### Think It Over!

Here are two ways to run a grocery business:

(1) Advertise a few items at sensationally low prices and make up the loss by unwarranted higher prices on other items.

(2) Quote a fair price, the lowest possible price, on every item in the store—every day. This is Safeway's method, the only certain way the customer can be assured of consistently saving money on ALL her food buying. It is not "sensational" . . . but it is safe and sure. . . Think it over!
