STOCK MARKET MAKES SLIGHT RECOVERY BID

NEW YORK, Dec. 20 (AP)—Efforts to pump a little recovery into the stock market were successful in part today but unavailing for many leaders.

The list slipped through a slim groove from the start and at the close of the brief proceedings, advances and declines were pretty evenly divided.

Tax, selling in low priced stocks continued as the main prop for volume and transfers for the two hours were around 400,000 shares, about the same as the preceding Saturday.

In the resistant division were Bethlehem Steel, Santa Fe, Southern Pacific, Anaconda, International Nickel, Phelps Dodge, Douglas Aircraft, United Aircraft, Eastman Kodak and Montgomery Ward.

Lacking much support were U. S. Rubber common and preferred, with the latter diving several points; General Motors, Chrysler, U. S. Steel, Youngstown Sheet, American Telephone and International Harvester.

Bonds were irregular and commodities generally improved.

SOYBEANS BOLSTER GRAIN TRADE BIDS

CHICAGO, Dec. 20 (AP) — A steep price advance in the soybean market today injected some support into the entire grain trade.

Beans were up at one stage almost the 6 cent daily limit following reports that there may be some revision of the ceilings placed on certain fats and oils recently.

The advance in grains was held to fractions, with investment and commercial trade continuing on a restricted scale because of uncertainty regarding price ceilings. The bright outlook for winter wheat production next summer, with a crop almost as large as this year's in prospect despite the unusually small acreage, had a depressing effect in the wheat pit.

Wheat closed 1/8c higher than yesterday, December \$1.23, May \$1.25 1/2; corn 1/4c up, December 78c, May 82c; oats unchanged to 1c lower; rye 1 1/2c higher; soybeans 3 1/4c higher.

SILVER IN QUEBEC

The silver output of the province of Quebec for the first half of 1940 amounted to 608,145 ounces, compared with 548,878 ounces in the same period of the preceding year.

CROP PRODUCTION TO BE ABOVE QUOTAS

CORVALLIS, Dec. 20, (AP) Production of food and feed by Oregon farmers next year will be far above quotas assigned to this state on the basis of present plans, according to a summary of signups obtained from 95 per cent of Oregon farms.

R. B. Taylor, Adams, chairman of the USDA defense board, said reports from all 36 counties have been compiled showing promises of production schedules covering types of food, feed and seed particularly needed under war conditions here and abroad.

Percentage increases planned for 1942 over 1941 follow: Milk, 19 per cent; milk cows, 18 per cent; hogs, 38 per cent; eggs, 36 per cent; sheep, 10 per cent; beef cattle to be marketed, 12 per cent; sugar beets, 31 per cent; corn, 7 per cent; barley, 61 per cent; rye for grain, 17 per cent; hay, 9 per cent; dry beans, 63 per cent; fiber flax, 5 per cent; flax seed, 10 per cent; rye grass seed, 18 per cent; winter legume seed, 35 per cent; vegetables, 13 per cent, and farm gardens, 11 per cent.

Oregon is increasing the acreage of cover crop seeds to meet demands in the south where the winter legumes will help meet the nitrate shortage.

Oregon alone was asked to meet the cover crop seed goal, said Taylor.

Taylor also said farmers will need priorities on crawler type tractors and electric motors, but all equipment is getting so short that speed in repairing machinery and ordering necessary parts and new equipment is essential, he added.

SEVEN LOCAL MEN TO STUDY GAS WARFARE

Seven Klamath county men will leave here Sunday for Portland to attend a three-day course of instruction in chemical warfare, Earl Reynolds, Klamath county defense coordinator announced Saturday.

The school, conducted under the auspices of the U.S. Army in cooperation with the Oregon State Defense Council, is an outgrowth of the chemical warfare schools conducted at Edgewood Arsenal, N. J., last summer and instructed by men trained in England. It is especially designed for fire-fighters, police, medical men, representatives of public works and utilities, harbor and dock experts and air raid wardens.

