

# FLYING CADET APPLICANTS TO BE TAKEN NOW

Immediate enlistment of all aviation cadet applicants, biggest news for young men interested in aviation since the outbreak of war, has just been released by Sergeant Frank J. Huhn, commander of the local army recruiting office.

Eligible young men should report to the Oregon recruiting district headquarters, 323 main post office building, Portland, Oregon, with a transcript of at least two years of college credits, a birth certificate and three letters of recommendation. They must be single and between the ages of 20 and 26, inclusive. High school graduates who desire aviation cadet training and are qualified for educational requirements should write to the main recruiting office, 323 main post office building in Portland for information as to how to obtain their commissions. After presenting their credentials and passing a physical examination the men will be enlisted and shipped immediately to training fields, according to Sergeant Huhn, instead of having the previous wait of five or six weeks.

Young men interested should obtain application blanks from the army recruiting office, 219 post office building, Klamath Falls, or from the secretary, Klamath Elks lodge, at the Elks temple, Third and Main streets.

These young men while in training will receive \$75 per month, free quarters, food, medical and dental care, hospitalization, uniforms, clothing and equipment. Upon completion of the seven and one-half months training course, he will then be granted a second lieutenant's commission in the air corps reserve and go on active duty where he receives up to \$245.00 per month, a \$500 cash bonus for each year in the service and is fully prepared to take up commercial work upon his release from the service.

# FISHER GETS NOTES ON MODOC STRUGGLE

Don Fisher, Lava Beds monument custodian, will be in the Crater Lake national park offices in the federal building after the first of the year.

Fisher is just back from San Francisco, where he attended the national park trainees school under direction of Assistant Director Hilory Tolson. Attending also were Carlyle Crouch, chief ranger of Crater lake park, and Storekeeper Douglas Roach.

All phases of park management were studied and discussed at the school. After it closed, Fisher stayed an extra week and obtained 1800 pages of typed notes on the Modoc war from records at the Presidio at San Francisco and the war department. These included many dispatches and messages exchanged at the time of the struggle in the Lava Beds country in the early 'seventies.

Mr. and Mrs. Fisher have taken apartments at the Hunt apartments on El Dorado street.

# 'Sepian Swing' to Malin Floyd Ray Band to Bring

When Floyd Ray brings his celebrated all-star colored dance orchestra of Hollywood fame to Broadway hall on New Year's Eve, December 31, at Malin, local dance enthusiasts will have an opportunity to swing it to the popular sepian swing sensation of the nation.

Floyd Ray

The Floyd Ray aggregation comes to you direct from Movieland where it has played for all the screen celebrities, producers and directors and special parties on many occasions.

Floyd Ray, known as the Sepian Fred Waring, for his bag of musical tricks and novelties which have brought his band to the front with the "Name" class rapidly in the last year, established some sort of a record recently in Los Angeles and Hollywood by playing a dance at the famous Biltmore hotel one night at the swing set "jitterbug" jamboree in Hollywood, following the next night with a sensational appearance at the all-star swing concert at the Palomar where they shared top honors with Glen Gray and the Casa Lomans.

Floyd Ray and group were the applause hit of the year while appearing on the stage of Los Angeles' two leading vaudeville film play houses—the Paramount and Orpheum theatres—for a week's engagement.

Owing to insistent demands for personal appearances throughout the nation of Floyd Ray's band, it was necessary for them to leave Hollywood with this brilliant record behind them in order to take the talented and versatile musicians, along with Eddie Byrd, sensational drummer; Ivy, Vern and Von, for a tour of the country's leading ball-rooms.

# LIBRARY RECEIVES ROSICRUCIAN BOOKS

Additional volumes treating on the subject of Rosicrucianism have been added to the collection of Rosicrucian philosophy at the local public library.

Mrs. Ivan Buell, of Malin, Ore., local Rosicrucian member, states that she has been informed by the grand secretary of the Rosicrucian order, with national headquarters in San Jose, Calif., that because of the demand for works on this subject, it has been found necessary to donate further copies to the Klamath Falls library. Mrs. Buell also declares that since the Rosicrucian order, known as AMORC, is not a religious organization, all of its publications being treatises on philosophy, metaphysics, the sciences and arts—the object of the organization being to give the student or member an understanding of the fundamental laws of life so as to permit him to realize a fuller and more abundant existence.

"The selection of cities for the periodic Rosicrucian conclaves is determined," further stated Mrs. Buell, "by the interest shown by the reading public in the organization's publications and monthly periodical, the Rosicrucian Digest, in the public libraries." In addition to holding membership conclaves in such cities, extensive advertising is then conducted by the Grand Lodge in the local press. The funds that make possible the donation of the books to the public libraries are the result of contributions of local members of the organization.

# BLUE LAKE IS NOW PUBLIC PROPERTY

Just prior to Christmas it is appropriate to present to the Modoc public some forest land and lakes that have been privately owned for many years. Through land exchange procedure the timberland surrounding Blue lake which is the largest natural body of water in the Warner mountains has been placed under the jurisdiction of the forest service in the U. S. department of agriculture.

