

Martha Shops and Shops

Van's Camera Shop

THIS week I learned something new... That repairs on cameras are charged for according to a list of prices put out by the Eastman Kodak company... Reputable stores don't guess, or try to get what they can out of you.

The information came up when I heard at Van's Camera shop that, for a limited time, you can get cameras repaired for 25 per cent less than the cost listed on the repair schedule... And I started asking questions.

Also new to me was the fact that the shortage of cameras was not due to priorities... but to the unexpectedly large demand of the public for cameras last year... In addition to defense orders, the Eastman Kodak company enlarged, but lenses were a bottleneck... Now they have a new lens factory scheduled to open at Rochester, N. Y., this month... And the company will be able to turn out more cameras than ever.

The 25 per cent reduction in repair prices is just to keep the ball rolling until the increase in production gets underway.

Found at Long's

If Long's this week I found the loveliest new 3-piece suits... The kind you can wear now, and later can use as a 2-piece suit at times and have a coat to throw over spring dresses.

There are two kinds that I fell in love with immediately... One comes in a camel-blended mohair wool, with a darker skirt color of which is brought out delicately in the lighter jacket and topcoat.

The other kind is in lovely Doeskin... Which is light in weight and texture, but surprisingly warm... These are in every pastel shade you can think of... And are slenderizing on figures with a tendency to hipness.

Be sure to stop in at Long's to see them... And notice the new 2-piece suits, too, in plain colors, tweeds and plaids.

At Garcelon's

PERHAPS you've seen the advertisement in The News-Herald already about the sale on Franciscanware at Garcelon's... It's on Franciscan's most popular pattern, the Coronado swirl... And prices

on the sets are 25 per cent lower than the open stock price.

I think it would be a good idea to start your set now before prices go up... Or if you need refills on your present Coronado swirl set, it's lots cheaper to buy this way... You'll need the other pieces before long, anyway!

A 20-piece set for four persons costs only \$6.95 during the sale... A 30-piece set for six costs \$10.50... A 40-piece service for eight is \$13.75... In the regular lovely shades of malt ivory, coral, yellow and turquoise.

You're given your choice of soups or cereals, too... (Howls, I mean.)

Speed-Up Eyed in College Courses

EUGENE, Jan. 8 (AP)—The possibility of shortening the college course in state institutions under a six-day week, eight-hour day and four-quarter year will be considered at a meeting January 25.

The state system of higher education defense council presidents

Pat Livingston says it isn't any advantage to her to work for a boss who is on the county tire rationing board... The other day Pat opened up the back of her coupe to see if her spare tire was in good condition... And found it had been stolen... Mrs. Garcelon's reaction was just "Oh, what a shame!"

Currin's Special

IF MEN would get wise to a few of the comforts that women have discovered, they'd be a lot happier... Take hand lotion, for instance... Why should all us gals guard against chapped and roughened hands, and let the men suffer?... Well, I think it's up to us to do a little educational talking.

Take that wonderful Tussy Wind and Weather Lotion, for instance... It's sale-priced right now at Currin's... 50c for the regular \$1.00 bottle... Well, if you could persuade the man in your life to use a little, he'd think you wonderful!

While I was at Currin's early this week, a woman telephoned in to ask that Thelma reserve 12 bottles until she could get down town to pick them up... I'll bet she has a man or two in the house who use it... And when I remarked about that Thelma said another gal had bought 12 bottles.

Tussy Wind and Weather Lotion is wonderful for the bare knees high school girls insist upon wearing despite cold and storm... And it's gentle enough for a baby's knees, too... Or a body rub for yourself after the bath... And you'll find it grand as a powder foundation after you've protected your face with it.

Incidentally, a railroad man I know found out last year that Tussy Wind and Weather Lotion protected his face while he was working... He used his wife's then, but this week he bought several bottles for himself.

You'll find it at Currin's, where Tussy products are exclusive in the Klamath county... And now's the time to buy it, when you need it the most and it's only half-price!

Honolulu Changed

WAR in the Pacific has changed Honolulu night life overnight, according to word received here this week... Formerly noted for its continuous round of parties, after the Pearl Harbor attack Honolulu at night took on the appearance of a country village on Sunday.

