

GERMAN PEACE TALK ALL OFF, SAYS GOEBBELS

BERLIN, (From German Broadcasts), March 20 (AP) — Propaganda Minister Paul Joseph Goebbels intimated in a magazine article published today that a half year ago there was talk in Germany for a negotiated peace.

"If about six months ago the opinion was occasionally expressed that it would be best to end the war as speedily as possible, even so that one or another problem would be solved only partly or not at all, we are today in the midst of war and everyone wants that it shall be carried to full victory," he wrote in Das Reich, his frequent mouthpiece.

"It is possible that during the fighting of the past five months we have proved to ourselves and to the world how strong we actually are x x x.

"Our distracted continent will again go through the pains of childbirth. But be of good cheer — a new world will be born as a result of these pains."

He acknowledged that the German people had endured "sorrows" during the winter "and still are doing so today to a considerable extent."

He asserted the German army had survived the rigors of the Russian winter and would start an offensive in the spring and summer — after "several weeks of thawing and morass."

DEATH COMES TO LINSY SISEMORE

Mr. Sismore retired from active business in 1941. Anna Orth, daughter of John and Elinor Hill Orth, married Linsy Sismore in Jacksonville, Ore., August 12, 1893. Mrs. Sismore died September 26, 1930. Three sons were born to this union, John Emmett, James Roland "Jerry," and Linsy Orth. The three young men survive their parents, as do two grandchildren, JoAnn and James Pelton Sismore.

Mr. Sismore was active in civic and community affairs not only of the Fort Klamath area, but of the entire county. He was the first Boy Scout master in the county, served since 1926 on the Klamath county library board, was the first man in the first class initiated into the local Elks lodge in 1911, and he has kept a continuous interest in this organization since that time.

Final rites will be held at 11 o'clock Monday morning in the Elks temple here with Whitlock's funeral home in charge. Interment will take place in the family plot in Jacksonville.

Throughout Klamath Falls sincere sentiment was expressed upon word of the passing of Mr. Sismore. He was considered one of the community's finest residents and a man whose high ideals were expressed in his long life of service and friendship.

Dance Committee

This committee is in charge of the spring sports dance sponsored by the junior chamber of commerce to be held at the armory Saturday night, March 21. Left to right: Walter Bowne, Howard Smith and Adolph Zamske.

Attack From North Would Lick Japan Quickly, Says World Traveler on Visit

By MARY JANE JENKINS The U. S. can lick Japan quickly and thoroughly by attacking her from the north, in the opinion of Marvin Klemme, former state regional grazier in Klamath Falls this week. Klemme, indulging in the great American sport of strategy-planning, bases his "plan of attack" on the fact that the Japanese are not trained to fight in the cold and have never even settled in the northern part of their islands without the lure of a subsidy from the Japanese government.

Klemme has traveled extensively through Japan, China, Manchukuo, Russia, Germany and the Balkans, and was in Turkey on the day that Germany invaded Russia.

"The Japanese are excellent fighters," Klemme thinks. "I'd put them right after the Americans and the English for ability; and they're very efficient. Their heavy industries are concentrated and running full blast in Manchukuo, which is as much a part of Japan as Kansas is a part of the U. S."

Japs Hate British The Japanese people, considered apart from their military leaders, have always been pro-American, Klemme feels. They

FORESTRY EXPERT SPEAKER AT ROTARY

Marvin Klemme, Burns, closely connected with the forestry interests of the state, was the speaker at noon Friday before members of Rotary club when he spoke on his observations in the Far east, Manchuria and Japan, just prior to the outbreak of the war.

Klemme, introduced by E. B. Hall, was sent to the orient to study forestry and assist the foreign countries with their reforestation program. Here he noticed the preparations made by Japan in occupied Manchuria, how they have moved their heavy industries inland and the methods used in converting the country into Japanese use.

