

HAWAII CENSUS SHOWS FEWER JAP RESIDENTS

The Japanese "menace" of former years in the Hawaiian group, when taken to mean the population of Japanese to other nationals, was decreasing before the outbreak of war, according to figures taken from the last census and released by the department of commerce through the Klamath county chamber of commerce.

The total population of the islands in 1940 was 423,330 and of these 157,905 were Japanese, 37.3 per cent of the whole number. This was the largest proportion of any nationality or race, but they were being overtaken by the Caucasians, who in the same year numbered 103,791 and were 24.5 per cent of the entire population of the islands.

Grouping Hawaiians, part-Hawaiians and Caucasians as one body, it is found that they increased much more rapidly than the Japanese, forming together 39.7 per cent of the entire population, while the Japanese proportion has declined from 42.3 per cent in 1920 to 37.3 per cent in 1940.

The Filipinos were 8 per cent of the total in 1920, rose to 12 per cent in 1930 and declined to 12 per cent by the time of the last census. Chinese of whom there are 28,774 living in the islands now, increased sharply by 3672 persons during the decade between 1920 and 1930 but gained only 595 during the next 10 years.

Caucasians are not separated into nationalities in the grouping given by the department of commerce, hence there is no way of telling the number of members of other axis nations who are living in the Hawaiian group now. Listed simply as "others" are 834 persons, forming only two-tenths per cent of the total. There were 6851 Koreans, 8296 Puerto Ricans and 64,310 Hawaiians and part-Hawaiians living in the group in which the latter were once the dominant race.

SALES OF HOLLY TO HELP AID SOCIETY

The local committee of the Boy's and Girl's Aid society of Oregon, Mrs. E. A. Geary, Mrs. Robert A. Thompson and Henry E. Perkins, will receive, early in the week, a large quantity of holly from Mrs. Arthur M. Geary of Portland.

This committee has arranged for the holly to be placed on sale from Thursday until Christmas eve at the office of Mrs. Ida M. Odell, 116 North Eighth street and at Carter's Fine Foods, Seventh and Pine streets, from Saturday, Dec. 20, until Christmas eve.

The holly is donated and all work in connection with the sales is being donated. Girl Scouts will handle the sales at Carter's. All proceeds from sales will be turned over to the Boy's and Girl's Aid society of Oregon.

This is the organization recognized by the state of Oregon, but supported by contributions which helps destitute boys and girls find homes. A large number of Klamath county boys and girls found homes through this society this year. "Help some other boy and girl by purchasing holly from one of the above places," members of the committee stated.

Eagles Planning Kiddies' Party Friday Night

Plans are being made for the annual kiddies' Christmas party to be held at the Eagles hall Friday night, December 19. This yuletide affair is for those children whose parents are members of the Eagles or the Eagles auxiliary.

Every child that attends will be given a big bag of "goodies" by Santa Claus himself.

Parents who have talented youngsters and who wish to see them perform are requested to call J. Balthazar, 3823; M. L. Shepherd, 7133, or George Seyter, 7269.

Copco Crews Clean Up Small Projects

California Oregon Power company crews this week were cleaning up a number of small water and electrical projects in the Klamath basin.

Among them was the relocation of a section of transmission line 9 on Shasta way and single-customer power extensions in Malin, Dairy and other basin points.

The power firm plans to finish all small projects on the current docket by the first of the new year.

By the process of division, a single bacterium can give rise to 16,700,000 other bacteria in 24 hours.

The British and Russians were more irate about Iran than Iraq. Anyway, it's a tongue twister.

Highest railroad point east of the Rockies is the railroad station at Balsam, N. C., at an altitude of 3348 feet.

Homes are made in cones of volcanic rock that have been carved into fantastic spires by erosion, in Zanguezur, Armenia.

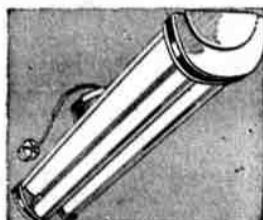

Most of the iron ore found in the Lake Superior region is a reddish variety known as hematite.

How to prevent and control tuberculosis are parts of the campaign financed by the annual sale of Christmas seals.

The political pot is the one that boils on hot air. The gas meter soon will be taking up its winter quarters.
