

HULL SILENT ON PLANS OF GOVERNMENT

(Continued from Page One)

French colonies might be expected—either in Africa or the western hemisphere.

Another unknown factor of considerable importance was the reaction of General Maxime Weygand pro-consul of North Africa, to the new collaboration. The general several times has publicly declared he would defend the independence and integrity of the French colonies against any aggressor.

The United States has cooperated with Weygand by sending supplies to the French North African colonies, cut off from their normal supply sources by the war. Moreover, Weygand and Darlan have not always seen eye to eye.

If the state department was reticent about yesterday's developments, senators and representatives were outspoken with recommendations for vigorous counter-action.

GENEVA, Switzerland, Aug. 13 (AP)—Unrest and discontent in France, acknowledged by Chief of State Pétain, is reported to be widespread by persons traveling from the occupied and unoccupied zones.

The resistance however, is said to be largely unorganized except for activity of the communist party, which is expected to be affected most by Pétain's ban against political parties.

One eyewitness said 10 persons at Saint Etienne threw themselves on the railway tracks in an effort to prevent departure of a train-load of goods requisitioned by the Germans. An unconfirmed version of the incident said the train killed some of the demonstrators.

Similar incidents are reported from Lyon and the Haute Savoie department, where the govern-

ment placed all public buildings under an army guard.

One frontier report said a number of Frenchmen, with whom the Syrian fight was unpopular, booted soldiers returning from the campaign, and even stoned trains repatriating Frenchmen from Syria.

In some sections, according to reports from over the border, the United States flag is not allowed to be displayed because of the pro-American demonstrations that result.

Many observers from France say that Vice Premier Darlan's unpopularity, of which Pétain spoke, is due to his foreign policy. Estimates of these observers vary, but some of them say as high as 80 per cent of the population of unoccupied France and 90 per cent in occupied France are pro-British.

VICHY, Unoccupied France, Aug. 13 (AP)—Vice Premier Admiral Jean Darlan, newly awarded vast powers over military and other phases of French life, decided today to make a minute and a half radio announcement at 9 o'clock (2 p. m. EST) tomorrow. Informed sources said it would be of "extreme importance."

LONDON, Aug. 13 (AP)—Major Clement R. Attlee, lord privy seal and often Prime Minister Churchill's deputy in parliament, will broadcast an announcement officially described as "important" on all BBC stations at 3 p. m., Thursday, (9 a. m. EST).

(Nature of the announcement was not disclosed, but there has been much speculation that Prime Minister Churchill and President Roosevelt and Harry Hopkins of the United States have met or are meeting secretly.)

Germans Declare U. S. Planning To Take Indies

(Continued from Page One)

Authorized German quarters declared they considered it a great compliment that the British press likened Pétain and French Vice Premier Admiral Darlan, respectively, to the late German president, Marshal Von Hindenburg and Adolf Hitler.

They ridiculed American editorial commentators, they said, wrote "as though France ought to have planted herself under United States protection." These German sources also said that at the moment they could not comment on British-Russian assurances to Turkey except that "we hear their words but lack the faith to believe them."

bombing attack, putting that field out of commission.

At 5:15 a. m., large motor boats, accompanied by mine sweepers, entered the harbor at Aberdeen, Wash., and the Aberdeen chief of police reported several hundred parachute troops were dropped from transport planes near the city wharfs. The police force was unable to cope with the situation.

Enemy transports entered the harbor soon afterwards. At 6:30 a. m., the telephone operator at Raymond, Wash., in the same area, reported "enemy troops entering the city—" but before she could give the strength of the army or other details, the line went dead.

Portland Health Chief Takes Post

(Continued from Page One)

PORTLAND, Aug. 13 (AP)—Dr. Adolph Weinzirl, Portland health officer since 1937, announced today he would resign September 1 to become director of hygiene and public health department of the University of Oregon medical school.

The department was organized recently under terms of an endorsement created by the late Dr. E. C. Brown. Dr. Brown directed the endorsement be used to promote social hygiene education in Oregon.

Dr. Weinzirl has specialized in prevention of epidemic and contagious diseases. Not since he entered his present office has Portland had a serious outbreak of disease.

Chamber Directors Hear Denial of Log Truck Permit

At Wednesday's chamber of commerce directors luncheon, a letter was read from the state highway department denying local loggers permission to use the road from Bly to a mile east of Bly on Saturday afternoons, as had been requested.