The reason wasn't so much the war, as the restrictions resulting from the war... The ban on liquor blacked out cocktail parties... Rationing of gasoline to 10 gallons per month per car caught most people with only partly-filled gas tanks to start with... And what woman wants to walk a couple of miles in evening slippers?

Stores in Honolulu reported an immediate and decided drop in the demand for evening clothes and accessories, cocktail party supplies, glassware, tableware and linens... But the store managers don't mind so much because they aren't sure when they can get new merchandise from the mainland.

Sour Grapes, Maybe

WOMEN in active defense work may have to give up their dreams of wearing snappy uniforms... The latest news from Washington, D. C., is that the OPM is getting worried about the supply of materials for uniforms for the armed forces... Manufacturers are turning it out fast, but there may not be enough if both men and women wear similar clothing.

It is suggested in Washington now that women in official jobs may be called upon to wear their usual feminine fashions, with maybe an armband or some distinguishing emblem... Some branches of women's service probably will dress in this way... And such clothes, I firmly believe, will be much more becoming on many figures... Straght, severe suits can't be worn successfully by everyone.

of the colleges of education and the associate dean of the medical school will meet in Portland to discuss the proposal, Chancellor Frederick M. Hunter said today.

Final Spud Figure Bears Out Belief In This District

By C. A. HENDERSON
County Agricultural Agent
The final report of potato production for 1941 shows this year's crop considerably below average. An average crop for the nation is about 370 million bushels, while this past year's crop is indicated as 357 million bushels. In 1940 the four Pacific coast states of Oregon, Washington, Idaho, and California, produced 62,175,000 bushels. The report shows that this year's crop from the same four states is only 53,873,000 bushels, a decrease of 8,300,000 bushels from that of last year. This is a reduction of about 13 1/2 per cent. The estimate of the Oregon crop decreased 1,300,000 bushels from November 1 to December 1.

Growers in the Klamath district felt throughout the year that the Klamath crop was way short of the bumper crop of 1940, and perhaps even below average. The figures now available for the Klamath project and accurate estimates of small acreage off the project, indicates that growers' opinions were quite accurate. In the three counties comprising the Klamath basin, considerable decrease has taken place.

Klamath county has 10,975 acres this year as compared with 11,102 in 1940; Modoc county had 3171 acres as compared with approximately 4009 acres in 1940, while Siskiyou county has dropped from 4319 acres in 1940 to 3089 acres in 1941. The acreage for the entire basin is reduced from 19,500 in 1940 to 17,215 in 1941. Yields, too, are considerably lower than the all-time high of 1940. That year the average yield was 420 bushels per acre. This year the average yield will be about 350 bushels.

Another encouraging feature is the fact that notwithstanding the shortness of the crop, shipments have been relatively heavy throughout the season to date. This, of course, indicates that the amount of potatoes on hand at this time is much smaller than was the case a year ago.

On the whole, the general quality of Klamath potatoes was good. While considerable rain occurred during mid-sum-

MACHINERY'S CONDITION IN DEFENSE ROLE

Every usable farm machine must be put in shape or kept in top condition if agriculture is to do its part in the 1942 farm defense program, Fred Rueck, chairman of the county USDA defense board, warned this week. The 1942 farm defense goals call for the highest total production of farm crops, milk, eggs, and meat products on record.

With the manufacture of new machinery and equipment in 1942 sharply curtailed because of defense demands on supplies of steel, copper and other metals, farmers will have to depend more upon existing machinery, Rueck explained. In addition to the scarcity of new equipment, farmers may find the available farm labor limited in 1942.

Pointing out that the machinery now on farms was used this year to produce one of the largest crops on record, Rueck said that the bulk of this same machinery can be gotten in shape to make the 1942 crops.

In order to do this farmers should check all farm machinery and order any needed parts immediately, he said. Early orders offer the best assurance that farmers will obtain parts. Enough steel and other metals will be available to manufacturers to meet the indicated needs for replacement parts.

Blacksmith and repair shops have recently been given a defense rating of A-10, the county chairman announced. This will enable them to obtain materials needed for farm equipment repairs.

