LAKE COUNTY FARMERS UP PRODUCTION

LAKEVIEW — Lake county farmers and ranchers have pledged their share of the increased production of milk, eggs, pork, beef and other foods needed for 1942. However, farmers are planning to reduce their acreage of wheat and oats much more than is desirable, Victor W. Johnson, county agricultural agent and secretary of the Lake county USDA defense board, announced last week.

Tabulation of individual farm plans for 1942 that were signed by 404 farmers and ranchers of this county during an intensive four-week farm sign-up campaign revealed that nearly all of the production goals set for this county will be equalled or exceeded, the county agent said.

MORE MEN SOUGHT FOR GUARD UNIT

The first assembly Friday night of the Oregon State home guard unit for men between the ages of 35 and 60 was termed a success by Maj. Ted Case, officer in charge.

Case said over 75 applicants turned out and the attitude of the men was "fine." He urged other possible members, however, who did not attend the meeting to attend the first regular drill next Tuesday night in the Klamath armory at 8 p. m. There are a number of posts still vacant, he stated.

Case believed that General Alvin C. Baker, state commander, will be in the city Thursday night to muster in the guard unit and he hoped that the list would be completed by that time.

Applicants who have had previous military training are especially urged to enlist.

Tulelake Grade School, Faculty Join Red Cross

TULELAKE—Students of the Tulelake elementary school, patriotic minded joined the junior Red Cross for the first time this year and are donating generously to defense needs by the purchase of defense stamps. A 100 per cent Red Cross placard was earned with each of the 207 students, the faculty and janitors all contributing to the cause.

Through cooperation of the local post office a supply of defense stamps is kept on hand and offered for sale twice daily. On the opening day a total of \$8 went for defense and the second day \$7 was registered.

For some time children of the grade school have banked small sums of money, each Tuesday being designated as bank day. Little by little the savings accounts have grown and now many of the 60 small bank customers plan to turn their savings into defense bonds. Each child won his own bank which is turned over to the bank with the amount of the deposit by a reliable 8th grade boy and on the following week they all are returned. Receipts are given each child and deposits range from a few cents each week to five-dollar bills. Interest is stimulated by the thrift banner that goes to the room recording the largest number of depositors for the week.

Mrs. Casiday urged that desk drawers and tables be searched for unaid Christmas seals.

Doctors Examine Lakeview Children

LAKEVIEW — Immunizations were recently given to 192 school children in Lake county of which 106 were for diphtheria and the remainder for small pox, Miss Helen Marcy, Lake county public health nurse reports.

A total of 221 children were examined in the schools. These examinations were done by the local physicians and were sponsored by the Lake County Public Health association. Of these 221 children, the majority were first graders, according to Miss Marcy.

Seventy-eight children were noted by the doctors as having some physical defect. The two defects noted most frequently were teeth needing dental correction and tonsils requiring medical attention. From these rather surprising figures, Miss Marcy remarks, one is apt to conclude that the statement made by the children's bureau that the pre-school child is the neglected age, is true.
