fortune of finding the good hospitality of the Bob Bierush farm."

## Spokane Arrests Man Sought for Triple Slaying

(Continued From Page One)

charged, Wells met his half brother at the shops, drove to a spot less than a mile from where his slain wife lay, and shot and killed him. His body was found several days later.

Shay said Alfred Wells was angry because a half sister, Violet Davis, had left as his housekeeper and blamed Raymond and Jean Wells for her departure. Violet has been under guard in the San Joaquin valley since the slayings.

## PLANE PLANT CREW GIVEN TILL MONDAY

(Continued from Page One)

take over and operate the plant if the president directs."

"An army officer will be detailed to operate the plant," he told reporters. "Men who want to return to work will be able to do so without interference. Our hope is that the men who work in the plant normally will continue to work there. The army will see they are not interfered with."

Early said the president also had requested Harvey W. Brown, head of the International Machinists union, to come to Washington and confer with him regarding the machinists' strike in the San Francisco shipyards, which also has been holding up major defense work.

All other trades are back to work in those shipyards, Early said.

Asked about the third major strike on the west coast, that of lumber workers, Early said there was no real shortage of lumber now and if the strike holds up production in the northwest other producing areas would take care of the shortage.

## Strike Called at One Restaurant As Others Sign

offer and voted 248-2 to strike Saturday at 2 p. m.

Approximately 275 employees are benefited by the wage boost, Tatman indicated, boosting local payrolls over \$4000 per month. The new contract is for one year.

The international air transport system joins the United States with more than 50 foreign countries and colonies, including all Latin America, Europe, New Zealand and the Orient.

## Editorials On News

(Continued from Page One)  
be an injustice too glaring to be tolerated.

Total war must be TOTAL war—each doing his share.

BEYOND the seas, the lull continues today while Hitler seeks to force the French to fight the British. There are rumblings hinting that the French have no stomach for the enterprise.

A French diplomatic source in Zurich (Switzerland) is quoted as saying that Weygand can't guarantee the attitude of his men in north Africa if they are called upon to fight the pro-British free French forces of General de Gaulle. The same source adds that Weygand, at his own insistence, has been relieved of responsibility for the conduct of the French troops in Syria.

These developments are said to have taken place at Vichy Friday in the course of a stormy meeting between French General Weygand and French Admiral Darlan (who is obviously a British hater.)

(THE Zurich dispatch is carried by the Exchange Telegraph, a British news agency. So it may represent wishful thinking.)

FROM Ankara, Turkey's capital, come reports day after day telling of German "tourists" pouring into Syria — the same reports that have come from every country Germany has invaded. There are stories of German transport planes shuttling industriously back and forth between Syria and the Italian Dodecanese islands (presumably loaded with arms and equipment for these "tourists.")

IF you are observant, you will have noted that in the past two or three days there are persistent reports of ITALIAN air attacks on Malta and Gibraltar and Italian activities at Tobruk, in Libya.

Either Mussolini is demanding another opportunity in the fighting, in order to justify a future share in the loot, or Hitler is telling him to get busy and show he can do something.

## BRITAIN HEARS WEYGAND ASKS TO BE EXCUSED

(Continued from Page One)

harbor of Beirut, Lebanon, in the past week.

This came from Ankara, Turkey, by way of Reuters, British news agency, and, if true, may indicate German plans to blast

a sea pathway for troop transports through British naval interference.

German artillery on the invasion coast of France shelled British shipping in the English channel and the Luftwaffe reported "especially successful" raids yesterday off Scotland and west Africa resulted in destruction of three merchantships—20,500 tons.

A rumble of explosions heard on England's folkstone coast and glimpses of Spitfires and Hurricanes told Britons today that the RAF again was challenging the Germans over their own occupied ground across the channel. London last night had its first bombing since May 11.

## Whirlaway Wins Belmont Stakes

NEW YORK, June 7 (AP) — Whirlaway, winner of the Kentucky derby and Preakness, today completed the turf triple at Belmont park.

J. Fred Byer's Robert Morris was second, three lengths back of the derby-Preakness winner. Sonny Whitney's Yankee Chance was third, another five lengths farther back, and Robert Kleberg's Itabo was last in the four-horse field. The time for the mile-and-a-half was 2:31.0, the slowest for the stake in years.

For the first time since he began his amazing sweep of three-year old honors, Warren Wright's Little Chestnut with the long tail ran a front race.

The victory was worth \$39,770 to Whirlaway, bringing his earnings for the year to \$158,836 and for the two years of his career to \$236,111. Whirlaway paid \$2.50 for each \$2.00 winning ticket. He was ridden by Eddie Arseno and carried 126 pounds, as did all four colts in this stake.

## FISH STUDY MADE AT LAKE O' WOODS

It was learned here Saturday that a crew of four state game commission employes Friday began a study of Lake O' Woods, to determine the number and kind of fish the lake can best support. A similar study will be made at both Fish and Four Mile lakes in that section.

Soundings of Lake O' Woods will be made, the men plan to prepare a contour map, and conduct other studies to be used as a basis in a restocking program. Work at the three lakes is expected to take one month.

## Navy Launches 35,000-Ton South Dakota

(Continued from Page One)

within the past two months. The cruiser is the Santa Fe.

The \$52,794,000 South Dakota, four months ahead of her construction schedule, will become the U. S. navy's eighteenth ship of the line when she joins the fleet early next year.

Like her two sister ships, the newest sea fortress will mount nine 16-inch guns and a score of smaller broadside and anti-aircraft weapons. Will carry the heaviest available armor, will be manned by 75 officers and more than 1000 men, and be capable of a speed in excess of 28 knots.

The three new dreadnaughts will be the world's most formidable in shooting power.