LONDON, March 20 (AP)—The Vichy radio broadcast a report tonight that soviet forces have entered Staraya Russa, northwestern anchor of the German winter line where 98,000 Germans of Hitler's 16th army long have been trapped.

The fear of housewives' wrath is said to be one thing keeping Canadian retail prices down. Prices and ladies hitting the ceiling at the same time would not be so good.

We used to wonder what made the wheels go 'round. Now we're wondering when they're going to start rationing it.

Busses in the United States during 1939 operated 2,281,000, 000 revenue miles, or the equivalent of 24 trips from the earth to the sun.

LABOR CHIEFS WARN AGAINST RESTRICTIONS

(Continued From Page One) war production since Pearl Harbor. "The charge that strikes are impeding the war production is a gross slander upon the patriotism of American workers," Murray said. "We can not in this country reach a maximum productive effort by the methods of Hitler, by enslaving our working people."

Policy Needed But, at almost the same time, Ralph Bard, assistant secretary of the navy, told the house naval committee that congress should establish a national labor policy unless it was done voluntarily at "the earliest possible moment" and said "controversy" over the closed shop had impeded production in some instances. He was testifying on the Smith bill to prohibit closed shop contracts in plants with navy and army contracts, and suspend the maximum hours law in them.

Bard described double pay for Sunday and holidays as "undesirable" and said he hoped that "within 30 days" the question of paying double time would be settled. He said the 40-hour week had not handicapped navy production and that some employees were working 48, 52 and 62 hours a week. He opposed the suspension of the 40-hour week, saying "there must be a ceiling on hours."

WASHINGTON, March 20 (AP) President Roosevelt suggested today a possibility that there might be some shortages of labor for war production by next fall.

He told a press conference that until that time there probably would be enough workmen for the tasks assigned. But, he said, plans are not yet ready for a systematic allocation of labor to war industry under a manpower mobilization program.

State Charges Canaday Committed Murder on Birthday

YREKA, Calif., March 19 (UP)—The state charged today that William Lee Canaday observed his 43rd birthday last Dec. 4 by dressing up in his best clothes and committing a murder.

Canaday is on trial in superior court here on charges he shot his boss, Hugh E. Holland, 71 Southern Pacific railroad section foreman, to death, sprayed the body with oil and set it afire.

PICKETS REMOVED

SAN FRANCISCO, March 19 (UP)—Pickets were removed from 18 hotels in downtown San Francisco today following action of the war labor board in assuming jurisdiction over the six-month-old hotel strike.

The WLB acted on the report of Prof. Paul Eillel, Stanford University economist, who conducted an investigation to determine whether the strike was affecting the national war effort.

NO one wants workers FORCED to stay on the job. That isn't the American way. But there IS a sharp difference in our treatment of those who stay at home and benefit by war conditions and those who give up everything they value most and go forth to FIGHT for their homeland.

THERE isn't much you can do about the war fronts. But if you don't like the way things are going on the home front you can write your congressman and your senators, telling them what you think about it and what you want done.

Your congressman and your senators are the only part of your government you can GET AT. If you keep still, they assume you LIKE the way things are going.

GENERAL SAYS PHILIPPINES TO GET RELIEF

(Continued From Page One) fare based on retaliation and hatred," and declared that Japan would reciprocate. Jap Cruiser Hit The war department announced in Washington that two U. S. army bombers scored a direct hit on a large Japanese cruiser at Rabaul, New Britain island, northeast of Australia.

Presumably, this was the same attack reported yesterday by the Royal Australian air force. A British broadcast said allied bombers again blasted at Japanese-occupied Dutch Timor island, one of the main bases for Japan's threatened invasion of Australia.

Few details were available regarding the developing conflict on New Guinea island. Dispatches from the embattled island said Australian forces had begun sniping at Japanese invasion columns driving down toward Port Moresby, only 300 miles from the Australian mainland.

Japanese warplanes twice raided Port Moresby again today but were driven off after strafing the airfield.
