Army Carries Peanuts, Candy On Maneuvers

WASHINGTON, June 23 (AP) — American soldiers are now carrying peanuts and candy bars on maneuvers as well as to the ball game.

While admitting that no troop or would care for such rations as a steady diet, government nutrition experts declared that the specially treated nuts and candy include almost everything a man needs in the way of food except bulk.

The peanuts are in the form of peanut butter and the candy is in the ordinary convenient chocolate bar package. Both are fortified with an extract made from brewer's yeast which provides a variety of the vitamins in the vitamin B complex.

Dr. Russell M. Wilder, chairman of the food and nutrition committee of the national research council, declared that peanut butter is an "excellent all-around food" containing a great deal of protein and some carbohydrate and fat. When brewer's yeast is mixed with it necessary vitamins are added and when the chocolate candy is added it provides the necessary energy-producing sugars.

Germany has been using similar emergency rations for troops in the field, Dr. Wilder added. Without thiamin and vitamin C, which are included in the pep rations, persons develop extreme lassitude, nervousness, inability to sleep and the "jitters."

Scantly Clad Women Shunned

TULSA, Okla., June 23 (AP) — The Rev. O. A. Pankey is taking no chances of being embarrassed this summer by scantily clad housewives.

Mr. Pankey, pastor of the Baldwin Methodist church, said he had hired Miss Morean Murray as assistant pastor. "She'll do all the visiting. It's almost impossible for a minister to make calls in the summer. The women naturally don't stay fully dressed around the house, and it's embarrassing for me and them, too."

THE SPIRIT OF 76
by JOHN CLINTON

My neighbor's wife, that almost faultlessly pretty lady who graces the house next door, is beginning to think I'm pretty smart. She has a little reader of her own, and about six months ago she began to fret about it. It didn't have any comp.

Well, passing the obvious fact that she has enough oomph for two, I suggested that she might be using the wrong kind of oil in it. "But, aren't they all pretty much alike?" she chirped. "Ah, no," I said. "For you see some oils form more carbon than others — that black gunk that ruins the balance of your motor."

She wanted to know what I thought she ought to do about it. And, as you know very well, I recommended Triton Motor Oil. "On account of why?" asked the lady.

Because Triton is made by Union's own, patented Propene Solvent Refining Process. It is a 100% pure paraffin-base oil — the finest kind of lubricant money can buy — gives you top performance and top protection.

Now she thinks I'm wonderful. If you, too, want to be wonderful — Fu — just switch over to Triton Motor Oil. Tell 'em Clinton sent you!
