131 CHICAGO, Dec. 19 (P)-With activity of dealers who trade in grains on an investment basis virtually at a minimum, cereal prices held to a narrow range today as the market awaited Washington price control developments. Wheat drifted fractionally lower.

Commercial dealings, involving principally the placing or removal of hedges in connection with normal flow of grain into consumption, constituted bulk of trade.

Purchase of 670,000 bushels of 1939 and 1940 red wheat owned by the commodity credit corporation by Missouri mills was reported. However, re-placement purchases of an equal amount of hard wheat were to be made by the CCC.
