

FRESH GATHER MOST IRON IN SPRAGUE DRIVE

SPRAGUE RIVER—In one of the most bitterly staged contests ever held here, the freshman class of the Sprague River high school won the three-day drive for the collection of scrap iron. The contest was staged among the upper six grades in the school.

The judges, Mario Carnini, Ben Wolford and Dwight Kirchner judged the contest at 6 o'clock Friday night with most of the high school looking on. The judges estimated that the classes had collected in the neighborhood of 20 tons of the metal in the last three days, in addition to over 100 old tires.

Each class put its metal in a separate pile and the school yard by closing time of the contest, had all of the earmarks of a junk yard. Buyers were interviewed Saturday to estimate the weight and figure a way to move the metal.

Included in the various piles were numerous old stoves, car bodies, rail irons, farm machinery, logging machinery and other articles ranging from a few ounces to a thousand pounds.

One of the most interesting sidelights of the contest was the efforts of the eighth grade with three boys and six girls in moving a 1000 pound truck body. Finally the other classes pitched in and gave a hand.

The coveted prize for the winning class is a half-day holiday from school. It was a bitter battle toward the closing hours of the contest between the freshmen, sophomores and seventh grade.

Haynes to Review Cronin Book at Tulelake Tea

TULELAKE — Rev. Eugene Haynes, pastor of the Klamath Falls Community Congregational church will review the book, "Keys of the Kingdom" by Dr. A. J. Cronin at a silver tea, April 16 at the home of Mrs. D. W. Turnbaugh. The tea is sponsored by the Winema Welfare club, proceeds to be entirely turned over to the Red Cross. Mrs. Tom Newton will be co-hostess with Mrs. Turnbaugh. Cronin was born in Cardross, Scotland, and received his medical education at the University of Glasgow. He later served as a surgeon lieutenant in the royal navy volunteer reserve. After years of practicing medicine he wrote his first novel, "Hatter's Castle," in 1930. "Christ's Promise to Peter," "And I Will Give Thee the Keys to the Kingdom of Heaven" gave him the title for his most recent masterpiece, the epochal story of devoted missionaries.

Everyone interested is invited to attend and guests will gather at 1:30 o'clock.

From where I sit

by Joe Marsh

RUMMAGING through my desk the other day, I came across some snapshots of friends of mine made back in 1933.

If you don't think time flies ... if you don't think this world ever changes ... you ought to look at the women's hats and dresses in those pictures taken 9 years ago! Wow!

It gave me quite a start ... and then it set me to thinking ... and rememberin'! Lots of things sure happened in 1933. A new administration in Washington ... the turning point of the depression ... and the coming of Repeal.

I remember the re-legalization of beer. It came before Repeal, when Congress amended the old Volstead Act to allow legal sale of "1.2" beer.

What talk and arguments they had in those days! One argument I remember well ... was that beer would do a lot to help bring back prosperity. I wondered at the time whether that argument could be proved.

I thought about that again, the other day. I decided to check up and find out.

Well, I found out plenty. I found out that legal beer has paid more than 3 billion dollars in taxes since 1933. It has made more than a million new jobs.

According to one of the reports I've seen, beer has put more than 15 billion dollars into general business circulation. Goodness me, that's a lot of money.

Beer is sold today in every state in the Union. Every state benefits from beer's jobs and taxes. And I guess there's no denying that beer did do its share in bringing back better times.

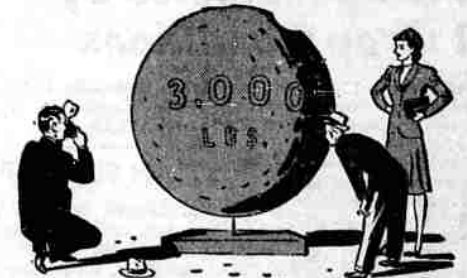

I'm glad it did, too, because beer is such a pleasant, appetizing beverage. And it stands for moderation and moderate people ... it's not likely to get you in trouble.

ARE YOU GRINDING AWAY YOUR WHEEL BEARINGS?

Sand and silt washed in by winter rains grind away on vital wheel bearings. Don't neglect them. They need inspection now!

1. Under the grinding wear of sand and abrasive grit, your wheel bearings can cause trouble. Once they are loose and worn they can make wheels shimmy and wear out irreplaceable tires. Bearings are expensive, too. Depending on your car, they cost from \$10 to \$50 installed.

2. You see, the full weight of your car rests on these bearings—on surfaces as tiny as a pin-point, or as thin as a razor blade. That is why car manufacturers recommend that wheel bearings be properly packed and sealed every 3000 miles, and particularly at this time of year.

3. The Union Minute Men have special tools for this vital service. They remove the front wheels and carefully wash out the bearings with solvent. Then they force in under extreme pressure an especially compounded lubricant. This lubricant (exclusive at Union Oil stations) not only seals the bearings from dirt, abrasives and water, but it will also withstand heat as high as 360°.

AT ALL UNION OIL STATIONS

REPACK FRONT WHEELS

60¢ PER WHEEL

FOR Chevrolet, Ford, Plymouth, Studebaker, Champion, Willys, Hudson 112, Nash 600, Overland, Austin, Bantam, Crosley.

ALL OTHER PASSENGER CARS: 75¢ PER WHEEL

4. Since practically all cars require repacking of front wheels only, the total charge for wheel bearing service is \$1.20 or \$1.50, depending on the car. This special service gives you absolute protection for 3,000 miles. It should be done right now. So drive in and have the Union Minute Men check your bearings today.
