Barter of a blanket or purchase of a new home . . . trade must always rest on confidence; the implicit confidence of the customer in the store he buys from.

Confidence has nothing to do with age or size. A small storekeeper may have it and his buyers will swear by all he sells. A great merchant may lose it . . . and be great no longer. The confidence of our customers is the one thing we prize above everything else . . . because we realize how easy it is to lose it.

We know, too, that confidence once lost, is not easy to win back. That is why we are so careful not to abuse it. That is why we demand dependability in the products we sell, accurateness in our advertising, and courteous, careful service by everyone who works for us.

In moving into our new location at 221 Main street next to the Willard Hotel, we do so with the utmost confidence of the ability to continue serving the furniture buyers with names of furniture that stand out as utmost in quality . . . names that you'll find on furniture in the homes of those who want to realize their desires of long lasting home furnishing comfort. Your confidence has made possible a more spacious, a larger stocked store and the same unflinching desire to serve you well.
