The past 24 hours brought an extension of the active front through a German attack across the extreme north of the Finnish border toward the Russian Arctic port of Murmansk and repeated assaults on Russia's Karelian Isthmus frontier with Finland, north of Leningrad.

The enemy—either or both German and Finnish troops—made repeated attacks yesterday to cross the Karelian Isthmus border but each time was thrown back by fierce counter-fire and counter-attacks, suffering heavy losses, said today's Russian communique.

RESTORA FRENCH DIES IN VALLEY

Word of the death at Central Point of Restora French, 84, for many years a resident of Klamath county was received here Monday morning by old friends. Miss French came to Klamath Falls shortly after the name was changed from Linkville, and was governess, seamstress, music and painting teacher to many young residents of that day. Miss French made her home with the Clopton family at the old Esmond hotel, the hostelry later known as the American and standing on the site of where is now the Klamath Billiards, Main between Sixth and Seventh streets. For many years, in the early part of the century, Miss French taught in the county schools, holding positions in both Plevna and Keno. She later taught oil painting and music, and sewed for families of the town. Ten years ago Miss French, then past 70, left this city and made her home in Ashland, studying at Ashland normal. For many years she lived at 331 North Tenth street. It is thought she came here from Dunigan, Calif. Several nephews survive, one living in Montague, Calif. LONDON, June 30 (AP)—Stocky, energetic Lord Beaverbrook, who as minister of aircraft production was credited with quadrupling the output of British planes at a time when they were vitally needed, was appointed minister of supply today with responsibility for one of the most important jobs in the British war machine.
