East were fed by the arrival of fresh British reinforcements in Burma, intense military preparations in Thailand and reports that the Japanese were pouring additional troops into neighboring French Indo-China.

The serious view of the situation taken by United States officials in the Philippines was reflected in orders cancelling all leaves from Corregidor, island fortress guarding Manila Bay, and enforcing nightly blackouts at the naval bases of Cavite and Olongapo. "In days like these, it is always possible that our boys who are at the military and naval academies may actually be fighting for the defense of these American institutions of ours."

The president spoke at conclusion of a "third Thanksgiving" dinner delayed two weeks because pressing foreign and domestic problems had prevented him from coming here either on November 20 or on the 27th.

The president prefaced his serious declaration with a statement of thanks that America's "national spirit of peace" made it possible for the football teams of the Army and the Navy and Georgia and Georgia Tech, to compete in a pastime epitomizing the peaceful nature of this country.
