# Gasless Nights

Editor's Note: The welfare administrator did not "put" anything in the paper. She was interviewed by a reporter for information regarding the old age assistance program.

# NEWS BEHIND THE NEWS

By PAUL MALLON

WASHINGTON, Aug. 29— I know more now about the real root causes of sloppy army morale than when I wrote recently a column suggesting how the homefolks could help improve it. About 500 letters have since reached my desk, more than I ever received concerning any other column in 10 years. They were largely from draftees or fathers and mothers. Only a few were anonymous and could be cast aside as mischievous fakes. The rest were honest, genuine presentations of injustices (not merely gripes and grouches), and some of them were unanswerably true. In an effort to clear the atmosphere it must be cleared if this country is going to have the American kind of an army it wants! I am herewith submitting an accounting of the grievances and the facts I have been able to gather from them. In observance of the trust which the writers showed in me, I have burned all signed letters. Grievances are listed below according to the number of times they were mentioned, the first being mentioned most and so on.

# COMPLAINT

"The government is not playing fair with the soldier. It allows unions to strike and deny equipment. It permits the lowest type of labor to receive lavish war-time wages, 20 and 30 times as much as the soldier."

It was surprising to find this the chief cause of complaint when I expected it to be extension of the draft time limit, but less than in all other wars. Shipyard workers in the last World War were making as high as \$35 a day, while the AEF man got \$30 a month. There is no evidence the government wants

# GRIFE

"No weapons!" Everybody knows that. The army leaders

# CANADA PAYS MORE

Only nation which pays its soldiers more is Canada—average about \$36 (considering depreciation of their currency against ours) with allowances for wives and dependents. But Canada has to support an army only a fraction the size of ours.

# THE BRITISH ARE NOT WORTH FIGHTING FOR AGAIN.

Some say yes, some say no, but nobody seems to like Hitler. There is a provision in the draft law which says no troops will be sent out of this hemisphere, and they will not be sent, until that amendment is repealed by congress after open debate, in which your folks can join too.

# THE ROOSEVELT SONS GET EASY OFFICERS JOBS WITH GOLD BRAID.

While we are privates."

# THAT'S A GRIFE.

Did you ever hear of a spot in this world, in all the history of it, where the boss' son did not get a good job. What do you want?

F. H. LaGuardia, mayor of New York City, has had 13 official residences since he took office.

Sixty-five per cent of the annual diamond production is used by industry in drilling and grinding tools.

# Telling The Editor

Letters printed here must not be more than 300 words in length, must be written legibly on ONE SIDE of the paper only, and must be signed. Contributions following these rules, are warmly welcomed.

# ABOUT ASSISTANCE

KLAMATH FALLS, Ore.—(To the Editor): I am writing in regards of what Altha Urquhart put in the paper August 18, 1941, about the old assistance. She stated it wasn't a pension, you may call it an old age assistance, but we do not.

She stated the Oregon welfare program does undertake to give assistance to old people who are destitute or so nearly destitute they cannot survive on private resources. It stated again you have to be at least 65 years of age, you had to be living in the state for five or nine years.

What about two old women in Klamath county who have been living in the county for over 25 years. Born in Oregon and lived in Oregon all their lives, and their husbands paid taxes for about 50 years in Oregon. One of the women put in for the old age assistance over two years ago. She hasn't received anything from your office. She was destitute last winter in Klamath Falls and early this spring moved to Portland, Oregon, and finally died July 9, 1941. Do you call this an old age assistance? Thank God the other old lady is still living and living in this vicinity. She has been three years trying to get help. Is this what you call "old age assistance?" She hasn't received anything out of the welfare office.

Both old ladies are over 65. Respectfully yours, Mr. and Mrs. Elmer Hayes, Klamath Falls, Oregon.

frankly decided to get larger numbers in than could be furnished weapons for some time. They decided to throw you a pair of dungarees and a shovel and get you ready physically, because they knew American production could furnish the weapons. That was their decision, and they are running the army, and while it may be discouraging, and may work hardships for a time, it will be all right, if and as they produce the weapons. If not, you will see some courtmartials higher up.

"The Roosevelt sons get easy officers jobs with gold braid, while we are privates."

"That's a grife. Did you ever hear of a spot in this world, in all the history of it, where the boss' son did not get a good job. What do you want?"

# NEW HOURS SET FOR LIQUOR STORE

New hours will be in force at the state liquor store beginning September 1, it was announced by Manager Lee Wright Thursday.

