

# SOLDIERS GET RIDE HOME IN GENERAL'S CAR

**DEFENSE**—HTK Wed Herald  
**CAMP HUNTER LIGGETT**, Calif., June 19 (AP)—Following a driving craze that has sprung up among officers here on summer maneuvers, Major General George A. White, commander of the 41st division, is driving his own "jeep."  
 While piloting one of the tiny quarter-ton vehicles the other night, General White picked up two soldiers of Oregon's 162nd Infantry regiment who were hitch-hiking their way back to camp.  
 As the vehicle bounced down the road, one infantryman, unable to see the driver in the darkness, remarked:  
 "This is one of these things I've ever ridden in one of these things."  
 Quipped back the general to the amazed soldier:  
 "And I'll bet it's the first time you ever had a major general for a chauffeur."

**FORT LEWIS**, June 19 (AP)—Nearly 800 students from four colleges in Oregon and Washington will attend the six week's course for ROTC camp starting here about June 15, according to Col. John J. Fulmer, acting commander of the 9th army corps.

Cadets from Reserve Officer Training Corps classes from Washington State, University of Washington, Oregon State and University of Oregon will start arriving at Fort Lewis some time next week for the six weeks of strenuous field training.  
 The men will live in tents in the area left vacant at Camp Murray when the 41st Division moved into its new cantonment. The course will include instruction in all aspects of army life from physical training to mess management and rifle marksmanship.

**FORT LEWIS**, June 19 (AP)—Here is another example of the rapid changes taking place in the nation's modern army.  
 The shiny new 3-inch guns of the 205th Coast Artillery (Anti-Aircraft) were shot for the first time a month ago when that regiment spent a week on the firing range near the Graylands ocean beach.

Now the guns are out-dated! Col. Henry A. Wise, training officer for the 9th Army Corps, said this week that all 3-inch guns will be replaced in anti-aircraft units by 90 mm weapons which are an inch larger.  
 "We have found the smaller guns just don't reach up to the high flying aircraft," said Col. Wise. "The 3-inchers have an effective range of five miles; while the new ones can shoot almost eight miles."  
 He couldn't say when the new guns would be received by the anti-aircraft unit.

**BUILDINGS BURN**  
**VALLEY JUNCTION**, June 19 (AP)—A service station, store and restaurant were destroyed by fire of undetermined origin Tuesday night at this junction point on the McMinnville-Coast highway.

Ikkes never has been an oil expert. When I was in Washington we never dreamed of calling on him for aid.—Albert B. Fall, secretary of the interior during the Teapot Dome oil scandals.

**Nu-Back**  
**LENGTHENS AS YOU BEND!**

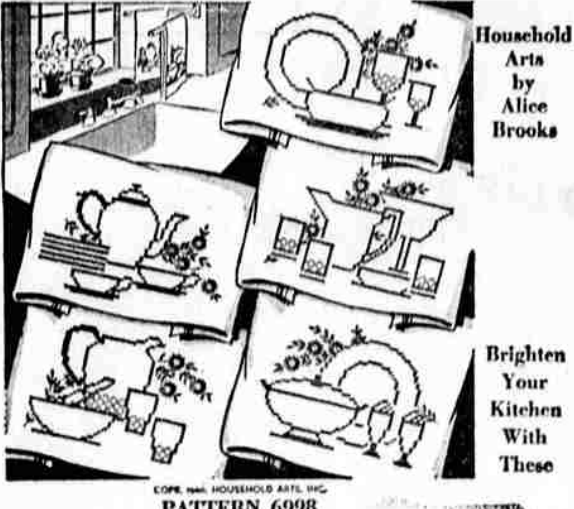

**Famous Sliding Back \$4.59**

Such flexible comfort . . . such lovely lines . . . because, you see, Nu-Back controls without "riding up"! Uplifts bust, slims waist and hips, flattens diaphragm. Watch your figure improve!

## Gay Kitchen Towels In No Time

Household Arts by Alice Brooks  
 Brighten Your Kitchen With These

Do you have a quick gift to make? Choose this set of towels, so effective with a minimum of work. Even three towels are a welcome present. Pattern 6998 contains a transfer pattern of 6 motifs averaging 5 1/2 x 7 1/2 inches; materials needed; illustrations of stitches; color schemes.  
 To obtain this pattern send 10 cents in coin to The News and Herald, Household Arts Dept., Klamath Falls, Ore. Be sure to

**NOTICE TO PATTERN SUBSCRIBERS**  
 Do NOT send clipped picture of your pattern with your order. Keep it for reference.  
 Write the number of pattern, your name and address plainly on your order.  
 Write plainly your NAME, ADDRESS and PATTERN NUMBER.