Annually, about 15,000 rhinus monkeys are imported from British India.

Now She Shops "Cash and Carry" Without Painful Backache

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause rheumatic backache, rheumatic pain, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eye, headache and dizziness. Frequent or scanty passages with burning and burning some times shows there is something wrong with your kidneys or bladder.

Weekly Market Trends

(Editor's note: The following market information is supplied from material obtained over the government leased wire in the office of the extension economist at Oregon State College. The material, in the form of a weekly summary of trends in the livestock market, is not intended to replace spot day by day market reports.)

CATTLE MARKETS

The cattle prices in North Portland were about steady on Monday, when 2400 head were offered locally. Best demand was for the medium weights ranging from 900 to 1150 pounds, which brought \$12.50 to \$13, with a few of the best fed loads topping at \$13.10. For heavier weights weighing up to 1234 pounds, \$12 was paid. Although the San Francisco market was strong, the top price was about 25 cents below that at Portland. The Chicago prices on fed steers and yearlings were slightly higher, with best fed yearling steers topping at \$14.50.

SHEEP AND LAMB MARKETS

Although there were 3300 head of sheep and lambs received at North Portland, only 1500 were offered for sale locally. Quotations were mostly 25 cents higher, with a few even up 50 cents to a top of \$12. Two loads of fed ewes brought \$5.65 to \$5.90. At San Francisco the market was strong with a top of \$12.25 and at both Chicago and Omaha prices advanced from 25 to 50 cents.

Sheep and lamb markets during the year have been marked by high prices at the opening of the spring lamb trade in April, a slump in July to around \$9.50, by a steady climb since that time to around \$11.50 late in December. A year ago lambs were bringing a top of only \$8.50 at North Portland. Prices on ewes, however, show no such big change as the present quotations

are only slightly higher than those of a year ago.

HOG MARKETS

Hog prices joined the procession of other livestock quotations and advanced 15 to 25 cents at North Portland when only 1650 head of the 3850 received were offered for sale. Good to choice 170 to 215-pound drive-ins sold mostly at \$12.25, with heavier sizes bringing \$11.50 to \$11.75.

San Francisco reported the market up about 40 cents, with a top of \$12.75, while at Chicago a slight rise of 15 to 25 cents moved quotations to a top of \$11.70.

A year-end review of hog prices for 1941 shows that present prices compare with a top of \$8 at North Portland at the beginning of January a year ago. Later in the month they reached \$9, then went to \$8.85 in February. Since that time the price trend has been mostly upward, reaching a high of \$13 in August and September. Present prices are around \$4 above those of a year ago.

WOOL MARKETS

Sales of domestic wool at Boston last week were limited largely to moderate quantities needed for immediate consumption. These sales were made at firm

prices near the top of ranges quoted last week. Moderate quantities of territory wools of average to good French combing length were moved at \$1.10 to \$1.13, scoured basis. Strictly good French combing wools with some staple length were quoted up to \$1.15. Original bag wools of average to good French combing length brought \$1.10 to \$1.12.

We had prepared ourselves slowly and unconsciously for this eventuality. There need be no fear of any mental breakdown. — Dr. G. Kirby Collier, psychiatrist.

The Lincoln highway is 3384 miles long.

Opens Up Clogged Bronchial Tubes

Spend a few cents today at Everbody's Drug Store or any good drug store for a bottle of Buckley's CANADIAN Mixture (single setting). Take a couple of sips at bedtime. Feel its instant powerful, effective action spread thru throat, head and bronchial tubes. If starts at once to loosen up thick, choking phlegm, soothe, raw membranes and make breathing easier. Sufferers from those persistent, nasty irritating coughs due to colds or bronchitis irritations find Buckley's brings quick relief. Over 10 million bottles sold. Be sure you get Buckley's CANADIAN Mixture.

NOW IS THE TIME TO REMODEL

MODERN BATHROOM OUTFIT

FITTINGS INCLUDED AT THIS PRICE!

3-piece Bath ensemble... recess tub, lavatory, closet and fittings. Exclusive stylings, new features, classic beauty! Consult Sears plumbing experts for an estimate on just the right set for your home. You'll save money at Sears!
