May Shut Down Football

PULLMAN, Wash., March 17 PULLMAN, Wash., March 17 (P)—The Pacific Coast conference may scrap its 1942 football schedule because of the 5000 limitation on crowds in the Pacific coast defense area, Earl V. Foster, graduate manager of Washington State college, said,

One of the first pieces of business when the spring confer-ence meeting is held at Port-land next weekend, he said, will be the seeking of clarificaion of the rule.

"We've all heard of this rule," he explained, "but so far as I know no one had received offi-cial notification. Next week-Dallmar sank a basket to make it 35-33. Forward Ed Voss in-creased the lead to 37-33 with end, therefore, we'll, attempt to find out the exact status of the schools with relation to the size center and star, fouled out of the of the crowds that can be as-game and Voss sank a free sembled for sports contests throw to make it 38 to 33. Conference members, he added "may find it more feasible to limit activity too close to home." Besides the crowd limitation ruling and its possible effect on the schedules, the freshman rule will again come up for discus sion, he said.

Foster's statement brought varied reaction.

Edwin N. Atherton, commissioner of the conference, said he thought Foster "undoubtedly is talking for himself and not for the conference," and declared the loop had taken no action to-ward abandoning its football schedule "and we will take none until advised to do so by mili-tary authorities."

Graduate Manager Ken
Priestly of the University of
California commented: "I think
that Earl's statement is a bit
premature. We hope to cover

Al Masters, Stanford graduate
manager, said he thought Foster
was "just guessing."

"We've known for quite a

The important thing is to reach the time when they do want to buy. A lady buyer when the time is ripe.

Newspaper advertisements are the best way to do this-they show buyers the article for sale, tell them its merits. where it is sold—at the time when they most want to buy.

For instance, most people want bathing suits in summer; most people want overshoes in winter.

BUT IT TAKES MORE THAN TIME-LINESS TO PLANT IDEAS IN PEOPLE'S MINDS. IDEAS HAVE TO BE RE-PEATED REGULARLY TO THEM.

Every Sunday thousands of preachers talk to their congregations about religion. Religion meets one of the greatest needs of mankind, but people have to be reminded of it time and again, must have religion interpreted to them week after week, in order that it can do them good in their daily lives.

So it is with any idea, big or small. It takes REPETITION to make it stick in people's minds, whether the idea is that stealing is wicked, or that Vitamin B1 is good for you, or that the XYZ Company makes good bathing suits.

All people don't want to buy the same things at the same time, and admay not need a cake of soap, a can of soup or a safety pin. That's why you'll find the real necessities are advertised regularly in news-
