## HOLIDAY RISE FAILS TO HIT STOCK MARKET

NEW YORK, Dec. 24 (AP)—The stock market today failed to follow the rise in commodity prices as a pre-Christmas rise in Wall Street tradition, but its performance was better than in the previous session.  
Initial heaviness was attributed to selling on the reports of new Japanese gains in the Philippine invasion movement, plus a precautionary lightening of commitments over the holiday recess.  
Early losses running from fractions to a point were in many cases replaced by advances of as much. Closing prices were slightly mixed, a sizeable number of stocks remaining in arrears.  
Despite the customary afternoon tapering of activities on the stock exchange floor on the day before Christmas, transfers totaled around 1,400,000 shares. Tax loss selling continued lively in certain issues.

## WHEAT PRICES UP CENT PER BUSHEL

CHICAGO, Dec. 24 (AP)—Wheat prices were up almost a cent a bushel and soybeans as much as 2 cents at one time in today's short pre-holiday grain market session but the gains were reduced before the close.  
Belief that price ceilings on fats and oils will be raised led to buying of soybeans inasmuch as this would affect soybean oil. Some mill buying appeared in the wheat pit, with short covering also in evidence. Corn and oats were strengthened by the official estimate showing hog production is expanding even faster than expected. Receipts of all grain at most terminals were below those of a week ago, which imparted some strength to the market.  
Wheat closed 1/4c higher than yesterday, May \$1.26 1/2-1.28, July \$1.26 1/2; corn 1/4c up, May 83c, July 41c; oats 1/4c up; rye 1/4c higher; soybeans 1 1/2c higher.  
Motor trucks on American highways today have a potential haulage capacity of at least 40 times as great as those of 1917 when the United States entered the world war.
