## Eulalona Chapter, DAR, Sends Holiday Boxes to Islands

Angel Island in San Francisco bay, and Ellis Island in New York harbor are the main points through which aliens entering or leaving the United States must pass. Gradually, however, under the quota system, the great masses of aliens passing through these centers have thinned to a mere few.

The Daughters of the American Revolution have for years carried out occupational work among immigrants at these points, doing a great humanitarian work in giving occupation for mental, moral, and physical uplift. Even today many of these aliens are held at these ports of entry for long periods through no fault of their own. Daughters of the western states have supported a deaconess stationed at Angel Island, annual quotas from each chapter being sent for this purpose, and also from each chapter is sent a generous Christmas box.

Mrs. Elmer H. Balsiger is chapter chairman of this committee for Eulalona chapter, and will receive gifts for the Christmas box, at the regular meeting of the chapter, Monday evening, December 2, at the home of Mrs. D. V. Kaykendall. Donations of wool, denim, and khaki, shirts, (three yards in length), cotton thread for knitting, are among the needed listed articles.

Mrs. Robert Odell will have charge of the program hour, her subject, "Christmas in Old Mexico." Assisting hostesses will be Mrs. William Dawsons Foster, chapter regent, and Mrs. Helen Mueller.

## WOMEN OF MOOSE PARTICIPATE IN NATIONAL WEEK

Senior Regent Mildred Wilkenson of the local chapter of Women of the Moose announced her organization's participation in the annual national celebration of national Book week. The chapter's observance is in charge of the library chairman, Frances Waits, who has purchased books to send to the children of Mooseheart.

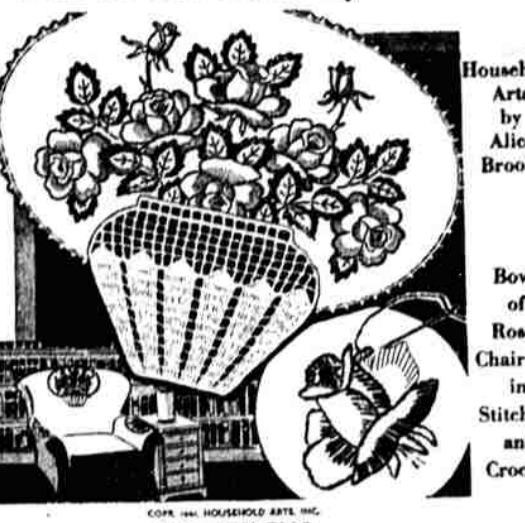

At the last chapter meeting Mrs. Waits gave an interesting reading on the origin and significance of national Book week, quoting from Henry Ward Beecher who said, "A library is not a luxury but one of the necessities of life." It was because books were considered one of the necessities of life that Book week was inaugurated, occurring the second week of November each year, to establish their importance in the minds of the people.

National Book week originated with Franklin K. Matthews, chief librarian of the Boy Scouts of America. He interested other librarians in the idea and soon it was greeted with enthusiasm throughout the nation, becoming a fixed custom. The Women of the Moose adopted their library program in 1930, and have exemplified the objectives of national Book week in all activities of the library committee.

In one Klamath Falls group that motored to Eugene for this weekend's big game were Mr. and Mrs. Francis Hickman and Mr. and Mrs. Ed Hickman.

Another foursome attending the Oregon - Oregon State game at Eugene on Saturday included Mr. and Mrs. Arthur Bryant and Mrs. Alvin Egan.

## Crochet and Stitchery Combined

Household Arts by Alice Brooks  
Bowl of Roses Chair Set in Stitchery and Crochet

See how easily the roses bloom in single and outline stitch! You'll have this chair set finished soon for the crocheted "bowl" is easy, too. A good gift suggestion. Pattern 7002 contains a transfer pattern of an 8 x 13 inch and two 5 x 8 1/2 inch motifs; directions for crochet; illustrations of stitches; materials needed.

To obtain this pattern send 10 cents in coin to The Herald and News, Household Arts Dept., Klamath Falls. Do not send this picture, but keep it and the number for reference. Be sure to wrap coin securely, as a loose coin often slips out of the envelope. Requests for patterns should read, "Send pattern No. to followed by your name and address."

