JAPS SHELL PACIFIC OUTPOSTS

In The Day's News

EN ROUTE to Portland. At all the railroad bridges and at the important highway bridges as well, there are soldier guards, carrying rifles. One feels certain there are armed guards at the railroad tunnels as

We are at war.

THEY are good-looking, alert, typically American. It takes only a glance to see that anyone fooling around these guarded bridges would get into plenty of trouble, plenty quick.

THESE are the same boys who a few weeks ago—as a mat-ter of fact, only a few days ago —were resentful at the fact that they had to be taken away from their schooling, or their jobs.

All that is gone. One look at them and you know there is no longer resentment. They are where they are

now to DO A JOB.

There is no complaining.

IN recent years, heads have been shaken over American youth. Many and many an old-ster has said: "I can't understand

them."

Age NEVER HAS understood youth. It is likely that in the Neanderthal age the Old Man of the tribe, gazing at the crop of the the tribe, gazing at the crop of youngsters coming on shook his

head and gloomed:
"I don't know what the world is coming to. Certainly in MY time boys and girls weren't like they are now.

At any rate, the oldsters have been doing it ever since.

AND always they have been

Awasting their time.

ALWAYS these boys and girls who were the subject of all the head shaking have come through like heroes when the pinch came.

They are coming through now.
If you have any doubts as to that, read the papers and listen to the radio. It is these same youngsters who were resentful of the draft a little while ago who are making history in the islands of the Pacific these days.

WHATEVER you do, DON'T lose faith in the younger

generation.

The older generation has been doing it for centuries, but every time a great emergency has arisen it has been these same youngsters who stepped into the breach and saved the world.

The record of their heroism is written on every page of his

I' isn't a pleasant job these alert, uniformed, armed youths who are guarding the bridges have. Especially if the bridges, tunnels and what not they are guarding are far from the centers of civilization.

Like all soldiering, it is a VARIED job. Some of them are luckier than others. Those who are stationed near the larger places, for example. One of them feels he is in luck. He is quartered in the basement of a church, where it is warm and dry and they have SHOWER BATHS.

There are plenty of them, at the more remote spots who have to sleep out under a tree and be glad at the opportunity to sleep at all.

BUT one hears no complaining They HAVE A JOB TO DO now. It is a real job. Their re-sentment is ALL GONE.

Don't worry about these youngsters. Don't worry about what the nation is coming to. The United States of America will be safe in their hands.

F. R. Recommends 19 To 44 Ages for Army Service

WASHINGTON, Dec. 16 (P)-Responding to an appeal by President Roosevelt, the senate military committee voted without dissent late today to make all able-bodied men from 19 through 44 'lable for military

Under the legislation, men from 18 to 64, inclusive would have to register, but only the 19-44 age group actually could be drafted for military service.

Asked by F. R. Senators Chandler (D-Ky.) and Austin (R-Vt.), members of the military group, said the unanimous vote undoubtedly was unanimous vote undoubtedly was
due to President Roosevelt's
recommendation earlier in the
day that the minimum age for
setual military service be reduced from 21 to 19.
