Forty Mock at Death—"Off with your uniforms and out you go naked into the night."

"Forward march!" It was back in the days of the Roman Empire. A group of forty soldiers in the regiment there by the frozen lake, had refused to give worship to Caesar. Only to Christ would they bow the knee. At this, the entire band had been ordered out into the night. There they would come to their senses, figured the commandant officer, rather than die by freezing. Out they went and singing: "Forty wrestlers, wrestling for Thee, O Christ, Thine is the victory and thine is the crown." The men gone, the officer sat himself down by the warm campfire and waited for them to come crawling back. The hour passed but none returned. The man by the fire mused; what was there in this belief of the Christians that made them so scornful of death? What of this Christ whose commands were obeyed at the cost of life itself?

But hold! The first streak of dawn in the Eastern sky brings a picture of shame; one lone wretch came crawling back, beaten. Pity and disgust surged through the officer's heart; but for this wretch, the record of the forty would stand without a stain. The officer springs to his feet; strips off his uniform even as the forty had done. Out into the bitter cold he pressed to follow on to death. As he traces their footsteps, you hear him sing:

"Still forty wrestlers, wrestling for Thee, O Christ!"

So does the Gospel of Christ capture even His enemies. Now a question: What has your faith cost you? Can you say yes to even one item here? These tell what price the Apostle to the Gentiles paid: "Five times received I forty stripes, save one; three I was beaten with rods; once was I stoned; three I suffered shipwreck; a night and a day have I been in the deep." So Paul begins the list of what he suffered for the name of Christ.

By much fasting on the Bible and much waiting on God in prayer, let us strengthen our hearts for whatever the year 1942 may bring us in trial and testing. "I had fainted unless I had believed to see the goodness of the Lord in the land of the living." Ps. 27:13. May Christ become to you not only the Saviour from sin, but your Joy-Peace - Hope - Strength - Cheer every day on the calendar.

MIDWEST DIGS OUT OF HEAVY SNOW STORM

By The Associated Press
The midwest dug out of a traffic-blocking snowfall today, shivering meantime in temperatures below or near zero.

Generally the snow which swept over the mid-continent New Year's day had ended. Movement of the storm was a wartime military secret, guarded by the weather bureau.

Road crews in Iowa, one of the states hardest hit, attacked snow which reached 18 inches on the level and much deeper in wind-whipped drifts. Sioux City had the lowest temperature in that state, 14 below zero. Des Moines reported seven below.

Minnesota main roads were open but dangerous in the southern part. It was generally below zero in Minnesota with -25 at Bemidji the lowest. Subzero weather chilled the Dakotas, Nebraska and parts of Kansas and Missouri, South Dakota reporting a range from -14 at Aberdeen to -22 at Spearfish.

Nebraska temperatures ranged from 5 below at Omaha to 23 below at Scottsbluff. Snow plows cleared drifted roads and railroad and bus schedules were returning to normal.

Many roads were blocked in Wisconsin where 8 to 14 inches of snow lay over the lower two-thirds of the state.

SAN FRANCISCO, Jan. 3 (AP)—Twenty-five thousand boys of the civilian conservation corps along the Pacific coast have been recruited for urgent military and strategic construction, it was announced today by the headquarters of the western defense command and fourth army.

All of the 238 CCC companies in the ninth corps area have been made available for this work but each project and assignment must be approved by McEntee except in emergency cases. In such cases, the corps area commander may call upon the necessary companies.

Supervision of the work by CCC enrollees will be carried out by the chief of engineers and the division of district engineers under him. Division engineers in the ninth corps area are at San Francisco and Portland, Ore. District engineers are located at Seattle, and Los Angeles and Sacramento, Calif., as well as Portland and San Francisco.

HOUSE TO HOUSE BOND DRIVE SET

Plans for a complete house-to-house canvass of Klamath county in behalf of defense bonds sales were discussed at a meeting of committee chairmen called Monday noon by A. M. Collier, county defense savings heads. Glenn Jackson of Medford, district defense savings chairman, attended.

The canvass will start late this month. The purpose is to establish contact with every citizen to determine what purchases he can make in bonds and stamps.

Collier called for reports from various committees and stated it will be necessary to intensify the campaign in this county. Headquarters will probably be established at the chamber of commerce.

Only 3,000,000 persons have thus far bought defense bonds in the country, Collier stated. It will be necessary to spread these purchases to 35,000,000 if the program accomplished its purposes, he added.

Owing to war evacuation, which has reduced its population by about 3,000,000, London no longer is the world's largest city. It now ranks after New York and Tokyo.

Some of the new books which are available for leaders and which will be distributed at the training meeting are: "Marriage," by Ernest Groves; "Parents' Questions," by the Child Study Association of America; "There Is No Place Like Home," by Ellenwood, and "Children in the Family," by Anderson.
