

AXIS REPORTS CIRCLE DRIVE IN LIBYA WAR

(Continued from Page One)
Will take care of Bastico or any others there."
(Italian authorities in Rome announced last night that General Ettore Bastico was supreme commander of the axis forces in Libya, with the German general, Erwin Rommel, subordinate to him).

CAIRO, Nov. 29 (AP)—Large British and axis forces have clashed southeast of Rezegh and are deadlocked in a great new tank battle of major importance, the British announced today.
The battle began yesterday and continued into the evening, the British middle east command's communique said.
Presumably large axis forces under Gen. Erwin Rommel, trapped between Tobruk and the Egyptian border, were struggling to fight their way out, while British forces surrounding them were attempting to smash them into smaller groups as a prelude to attempted annihilation.
"Bitter fighting" continues "without either side having given or gained ground," the British communique said.
The bulletin added that British and New Zealand forces were gradually "widening their corridor of contact" established between the now freed Tobruk garrison forces and those which fought their way into Libya from the east.

The "butcher bird" is so called because it impales its victims on thorns.

JAP PREMIER SEEKS PURGE IN FAR EAST

(Continued from Page One)
States today, declaring that "America has no sincerity x x x has broken the peace" and that "the United States alone is responsible for what seems to be almost inevitable now"—in other words, war.

Nazis Seek Peace
Amid an atmosphere reflecting alternate gloom and bristling hostility, Premier Gen. Hideki Tojo's cabinet met anew to deliberate on Japan's final stand on the negotiations with Washington.
Quarters closely connected with Japan's puppet regime at Nanking disclosed that nazi agents in the Far East have been making a determined attempt to bring about a negotiated peace between Japan and China, apparently to release Japan forces for thrusts in other directions in the Orient.

An authorized Chinese source also declared that any lessening of United States aid to China might force Chungking to accept peace terms.
Tokyo observers agreed that President Roosevelt had laid the question of peace or war in the Pacific directly on Japan's doorstep, and that the White House statement that there was no possibility of a "compromise" with Japan on the China war key-noted refusal by the United States to yield to any of Japan's demands. These include:

1. That the United States stop sending war aid to China.
2. That the ABCD powers of America, Britain, China and the Dutch East Indies stop their economic blockade against Japan.
3. And that the ABCD group recognize Japan's "co-prosperity sphere in East Asia" with its program for expansion southward.

Domei, the Japanese news agency, quoting authoritative Tokyo quarters, said that if the United States established an air patrol over the Burma road—key route for China war supplies—Japan would regard it as a "directly hostile action... an example of the most provocative armed aggression."
Domei said Japan would be unable to overlook such an extension of the United States "defensive zone" to the Far East regardless of whether the United States "attempts to justify the move from the point of strict interpretation of international law."

ANTIQUE PRESENTS ON DISPLAY HERE

An interesting sidelight to the Christmas Opening and Fairyland parade Saturday was Mrs. Bert C. Thomas' collection of antiques shown in one of the J. C. Penney company Main street windows.
This collection showed the presents that a little girl of 75 or 100 years ago might have found on her tree on Christmas morning.
Dolls and dresses, dear to the heart of some little girls in the 1850's; a doll quilt Mrs. Thomas had when she was a child, a copy of the "Youth's Companion" dated Dec. 16, 1847, doll furniture dated 1866, paper dolls, books and doll dishes were among the quaint toys.
This collection will be on display in the Penney company window over Sunday and Monday.

FRENCH DENY BASES GIVEN TO NAZIS

VICHY, Unoccupied France, Nov. 29 (AP)—The government gave its word today that five North African air naval bases have not been ceded to Germany as stated in information reaching London.
Commenting upon the report that Bizerte, Rabat, Meknes, Sfax and Gabes were being used by Germans, official assurance was given that no Germans had arrived at these strategic points or on the Mareth line on the Tunisian-Libyan frontier.

The governor general replied: "I would remind you only that Indo-China is part of the French empire, and being so it intends in matters of foreign policy to conform strictly, as it must, to the instructions of the French government."

PRICE CURB BILL GIVEN TO SENATE

(Continued from Page One)
changes which some members contended would be fatal. Administration leaders privately expressed hope, however, that some of the eliminated provisions could be restored in the senate or by a joint senate-house conference committee.
As approved by the house, the bill would authorize a price-control administrator to establish ceilings over commodity prices which get out of line with the rest of the price structure, but a board of review, provided at the insistence of the republican membership, was empowered to set aside his rulings upon appeals.
The administrator also could prescribe ceilings for rents in defense areas, based on rents prevailing around April 1, 1940, if state and local governments failed to adopt his recommendations for such regulations within 60 days.
When the balloting was over, Rep. Short (R-Mo.) summed up the situation this way: "Hodgepodge. I doubt that a single member of the committee knows now what's in this bill."