The letter, however, outlined a tentative plan whereby the loggers might be permitted to use this piece of road at certain other hours.

The chamber directors looked over the Upper-Klamath lake bird refuge abandonment proposal, and turned it over to the wildlife committee with instructions to prepare more information for representatives in congress.

ALTERNATE ROADS FOR AIRPORT SET

(Continued from Page One)

County Commissioner John Reber said:

"So far as I'm concerned, I'm convinced we'd better say we'll build that road and get that \$278,000 from the government."

Other court members agreed and the action was unanimous.

The county officials pointed out that there are many places to put every available cent of road money, "and then some."

Engineer Howard said that if a straight mill and a half levy is granted in the budget for roads next year, a more adequate program can be carried out despite the extra expenditure at the end of this year for the airport road.

Man Clubbed to Death by Convict in Oklahoma

McALESTER, Okla., Aug. 13 (AP)—The body of W. R. Benningfield was found today in a weed-filled ditch, hammered to death by a convict the 60-year old state employe was taking to a physician.

The death brought to six the number this week in which McAlester prison convicts figured. Warden Fred Hunt, aroused by the latest killing, ordered immediate closing of the state's two prison camps at Atoka and Red Oak.

James David Parrish, 37, serving a brief sentence for grand larceny, was quoted after his capture last night at Shawnee as admitting he killed Benningfield Monday and dumped his body from a car 14 miles north of Durant. Parrish, a trusty, had been at the Atoka prison camp.

Four convicts died as a result of a bloody attempt last Sunday to break out of the penitentiary. Before they died, they killed Hunt's predecessor, Warden Jess Dunn, who had been seized as a hostage.

Interviews Held For Employment Service Prospects

Interviews with prospective Oregon State employes were being made Wednesday by Professor William Griffith, supervisor of examinations for the OSES merit system.

Prof. Griffith was talking with Klamathites who had taken the merit system exams on June 21. Interviewing will continue all day Thursday.

118 Indicted for Ham Price-Fixing

CHICAGO, Aug. 13 (AP)—A federal grand jury today indicted 118 corporate and individual figures in the meat industry in 29 states on charges of "conspiring to fix the price of ham at Easter time in violation of the Sherman anti-trust act."

It was the fourth and largest indictment returned here since a nation-wide inquiry into food prices was begun eight months ago. Previously 12 defendants were charged with conspiracy to fix certain hog prices; 12 others with conspiracy to fix sheep prices and 69 with conspiracy to fix the price of canned peas.

Police Court — Eight men were arrested Tuesday on disorderly conduct charges and brought into police court Wednesday morning. One drunk and one vag also appeared. Four traffic tickets were paid.

Portlander Held To Grand Jury on Shooting Charge

PORTLAND, Aug. 13 (AP)—William Wallace, 55, of Portland, was ordered held to the Multnomah county grand jury after a hearing in municipal court late yesterday. Wallace is charged with the fatal shooting of Benjamin Finkell, 32, electric equipment worker, on a downtown street last Friday.

Miss Pat Martin, secretary at an iron foundry, who was seated with Finkell in an automobile at the time, testified that Wallace fired the fatal shot. She said he became incensed when Finkell ordered him to stop swearing.

REJECTED

WASHINGTON, Aug. 13 (AP)—The house rejected today a compromise version of legislation which would permit the government to draft munitions or machinery and supplies for their production and ordered the bill returned to a joint senate-house committee for further revision.

Cub Scouts—Den 4 of Cub Scout pack has cancelled all meetings until after school starts.

WORKERS SOUGHT FOR PANAMA CANAL

(Continued from Page One)

The U. S. government has issued another call for engineers' aides and assistants for work on the Panama canal. Walter Stark of the Oregon state employment service announced on Wednesday.

Job qualifications range from high school education in engineering up to a degree from a recognized engineering school with two years' experience. The positions pay from \$150 to \$270 per month and will last for the duration of the emergency.

Living expenses in Panama are in the neighborhood of \$50 per month for board and room, and transportation to the canal will be paid by the government from port of embarkation. Applicants must be under 30 years of age but may be either single or married.

Canal representatives will be in Portland on Saturday, August 16, for interviews, the announcement said.

Stark urged anyone interested and with the necessary qualifications to contact either him or Jack Almeter at the service office at 242 Main street.
