

# VAN VACTOR TO HAVE COMMAND OF GUARD HERE

Dayton E. Van Vactor was appointed captain of the Klamath unit of the state guard at mustering-in ceremonies Wednesday night.

The appointment was announced by Colonel Ralph Cowgill, executive officer of the state guard. Preliminary organization work of the new state guard unit was done by Major Ted Case, who has charge of the offices of the selective service bureau here, but because of his selective service responsibilities Case could not continue his state guard affiliation.

Captain Van Vactor is a seasoned veteran in military activities. He served in E company of the 37th engineers in the first world war, spending a year with the AEF overseas as a sergeant. He was active in national guard affairs here for 10 years, and served as commanding officer of Battery D of the 249th coast artillery for about six years.

At Wednesday night's event there were more than 60 men—the established strength of the unit—present for the mustering-in. A waiting list will be set up to fill any vacancies that may occur.

Most of the men in the guard are ex-service men who got their military training in the last war. "They are a fine-looking group of men—experienced and patriotic," said Captain Van Vactor Thursday. He said the members of the roster will be made public as soon as formal enlistment is completed.

Two commissioned officers will be appointed as well as a number of non-commissioned officers. Captain Van Vactor said he was not ready to announce the appointments.

The state guardsmen will receive rifles and other equipment and will be a uniformed outfit.

Major Case expressed his satisfaction with the results of the guard organization. He said he had hoped to continue with the unit, but selective service responsibilities are expected to mount rapidly under war-time conditions. He directs the office work for both Klamath boards.

# LEGION CHRISTMAS PARTY DATE FIXED

The American Legion and auxiliary will hold their annual Christmas party in Legion hall, Saturday evening, December 20, starting at 6:30 with a potluck dinner, followed by gift exchange and dance.

All ex-service men and their ladies, whether or not they are members of either organization, are cordially invited to attend. Arrangements for the potluck may be made by calling Mrs. R. C. Dale, phone 7212 or Mrs. A. P. Heup, phone 3612. For the gift exchange each lady is requested to bring a gift suitable for a lady and each gentleman a gift suitable for a gentleman. These are to be inexpensive gifts.

Those unable to attend the dinner and gift exchange are invited to drop in later for the dance. The committee expects this party to be one of the highlights of the year.

MUCH has been written about feminine hygiene. But too often women overlook hygiene in the REAL sense of the word—underarm cleanliness and sweetness. You cannot be attractive with underarms moist, stained and smelly. Use Aftid, the new cream deodorant. 1. Aftid does not rot dresses, does not irritate skin. 2. No waiting to dry. Can be used right after shaving. 3. Instantly checks perspiration 1 to 3 days. Removes odor from perspiration, keeps armpits dry. 4. Aftid is a pure, white, greaseless, stainless, vanishing cream. 5. Try a 10¢, 39¢ or 59¢ jar to see at any store which sells toilet goods.

# COULEE DAM TO BE TAKEN OVER BY GOVERNMENT

WASHINGTON, Dec. 18 (U.P.) Secretary of the Interior Harold L. Ickes announced tonight that the Grand Coulee dam on the Columbia river will be taken over by the government Jan. 1. The dam, the biggest single piece of construction work ever attempted, is 99 per cent complete.

The bureau of reclamation has completed arrangements with the contractor the Consolidated Builders, Inc., to take over the remaining work to be done on the dam, thus releasing the contractor to start immediate construction of a power house on the right side of the dam opposite the present one which has a generator producing 108,000 kilowatts.

Demands for power for defense have increased so greatly, Commissioner John C. Page of the bureau said, that this arrangement will permit the construction to build the power house within 360 days.

Included in the arrangement with the builders was cancellations of \$154,661 in claims against the government for alleged changes in original drawings made by the department in 1933.

# Firemen Ready With Toys For Christmas Delivery

More than 200 dolls, a dozen doll carriages, many brightly painted wagons, trains, rocking horses and other toys dear to the heart of children, are ready for distribution next week by members of the Klamath Falls fire department.

A few dolls donated by women's organizations as well as individuals were placed on display Thursday in the windows of the United States National bank. These dolls, as well as the others, will go into delivery trucks operated by self appointed Santa Clauses from the fire

# DRAFT TO BE HARD-BOILED ON NEW CALL

WASHINGTON, Dec. 18 (P)—The government will become hardboiled about drafting husbands whose wives are self-supporting, the senate was told today, as military leaders made known their view that this country must have an army much larger than 4,000,000 men.

"Four million men isn't an army today," Brig.-Gen. Wade H. Haislip, assistant chief of staff for personnel, declared to the senate military committee. The army will be expanded as rapidly as equipment can be obtained, he said, "without any set number in view."

A system of allowances for the families of married men inducted into service was advocated by Brig.-Gen. Lewis B. Hershey, director of the selective service system. He said the attitude of draft boards toward dependency and hardship cases must "inevitably" become tighter.

However, about 1000 farm boys inducted into the army will be returned to the farm this spring, he announced, adding that induction of many farm youths would threaten vital agricultural production.

The testimony of both officers, given at a closed committee session, reached the senate in printed form today.

Hershey's proposed system of allowances would be modeled, he explained, on the World War practice of requiring a selectee with dependents to make an allotment from his pay to support his family, which the government matched with an allowance.

"I think in (reference to) late marriages," he said, "they will not be a problem any more, because we are going to take them in—I don't think we can do anything else."

"And I submit the congress will have to be asked to pass an allowance and allotment law—discipline him, if you will—so that there is some means of supporting that wife who may in fact become dependent upon him."

He predicted that local boards would call for service the husbands of "marriages of convenience" whose wives earn enough to support themselves. But the allowance system will be necessary, he added, because "these boys are going to marry, and a lot of them are not marrying to evade."
