CHINA FACING FUTURE WELL, SAYS SPEAKER

Today China faces the future with more confidence, more fighting spirit and a better organized government than she ever had before, it was declared here by Dr. Erna Gordon, state representative of United China Relief, Ind. Dr. Gordon has been in Klamath Falls this week organizing the China Relief campaign, of which Rev. Victor Phillips is the Klamath chairman.

"More than six million pounds of bombs have been rained on the city of Chungking alone in the past two years," said Dr. Gordon. "During that time the city has grown from a backward town that didn't even boast a wheeled vehicle to a bustling metropolis of almost a million people, with a water system, telephones, roads, electricity and other modern improvements. This capital of the New China now faces air raids as calmly as we do thunder storms. Its residents are warned a few moments after the enemy planes take off from their base fields a thousand miles away and take refuge in the best bombproof shelters in the world. Here, as in every other city and village in still free China, industry and education go right on, with a fiercely eager determination. The New China, being wrought from the flames of destruction, is destined to be a stronger, more united China than the world has ever known. More literate, more productive, more modern in its ways of living and thinking, this war-born nation is truly the one hope for freedom in the Orient, and surely this other front, this last frontier of freedom, in the east, is one that we can not afford to neglect. The New China needs our help today. We shall need the friendship of a free China tomorrow."

"We Americans like spunk. We have always been willing to help those who, needing help, have helped themselves. We Americans want to help China see it through. The only question is how to do it best. For this reason the eight agencies that did the bulk of Chinese relief and rehabilitation have been conducting separate appeals. Now these agencies have been combined in a united, nationwide campaign for Chinese aid. Every part of the United States—east to west—village to metropolis—is participating in this united expression of American sympathy and good will to those brave men and women of Asia whose struggle gives expression to the democratic ideals they share with us.

"For us Americans aiding China is just as important to each and everyone of us as the defense of our country. It is wise to invest in democracy now before it is too late. China Relief is not charity for when the democracies win out we shall be able to earn back every cent given now."

The meeting was very successful, Neilan Abbott, president, called the meeting to order. He is a good president. As soon as the meeting came to order, some of the club songs were sung and the yells were yelled. Then the president called for the old and new business.

The members are sure Taylor High will be very successful in doing his job. The president appointed three committee members, Shirley Maaten, Alma Stover and Charles. After the new business was discussed, the meeting was adjourned by the president. When the meeting was adjourned, the members played games and talked together.