## GROUP ASSISTS 13 COUNTY CHILDREN

**PORTLAND**, June 19 (Special)—Thirteen dependent children from Klamath county are receiving care from the Boys' and Girls' Aid Society of Oregon at the present time, according to a report released this week from society headquarters. Under the supervision of the society, which provides clothing and medical and dental care, the children are placed in private family homes throughout the state.

The Boys' and Girls' Aid reports that since 1914, it has provided for 58 homeless and neglected children from Klamath county.  
 Fifty-five per cent of the society's wards come from counties other than Multnomah, yet substantial financial support from private sources is provided by no other county, officials of the organization point out. Without additional funds from the counties to meet the increased cost of living, services to dependent children will have to be curtailed.  
 The agency is asking the cooperation of every Oregon community in meeting present needs which total \$5000. The fund-raising appeal, organized on a state-wide basis, is going forward rapidly in Klamath county under the chairmanship of Mrs.

Edward A. Geary of Klamath Falls.  
 Established in 1885, the Boys' and Girls' Aid society has cared for more than 7300 Oregon children since its inception. At the present time 353 boys and girls are receiving care under its supervision. C. C. Chapman is the president of the organization and Mrs. Myrtle C. Dalziel serves as state director.

**Hager**  
**HAGER**—Bob Bunyard is working at the Wheeler Pine company now.  
 Orville and Ralph Kohler were dinner guests at the Baldwin ranch Sunday.  
 Mrs. McClay is enjoying a visit with her sister, Mrs. Haines, and daughter from Oakland, Ore., who arrived here last week.  
 George Reagan purchased a cow Monday.  
 Mr. and Mrs. Troy Cornett and Mr. and Mrs. B. Bunyard visited Crater lake Sunday. This was their first visit to the lake and they were impressed with the snow and scenery and by the bears begging for food.  
 Mr. and Mrs. George Kohler and son Douglas, were dinner guests at the Ray Overton home in Klamath Falls Sunday evening.  
 Rain has stopped the haying for a few days.  
 The workers on the highway oiled and graveled the Hager section last week. Monday the painters were painting the mail box posts.

# FOOD SURVEY IN CARIBBEAN ASKED BY F. R.

**WASHINGTON**, June 19 (AP)—The agriculture department reported Wednesday it had been asked by President Roosevelt to make a survey of the food supply situation and health conditions in the Caribbean region, including the French islands of Martinique and Guadeloupe.  
 The survey will be made, the department said, by C. B. Munson, collaborator of its office of foreign agricultural relations.  
 Officials said the survey would include British and Dutch owned islands in the Caribbean as well as Cuba, Puerto Rico and possibly Central America.  
 In announcing this action, the department said, the Caribbean region had suffered a disruption of trade since the outbreak of war and for some time there have been reports of food shortages on the islands.  
 Officials refused to say whether the survey had any connection with the government's foreign policy regarding the Caribbean.  
 The department said the study would consider the need of the islands for food commodities of which the United States had sur-

# DEFENSE COUNCIL MEETING SLATED

pluses, and possibilities of supplying such commodities to the deficient areas.  
**WASHINGTON**, June 19 (AP)—County Judge U. E. Reeder has called a meeting for June 24 at the chamber of commerce rooms at 2 p. m. for organization of a permanent Klamath county defense council.  
 Called to the meeting are members of the council recently appointed by Governor Charles A. Sprague.  
 Corrections have been made on two names listed in the appointments: Ralph Waggoner, labor unionist, and J. A. Souther, a member of the Veterans of Foreign Wars.  
**POWER PARLEY**  
**PORTLAND**, June 19 (AP)—The power capacity of northwest plants to serve defense industries will be discussed by Dr. Paul J. Raver, Bonneville administrator, with OPM leaders, a Bonneville spokesman said yesterday. Raver is now en route to Washington for the conference.

# WOOL MEN WANT CHANGE IN PRICES

**WASHINGTON**, June 19 (AP)—American wool growers, seeking to meet competition of imported clips, have asked government officials to grant contract differentials to domestic mills filling orders for the army and navy if they used wool shorn in the United States.  
 Representatives of national and state wool growers associations conferred Tuesday with Donald M. Nelson, director of purchases in the office of production management; Major Edmund B. Gregory, quartermaster general, and federal price-control officials.  
 Fred Marshall of Salt Lake City, Utah, secretary of the National Wool Growers association, said the domestic producers were apprehensive that unless the government granted differentials, American mills would use foreign wools to save about 10 cents a pound. He asserted

that the British government fixed the price of fine scoured imported wools in Boston at 91 cents to 95 cents a pound, while the domestic clip brought \$1.05 a pound.  
 The wool growers asked that in the letting of contracts for all government supplies of woollen goods in the fiscal year beginning July 1, federal officials should grant the mills differentials in amounts equal to the margin between the domestic and foreign clips if the former were used.  
 The OPM recently announced that government orders for 1942 would consume about 259,000,000 pounds of wool.