Reynolds announced that the following men will attend from here: Coleman O'Loughlin, chief air raid warden, representing Klamath County Defense Council; Keith Ambrose, fire chief, representing the city of Klamath Falls; Marion Barnes, fire warden, and L. Orth Sisemore, district attorney, representing Klamath county; Claude Moreland, fire chief, representing the city of Merrill; Hal Ogle, fire warden, for the Klamath Forest Protective Association; H. R. Kallender, forest and fire supervisor for the Klamath Indian service.

The school will last from 9 a. m. to 9 p. m. Monday through Wednesday, and will prepare the men to teach classes in their own districts.

Every county defense council in Oregon has been requested to send representatives, Reynolds stated.

Virginia Governor Pardons Woman in Slaying of Father

RICHMOND, Va., Dec. 20 (AP) Governor James H. Price has issued a conditional pardon to Edith Maxwell, former Wise county school teacher, convicted of killing her father, Trigg Maxwell, and sentenced to 20 years in prison in one of the most widely publicized cases in the history of Virginia.

Miss Maxwell, her mother and 12-year-old sister, Mary Kathryn, contended at the trial that the young school teacher struck the 52-year-old miner-blacksmith over the head with a high-heeled woman's shoe when he threatened to whip Edith for staying out late at night. They testified that he came home "roaring drunk" and had threatened to run Mrs. Maxwell off the place before Edith came in a few minutes later.

Maxwell was killed July 21, 1935.

Governor Price's pardon was dated yesterday and Miss Maxwell left the state industrial farm for her home yesterday afternoon.

Doggie Will Be Back Home Soon

VALE, Ore., Dec. 19 (AP) — Pat, Omer Presley's AWOL dog, will be back home soon, leaving Presley only the problem of figuring out how he got to Los Angeles.

The dog was found by a Los Angeles resident, who noted his Malheur county license and wrote to officials here.

Presley's best guess is that a tourist picked up the little white dog while he was en route to his favorite restaurant for his daily hamburger.

Oil Company Asks Employe Silence On Military Moves

SAN FRANCISCO, Dec. 20—The following request is being made today of all employees of the Standard Oil Company of California by H. D. Collier, president:

"Every member of this company must do his utmost to help win this war. In every possible way we must aid the government and the military forces. One of the most important ways of contributing to success is to protect the army and the navy by refraining from discussing their activities. We are in contact with the armed forces at many points. Our employees often observe army and navy activities. These things must not be revealed. Keep such information to yourself. Don't even tell your friends. A casual comment about the movement of ships, naval or merchant, or about the movement of troops might be of great value to the enemy and lead to a disaster. Military authorities are pleading that the public refrain from gossip and the spreading of rumors.

"We have here a most serious duty. Therefore, my earnest request to all employees is to 'Serve in silence.' Don't reveal military information."

CONDEMNATION SUIT NEARS COMPLETION

Trial of the condemnation suit brought by the city of Klamath Falls against C. H. Kelly and J. F. Kelly, owners of land wanted for municipal airport expansion, neared completion Saturday with the calling of final witnesses for the defense. The case is expected to go to the jury late Saturday afternoon.

The city has offered the Kelly brothers \$2752.50 for 36.7 acres of their land. The Kellys testified Saturday to changes they will have to make in irrigation ditches, due to the condemnation of the land. They are claiming \$14,037.50.

Judge Ralph Hamilton of Bend is sitting on the case.

The new rates will be 4c a column inch higher than those at present. The Herald and News have been able to hold off a rate raise thus far, in spite of the recent rising costs of operation, but it is now necessary to increase revenue to make ends meet.

We believe that advertisers will appreciate the fact that in the past ten years our paid circulation (the real value of your inch of advertising) has been nearly doubled. And an inch of advertising under the new rates still costs less in The Herald and News than it did ten years ago.

We also believe that advertisers will appreciate the fact that in the past ten years our number of employes has been materially increased, and that the basic wage scale for printers has gone up from 85c an hour to \$1.20 an hour... adding our bit to the prosperity of the community.

Year by year The Herald and News have given more value for the advertiser's dollar. In these days of curtailed supplies of merchandise it is more necessary than ever before to concentrate your advertising where it is most productive. Use more Herald and News advertising in 1942.