This assures the citizens of Modoc and Lassen counties permanent possession and privilege of always using an area attractive for its natural resources. The lake, which is about three-fourths mile long and one-half mile wide has been a popular place to camp and enjoy hunting or fishing. The land acquired around the lake contains a stand of good merchantable timber, and some important range land.

In addition to Blue lake, the forest service has also received title to Cave lake in the north Warner district near the Oregon line. This little lake covers only about 10 acres and it is just a short distance from Lily lake. Both of these areas have already been developed by the forest service as there are already campgrounds at both of these small lakes and a good mountain road into the area. The acquisition of these recreational areas by the United States has had the active support of numerous local civic and county organizations.

The Dry Lake Civilian conservation corps campsite near the Southern Pacific overpass on the Canby-Klamath Falls highway is now also in government ownership and it is planned to make this the headquarters for a forest service fire suppression crew. This area contains the best water in this part of the forest as there is a deep well on the tract. All in all, in this exchange just now completed, approximately 24,000 acres of timber and potential timberland has been added that will go far toward proper development of the Modoc national forest. It will also eliminate complications and allow better use of government range.

# PACIFIC TELEPHONE TRAFFIC INCREASES

N. R. Powley, president of the Pacific Telephone and Telegraph company, commenting on the Pacific coast increased telephone demands as a result of the war situation, stated Monday:

"Never in its history has our company handled, in a similar period, the tremendous volume of telephone traffic which the extraordinary demands for telephone service have placed on our system in the last ten days."

"We deeply appreciate the fine cooperation and understanding of the telephone-using public and their splendid assistance in not making other than the most urgent calls, which greatly aid us to 'get the message through' for telephone calls important to defense.

"Our organization is doing its level best to render the best possible service and to play its full and patriotic part in this great national emergency. It is traditional in our business that our people always rise to the height of any emergency. They have shown again in a glorious way that spirit and will-to-do which are of such vital importance in these tragic and critical times. Calmly and effectively our men and women are serving the great cause of human freedom."

# Registrants to Navy Will Have Christmas Leave

The navy recruiting service here Monday made the announcement that all men enlisting in the navy on December 22 to 24 will be granted leave until after Christmas.

All men enlisted during that period, December 22 to 24, may remain with their families until after Christmas day. The navy recruiting station is in room 203 of the Postoffice building.

Portland district is No. 1 in recruiting activities.

About 200 attended a very successful Christmas party of Elks and their families held at the local lodge hall Sunday afternoon.

The entire building was colorfully decorated for the occasion by a committee headed by Angus Newton.

Jack Linman was Santa Claus.

# ADVICE GIVEN TO ARMY RESERVISTS

Regular members of the army who have been discharged from service and transferred to the army reserve were urged Monday to continue "their normal pursuits" until otherwise ordered by commanding officers.

In a press release issued by Maj. Gen. J. L. Benedict of the ninth corps area headquarters, the army asked that all men avoid leaving their jobs precipitously because of the war emergency. Reporting without orders only works a hardship both on the army and the men, the announcement said.

General Benedict cautioned all reserve members, however, to make sure their home addresses are on file with the corps area of which they are a part.

Reserve national guardsmen are responsible to Acting Adjutant General Elmer V. Wootton in Salem.

# Vaccination Urged For Children

PORTLAND, Dec. 23 (P) — Dr. Louis J. Wolfe, city health officer, advised Portland school children yesterday to undergo vaccination for smallpox at once.

More than 5000 are not vaccinated, he said.

Wolfe added that 122 smallpox cases in the city at the start of the last war expanded into 1335 the next year and to 1759 in 1920.

**AUTO DEATH**  
EUGENE, Dec. 23 (P) — An automobile fatally injured G. O. Haugen, 75, custodian of the city library, here last night.

# ADVANCE BUYING BOOSTS TIRE SALES

Replacement sales of automobile tires for the second quarter of 1941 were 20 per cent greater than the above-normal sales of 10,900,000 for the same period last year, Dr. E. B. McDaniel, president of the Oregon State Motor association, reported this week.

Total sales for the period were 13,078,000, a record figure attributed mainly to advance buying. Such buying probably was a contributing factor to the present ban on tire sales and the government rationing system announced this week by Price Administrator Leon Henderson, Dr. McDaniel said. However, it is evident that the practice was not very widespread when it is considered that the difference of 2,000,000 tires would equip just about 2 per cent of all vehicles in the United States, he pointed out.

Ask Paul O. Landry

During the Christmas shopping rush many cars are damaged in parking lots. If this should happen to my automobile would I be protected by my Collision insurance or would it be necessary for me to collect damages from the parking station owners?

For information on any insurance problem, consult the Landry Co., 313 Main St. Phone 5612.

# Loss of Shipping Business Eyed

SEATTLE, Dec. 23 (P) — Rep. Henry Jackson (D-Wash.) of Everett is in Seattle to conduct hearings on the problem of northwest shipping firms who have lost their business because of the direct buying by warring nations from producers.

Jackson said an attempt will be made to "keep those concerns in the picture" without interfering with the defense program. He said he would also investigate alleged payment of brokerage fees by shipbuilding concerns interested in obtaining government contracts.