The store will be open from 10 a. m. to 11 p. m. every business day. Previously, it was open from 8 a. m. to 9 p. m. week-days and from 8 a. m. to 11 p. m. Saturdays.

# State Police Officer to Wed

Sergeant Lewis Johnson of the state police doesn't know whether he's giving orders or taking them these days.

The "Sarge" is just like a million other Americans about to take the matrimonial step. Johnson and Rose Novak of Salem will be married here September 6. No honeymoon trip until October, says Johnson, and they'll be at home in the Ramona apartments. The bride-elect is social investigator for the state hospital in Salem.

# Temperatures Rise Throughout Oregon

PORTLAND, Aug. 29 (AP)—A high pressure area moved over the northwest Thursday, sending temperatures upward and chasing rain clouds that have caused dreary rains throughout the state for several days.

The weather bureau reported that rains fell in southeast Oregon and throughout the Willamette valley, but that sunny skies would rule Friday.

Temperatures throughout the state were generally low Wednesday, with Burns' maximum of 60 being the lowest. Other

temperatures: Baker 69, Lakeview 68, Medford 75, Newport 63, Pendleton 73, Portland 63, Eugene 69, Roseburg 74.

# Redmond Youth Hurt By Shotgun Blast

REDMOND, Aug. 29 (AP)—His arm shattered by an accidental shotgun blast, 12-year-old Frank Newton, Powell Butte, walked a mile to his ranch home today.

Frank had gone into a field to shoot rabbits. He was given first aid treatment here, then taken to a Bend hospital. His condition was reported to be serious because of shock and loss of blood. Frank is the son of Mr. and Mrs. William Newton.

# Lakeview Roundup

An interesting road leads over Bly and Quartz mountains to the Goose Lake valley, where the buckaroos are gathering for the annual Lakeview roundup.

It will be held this weekend. If your interests lie in the direction of good western shows, and you like to see fine western country, take that road to Lakeview this weekend.

Lakeview is an interesting roundup town, because it is an authentic cattle town. Some of the best and biggest ranches in the west lie in Lake county. The cowhands there have more important work to do than to sit on corral fences and warble songs to starry-eyed gals from the cities. Lake county cowhands do tough work on the range and in the corrals; they're honest-to-goodness sons of the western ranges.

Lakeview roundups are consistently good, full of action and suspense and thrills. This year, the Lake county fair will be held in conjunction with the roundup. Opportunity will be given to see what the farmers of the Goose Lake valley are doing with their crops and stock, and the farm boys and girls of that district will also demonstrate their accomplishments.

Lakeview people are good supporters of Klamath's Buckaroo Days. Klamath people will find it worth while to patronize Lakeview's roundup and fair.

# They Blew Up the Dam

THE Russians have at last blown up the huge Dnieper river dam, pride of the exponents of the five-year plan and first huge project under that program. A few blasts of explosive and the great structure was gone, and with it went all that it represented in labor and money and power for a great industrial area.

This incident symbolizes the destruction that is war. For two years, it has been going on in Europe. For two years progress has been stopped, except where it could be applied to the art of war and mass destruction.

War demands its price, and it will be paid for long after the fighting stops.

# Defense Jobs Still Not Answer to Migrant Problem

SAN FRANCISCO, Aug. 29 (AP)—Defense industry has drawn so many agricultural workers from the field that farmers on the Pacific coast are suffering from a distinct shortage of labor in harvesting their crops, but it hasn't solved the old bugaboo of the migrant problem, L. J. Haverstick, regional farm security administrator, said today.

Workers are pouring into California at a rate equal to the migration of 1937. Some 40,000 people drove into the state last year, searching for manual labor. The apparently most of them drove to the cities to work in factories, shipyards and other defense industries.

Wherever the job-hunters went, farmers from Okanogan in northern Washington to Los Angeles in southern California reported they didn't have enough help to harvest crops or they worried about what they were going to do for workers when the big crops were ripe.

Schools were reported ready to delay opening in five of more California counties, two counties of Washington, and ready to excuse children for farm work in two cities of Oregon where one high school will be closed for the October potato harvest.

More pickers are needed for the crop harvest in Washington, Oregon, and California. There aren't enough hands to reap wheat in eastern Washington. Bean and fruit growers in Oregon said they needed more pickers. The Sonoma valley of California reported simultaneous harvest of hops, apples and prunes found them short of workers.

The California department of employment is trying to move workers from areas where they
