## President Names New Committees

Outline of Year's Work Announced by Mrs. Sabo At Patriotic Luncheon

A large attendance marked the first Soroptimist luncheon of 1942, at the Willard hotel with the new president, Mrs. Coral J. Sabo, presiding, and patriotism the theme of the meet-

At each place stood a tiny American flag, while a larger one hung from the mantel, and over-topping all stood the beau-tiful silk flag which is the pride of every Soroptimist. On an individual table stood the British flag, presented the club some years ago by Great Britain's federation, as a reminder of the close relations between the two countries as well as the two federations of clubs.

Mrs. Sabo brought a short, earnest message to the club, reminding the group that Soroptimism stands for tolerance, sincerity, wisdom, friendship and service those things in life which add to the upbuilding of a community, and asked that every member carry this in mind as the new year starts, to con-tribute to the betterment of conditions where needed and occupy a place of dignity and respect in the community.

"Many things," said Mrs. Sabo, "will be presented to us for consideration during the year ahead. All these must be carefully considered and no hasty action taken." She brought out the realization that in this troubled era many seemingly harmless projects may have hidden subversive ideas that could prove not only embarrassing but harmful to the safety of the na-

The meeting was devoted to business matters with the president outlining the work for the year and naming com-mittees as follows:

Classification, Sophia Ken-offel, chairman, Ruth Ray and Isabella Van Fleet; audit and finance, Eileen Hicks, auditor. Rita Whisenant, chairman of finance, and Isabella Van Fleet; publicity, Ida M. goes cheerfully along, not as if there were no war, but as if the time would soon arrive when there would be no war, with club after club working towards rehabilitation and the building of a new world, quoting from the Burton-on-Trent club which says, "We hope the influence of all So-roptimists will be felt in the new world which will surely come, and that peace will find that we have been working in the dark days and are ready."

Among the programs held by these British clubs build-ing towards a better world for every individual was one at Leeds when a meeting was de-voted to hearing a talk on the development of the clothing industry from the days when clothes were made by journey-men tailors. Improvement of the conditions in the clothing trade was brought about as late as 1918 by the Trade Board acts and the Aliens Immigration Restriction act.

Another club developed the idea of the place of women during and after the war, as prejudice and apathy have to be overcome among the men who still differentiate be-tween the sexes when it comes to remuneration, even though both are doing identical work. This club brought out strongly that just as in war time no one's home is secure while his neighbor's is threatened, so even in peace time disease and poverty and vice cannot be kept from one home unless by a united ef-fort they are banished forever from the national life.

It is interesting to note how many of the British clubs are interested in the American conditions, one club. that at Scarborough, heading a program "Problems for the U. S. A.," this program taking a much more serious view of the mixture of races in our country than the average American does. From club after club on