Prophecies for the future proved both interesting and humorous. The game was an original idea of Mrs. J. K. Reno.

Guests included Mrs. Earl Smith, Mrs. C. O. Dryden, Mrs. Russel Brackman, Mrs. J. H. Dunham, Mrs. Frank Sexton, Mrs. J. K. Reno, Mrs. J. H. Herrington, Mrs. C. L. ## HIGH SCHOOL News Notes and Comment

By MAURICE O'CALLAGHAN  
Friday has arrived and with it the last day of the second six weeks period. Cards will probably be distributed next Wednesday.

With the last six weeks of the first semester upon us, we look forward for six weeks and wait with anticipation the commencement exercises which will wind up the schooling for many of this year's graduating class. For the seniors next semester starts the busiest period in their entire four years in high school. That will be a time of fun and work for all seniors. In January several mid-term seniors will walk out of KUHS with no ceremony and into the world. They may, if they wish, return in the spring for the last rites of those leaving.

Have you seen the display of prizes for the Boys' alliance carnival which will be held Friday, December 5, 1941, in the big boys' gym at the high school? Well, those gadgets in the left hand side of the trophy case aren't first prizes for the fair-angst tournament. Those are a fine sample of what the alliance will be giving away this coming Friday at the biggest fun fest that KUHS has ever seen or will see again soon.

Home Ec girls are selling stationery again. This time it has 25 sheets and the same number of envelopes, both of which have red pelican crests. The writing material sells for 50 cents a box.

As Christmas draws near Hified rumors of the annual HI-Y food drive are drifting around. To all stores, parents, and students, we are suggesting that you cooperate with the members of the HI-Y who are collecting the food for the needy.

The drive is an annual affair of the club and is the groups' only well known contribution to the community.

Do your bit to add joy to some one's Christmas. It is little to ask. Remember it is better to give than to receive.

Last column had a bit of news that it could be misunderstood. This is it:

"The Krater will bud forth with another surprise this coming Thursday. We can truthfully say that it is about time it happened."

From what we said it could mean that it is about time they had a surprise, or it could mean that it is about time it happened.

We, of course, meant the latter, for the Krater is very seldom without a surprise of some sort.

Thursday everyone will know and then it's all water under the bridge so what difference does it make?

## BIEBER, Mill Man Injured

BIEBER, Calif.—Claude Caldwell has two finger bones broken and three finger tips mashed and torn on his left hand but is thankful he did not lose an arm or his life in an accident this week at the planing mill he operates near Bieber.

While he was working alone in the mill his gloved hand got caught between the feed rolls of the planer. When he felt the crushing pressure on his fingers he instinctively pulled back with all his strength and freed his hand, drawing it out of the glove. He could not have reached any control to stop the machine while it held him prisoner, he said.

He got into his car and drove one hundred three miles to a doctor. After his wounds were dressed he went back to work.

## V-FOR-VICTORY GETS PATENT

TULSA, Okla., Nov. 27 (AP)—Pratho P. Scott didn't think up the V-for-Victory emblem, but he had a better idea. He got a patent on it, and now he stands to make a fortune from its commercial use.

The "V" has been widely employed, as in jewelry and clothing designs, but strangely enough nobody ever took the trouble to safeguard it with a patent.

The clever little brand child was reserved for Scotty and now it seems that all the commercial organizations utilizing the patriotic symbol of a battle-torn Britain may have to pay royalties to him.

Scott, genial, hustling sales manager for a Tulsa boat company, got his bright idea recently when he designed a V-for-Victory boat pennant for a customer. Inside the V appeared the well-known three dots and a dash, Morse code for V.

The customer rejected the drawing but it got Scotty to thinking. He employed a patent attorney, advanced the necessary \$150 patent fees, and sat back to see what would happen.

Plenty happened, and so quickly it made Scotty's head swim. A search of the patent office files in Washington disclosed that the Tulsan had a good hunch. There was no patent on the V and one was issued to him.

The number of the patent, 130317, may be as lucky for him as the winning combination on a sweepstakes ticket.

For no sooner had it been granted than a dozen firms offered to negotiate with him for exclusive rights.
